Looking Beyond the Runway Nawal K. Taneja, 2016-12-05 The global airline industry facing significant changes and discontinuity is prompted and forced to deal with a new normal Who would have imagined a few years ago that a significant percentage of consumers in the US now prefer to fly low cost airlines instead of full service airlines because they perceive the product to be better airlines would generate up to a third of their total income from non ticket revenue many low cost airlines would add complexity to their original simple business models through the development of code share agreements the use of global distribution systems and travel agents to distribute their seats Jetstar a low cost subsidiary of Qantas would grow faster and be more profitable than its parent a survey carried out by Ryanair would show that 42 percent of passengers would be willing to stand on short one hour flights if they could pay 50 percent less than seated passengers passengers could pay as little as US 2 000 for a transatlantic Business Class ticket on top brand airlines Lufthansa would have ownership in airlines based in Austria Belgium Italy Switzerland Turkey the UK and the US and that it would continue to pursue equity ownership in airlines based in Poland and Scandinavia or the Japanese and Canadian governments would struggle to find different ways to bail out their heretofore flag carriers To deal with this upcoming new normal airlines have to go beyond their short term circumstantial strategies they need strategic renewal of their ageing business model In this candidly written book Nawal Taneja explains what will separate the winners from the losers He maintains the leaders will be the airlines that 1 exploit this crisis driven change to their best advantage 2 learn to work around the airline inherent constraints that prevent them from running their businesses just like other businesses 3 learn from successes and failures of other global enterprises 4 sharpen their business intelligence analytics and strategic agility and 5 proactively explore the pockets of growth in this emerging markets century To help airline executives become informed of new competitive games

the author analyzes numerous business sectors such as auto hospitality retail technology and entertainment For example relevant lessons can be learned from the strategic mistakes made by the US automakers Likewise emergent and compelling insights can be gained in superior customer experience from Ritz Carlton and Zappos and in value creating innovation from Cirque du Soleil and Zipcar The book also features a multitude of forewords from airlines and related businesses to provide readers with multiple perspectives on the changing landscape in the global airline industry Nawal Taneja is a career analyst of the global airline industry with wide ranging experience in the aviation industry academia and public policy Encouraged by industry executives he has written five other books for practitioners in the global airline industry including FASTEN YOUR SEATBELT The Passenger is Flying the Plane and Flying Ahead of the Airplane

Looking Beyond Borderlines Lee Rodney, 2016-12-19 American territorial borders have undergone significant and unparalleled changes in the last decade They serve as a powerful and emotionally charged locus for American national identity that correlates with the historical idea of the frontier But the concept of the frontier so central to American identity throughout modern history has all but disappeared in contemporary representation while the border has served to uncomfortably fill the void left in the spatial imagination of American culture This book focuses on the shifting relationship between borders and frontiers in North America specifically the ways in which they have been imaged and imagined since their formation in the 19th century and how tropes of visuality are central to their production and meaning Rodney links ongoing discussions in political geography and visual culture in new ways to demonstrate how contemporary American borders exhibit security as a display strategy that is resisted and undermined through a variety of cultural practices Looking Beyond Averages in the Trade and Poverty Debate Martin Ravallion, 2004

There has been much debate about how much poor people in developing countries gain from trade openness as one aspect of globalization Ravallion views the issue through both macro and micro empirical lenses The macro lens uses cross country comparisons and aggregate time series data The micro lens uses household level data combined with structural modeling of the impacts of specific trade reforms The author presents case studies for China and Morocco Both the macro and micro approaches cast doubt on some wide generalizations from both sides of the globalization debate Additionally the micro lens indicates considerable heterogeneity in the welfare impacts of trade openness with both gainers and losers among the poor The author identifies a number of covariates of the individual gains The results point to the importance of combining trade reforms with well designed social protection policies Cover verso

finding that purpose in God and fighting for the blessings we're promised in Heaven interwoven with Christ's compassion and the companionship of a fellow Christian

Looking Beyond the Highway Claudette Stager, Martha Carver, 2006 Looking beyond the Highway is an examination of road history and roadside attractions specific to the South. Focused in part on numerous aspects of the material culture landscape of the Dixie Highway, the essays consider the politics of roadbuilding, roadside entertainment, the buildings and businesses one might encounter along the road, and regional adaptations to the needs and desires of northern tourists. Following the Dixie Highway from southern Illinois to Florida, with sidetrips down other southern roads, the essays cover a wide variety of subjects, many of which will resonate with anyone who has ever lived in or vacationed in the South. Harrison Mayes's "Get Right With God" signs, the park and pray craze of outdoor drive-in church services, the rise and demise of brick highways, the fierce political battle over the route of the Dixie Highway, beach music, and the evolution of motel architecture in Myrtle Beach, Florida's early tourist towers, and the commercial development of Tennessee caves as tourist attractions. Covering a landscape that includes Tennessee, Georgia, North Carolina, Florida, Mississippi, Indiana, Virginia, Arkansas, Ohio, Kentucky, Alabama, and Illinois, the anthology shows that there was and still is a distinctive southern culture, and how roads have influenced that culture. As lively as they are diverse, the articles provide a solid background for understanding roadside ephemera that have disappeared or are quickly disappearing. Ranging from the serious to the light-hearted and including descriptions of American road and roadside icons to kitsch, the book will appeal to anyone with an interest in road history and roadside architecture.

Looking Beyond the Structure Dan

Bucsesu, Michael Eng, 2009-11-20 In Looking Beyond the Structure, architect Dan Bucsesu and philosopher Michael Eng record their conversations about the relationship of the built environment and other forms of design to the culture in which they are created. The authors exchange their interpretations of selected readings about design theory and invite the reader to join in the discussion. Questions following each chapter's reading stimulate critical thinking about the philosophies and theories of design, and additional assignments encourage students to express their critical thinking skills visually.

Looking Beyond Profit Peggy Chiu, 2016-05-06 In this revealing book, Peggy Chiu argues against the common belief that maximizing wealth is the primary concern of ordinary small shareholders when they make their share-buying decisions. This fascinating in-depth study of small shareholders provides both theoretical and empirical insights into their personal values and attitudes to corporate social responsibility (CSR). The author establishes that personal values are a major influence on decisions about the type of investments people make and about which companies they choose to invest in. Financial risk and return are far from being the only factors that determine small shareholders' investment decisions. Irresponsible behaviour is not acceptable and will not attract investment from this significant group. Looking Beyond Profit is an essential book not just for encouraging investment managers to look more closely at their environmental impacts, but for finance advisers and all concerned with corporate governance, either as practitioners, researchers, business educators, or students.
