Long Live The Child:

The Figure of the Child in WWI American, British, and Canadian Children's Literature Elizabeth A. Galway, 2022-03-30 Over the past century much attention has been paid to the literature written for adults in response to the First World War but there has been comparatively little consideration of how the war influenced literature for young readers at the time Based on extensive archival research this study examines an array of wartime writing for young people and provides a new understanding of the complexities and nuances within children's literature of the period In its discussion of nearly 150 primary sources from Britain Canada and the United States this volume considers some well known texts but also brings to light forgotten children's literature of the era providing new insights into how WWI was presented to the young people whose lives were indelibly impacted by the crisis Paying special attention to the varied ways in which child figures were depicted it reflects on what these portrayals reveal about adult conceptualizations of youth and it considers how these may have shaped young readers own views of armed conflict citizenship and childhood From the helpless victim to the heroic combatant child figures appeared in many guises exposing a range of adult concerns about nation empire and children's citizenship Exploring everything from alphabet books for beginning readers to recruitment materials for high school students this book examines works from multiple genres and provides a uniquely comprehensive study of transatlantic children's literature produced during the first global war

Budapest's Children Friederike Kind-Kovács, 2022-07-05 In the aftermath of World War I international organizations descended upon the destitute children living in the rubble of Budapest and the city became a testing ground for how the West would handle the most vulnerable residents of a former enemy state Budapest's Children reconstructs how Budapest turned into a laboratory of transnational humanitarian intervention Friederike Kind Kovács explores the ways in which migration hunger and destitution affected children's lives casting light on children's particular vulnerability in times of distress Drawing on extensive archival research Kind Kovács reveals how Budapest's children as iconic victims of the war's aftermath were used to mobilize humanitarian sentiments and practices throughout Europe and the United States With this research Budapest's Children investigates the dynamic interplay between local Hungarian organizations international humanitarian donors and the child relief recipients In tracing transnational relief encounters Budapest's Children reveals how intertwined postwar internationalism and nationalism were and how child relief reinforced revisionist claims and global inequalities that still reverberate today

James Dean is Dead! (Long Live James Dean) Jackie Skarvellis, 2018-07-26 James Dean Hollywood's hottest star steps out of his crashed car and looks back on his short life A timely look at how the Hollywood powerful use sex drugs and power to make and break careers A no holds barred look at the life of an icon *I Will Take the Answer* Ander Monson, 2020-02-04 A moving and wide ranging collection of essays by the author of Letter to a Future Lover The idea of connection permeates I Will Take the Answer Ander Monson's fourth book of utterly original and intelligent essays How is our present connected to our past and future How do neural connections form memories and why do we recall them when we do And how do we connect with one another in meaningful ways across time and space In the opening essay which extends across the book in brief subsequent pieces a trip through a storm sewer in Tucson inspires Monson to trace the city's relationship to Jared Lee Loughner the gunman who shot Gabrielle Giffords and killed six bystanders along with how violence is produced and how we grieve and honor the dead With the formally inventive I in River he ruminates on water in a waterless city and the structures we use to attempt to contain and control it Monson also visits the exuberantly nerdy kingdom of a Renaissance Faire and elaborates on the enduring appeal of sad songs through the lens of March Sadness an online competition that he cofounded an engaging riff on the NCAA basketball tournament brackets in which sad songs replace teams As personal and idiosyncratic as the best mixtape I Will Take the Answer showcases Monson's deep thinking and broad ranging interests his sly wit his soft spot for heavy metal and his ability to tunnel deeply into the odd and revealing sometimes subterranean worlds of American life *Broughton's monthly planet reader and astrological journal* Luke Dennis Broughton, 1860 Astrological observations on the nativity of Abraham Lincoln and the fate of the nation [Drought in Brazil](#) Erwin De Nys, Nathan Engle, Antônio Rocha Magalhães, 2016-08-05 Drought is a slow onset natural hazard that is often referred to as a creeping phenomenon The challenge of monitoring drought's onset and evolution and identifying its termination or end is one that scientists natural resource managers and decision makers have been struggling with for decades However drought management must be aimed at reducing the risks of future drought events on economies the environment and the social fabric of regions As with many countries droughts are often managed as a crisis in Brazil rather than events for which officials and communities proactively prepare Although droughts are not new to Brazil the recent spate of droughts in the poverty stricken semi arid Northeast and the industrial hub of São Paulo in the Southeast has forced the country to think more seriously about finally changing its drought policies and management approaches The book is told through the perspectives of the ministers and secretaries state policy and technical officials civil society organizations and development practitioners that helped to facilitate the shift in paradigm in Brazil from crisis management and towards proactive management of droughts It is written in a style that is appealing to both technical and non technical audiences and

aims to provide a framework and lessons for other countries to consider when embarking upon similar efforts to improve their own drought policy and management systems Where Texts and Children Meet Eve Bearne, Victor
