From Starship Captains to Galactic Rebels Kimberly Yost, 2013-12-12 Real world leaders hold the fates of companies, armies and nations in their hands but the leaders portrayed in science fiction play for larger stakes. Their decisions determine the survival of species, planets or reality itself. They tend therefore to be larger than life characters like Doc Savage, Obi Wan Kenobi and Captain James T. Kirk. In *From Starship Captains to Galactic Rebels* Kimberley Yost brings the principles of leadership studies to bear on characters from a quarter century of classic science fiction television series, examining how their adventures can illuminate the challenges of real world leadership. These in-depth case studies cover a full range of science fictional leaders from conventional heroes such as Jonathan Archer of *Star Trek Enterprise* to William Adama and Laura Roslin, the dark conflicted protagonists of *Battlestar Galactica*. Charismatic rebels like Malcolm Reynolds of *Firefly* and the ragtag fugitives of *Farscape* stand alongside pillars of the establishment like John Sheridan of *Babylon 5*. In her analysis Yost considers emerging, flawed and failed leaders as well as successful ones, women as well as men and aliens as well as humans. An insightful examination of how leadership is represented on the small screen, *From Starship Captains to Galactic Rebels* will appeal not only to fans of televised science fiction but also to those grappling with the problems of leadership regardless of their species.

Invoking Darkness Jeanne Cavelos, 2001 As the Shadows gather for their ultimate victory over the galaxy, Galen, the possessor of the unstoppable Spell of Destruction, leaves the stronghold of the techno-mages to lend his assistance in the final apocalyptic battle against the evil of the Shadows.

Iron Man Peter David, 2008-04-04 When billionaire weapons designer Tony Stark is injured and kidnapped in the middle of a war zone, he forges a technologically advanced suit of power armor to stay alive, thus turning himself into the hero Iron Man.

Armies of Light and Dark Peter David, 2000 The Drakh have assaulted Earth with deadly Shadow technology but the worst is yet to come in this stunning continuation of the *Babylon 5* epic adventure. Centauri Prime has been infiltrated by malevolent allies of the Shadows, creatures known as the Drakh. While Centauri citizens continue to rebuild their war-torn planet, their secret masters work feverishly toward one ultimate goal: to crush the Interstellar Alliance once and for all. As the Drakh carry out their horrific plans, Emperor Londo Mollari languishes on his throne, a puppet of the Drakh, bred, keeper, an insidious creature that monitors his every thought, word and action. While the emperor broods, the power-obsessed Lord Durla, an unwitting
