**Looking for Trouble** Richard Beeston, 2006      *Killing the Messenger* Herbert N. Foerstel, 2006-03-30 Killing the Messenger reveals the dangerous new face of war and journalism Covering armed conflicts has always been dangerous business but in the past press heroes like Ernie Pyle and Edward R Murrow faced only the danger of random bullets or bombs Today s war correspondent is actually in the cross hairs a target of combatants on all sides of conflicts In their own words correspondents describe the new dangers they face and attempt to explain why they are targeted Killing the Messenger reveals the dangerous new face of war and journalism Covering armed conflicts has always been dangerous business but in the past press heroes like Ernie Pyle and Edward R Murrow faced only the danger of random bullets or bombs Today s war correspondent is actually in the cross hairs a target of combatants on all sides of conflicts In this book correspondents describe the new dangers they face and attempt to explain why they are targeted Is it simply that modern combatants are more brutal than in the past or has journalism changed making correspondents players rather than observers in modern warfare Extended interviews with correspondents who have been abducted and tortured during Middle East conflicts shed chilling light on this new face of war These journalists who have paid dearly to bring first hand images of war to the public offer some surprising insights into the nature and motivation of their kidnappers and the reasons why reporters are targeted They display no self pity and little inclination to blame anyone other than themselves At the same time they are candid in describing the violence within Iraq and without Ways to reduce the risks for reporters are discussed but these editors and correspondents suggest that short of withdrawing into isolated and protected enclaves they may be facing an indefinite escalation of violence against journalists      We Are Your Soldiers Alex Rowell, 2023-11-14 The Best of The Economist s Middle East coverage in 2024 A searing exploration of authoritarianism in the Middle East through the legacy of Gamal Abdel Nasser s years in power in Cold War era Egypt Gamal Abdel Nasser the larger than life Egyptian president who ruled for eighteen years between the coup d tat he led in 1952 and his death in 1970 is best known for wresting the Suez Canal from the British and French empires and befriending such iconic revolutionaries as Fidel Castro and Che Guevara Yet there is a darker side to Nasser s regime He was a brutal authoritarian whose legacy Alex Rowell argues lies at the heart of the violent and repressive order that still prevails throughout the Arab world today We Are Your Soldiers examines seven countries Egypt Iraq Syria Lebanon Jordan Yemen and Libya weaving the epic tale of Nasser s dramatic encounters with each to reassess his impact in the Arab sphere These engagements were often drenched in blood and destruction leaving deep scars that endure to the present Rowell shows how the Nasser years were crucial to the formation of regimes as varied as Bashar al Assad s Syria Muammar al Gaddafi s Libya Saddam Hussein s Iraq and Abd al Fattah al Sisi s Egypt Crushing democracy at home while launching wars and slaying opponents abroad Nasser ushered in the long political winter from which the region is still yet to emerge Drawing on a deep reading of Arabic sources extensive interviews and material never

before published in English Rowell offers a necessary reexamination of Nasser's rule and a new understanding of the politics of the Middle East

**Media and Mass Atrocity** Allan Thompson, 2019-04-05 When human beings are at their worst as they most certainly were in Rwanda during the 1994 genocide the world needs the institutions of journalism and the media to be at their best Sadly in Rwanda the media fell short Media and Mass Atrocity revisits the case of Rwanda but also examines how the nexus between media and mass atrocity has been shaped by the dramatic rise of social media It has been twenty five years since Rwanda slid into the abyss The killings happened in broad daylight but many of us turned away A quarter century later there is still much to learn about the relationship between the media and genocide an issue laid bare by the Rwanda tragedy Media and Mass Atrocity revisits the debate over the role of traditional news media in Rwanda where confronted by the horrors taking place international news media for the most part turned away and at times muddled the story when they did pay attention Hate media outlets in Rwanda played a role in laying the groundwork for genocide and then actively encouraged the extermination campaign The news media not only failed to fully grasp and communicate the genocide but mostly overlooked the war crimes committed during the genocide and in its aftermath by the Rwandan Patriotic Front The global media landscape has been transformed since Rwanda We are now saturated with social media generated as often as not by non journalists Mobile phones are everywhere And in many quarters the traditional news media business model continues to recede Against that backdrop it is more important than ever to examine the nexus between media and mass atrocity The book includes an extensive section on the echoes of Rwanda which looks at the cases of Darfur the Central African Republic Myanmar and South Sudan while the impact of social media as a new actor is examined through chapters on social media use by the Islamic State and in Syria and in other contexts across the developing world It also looks at the aftermath of the genocide the shifting narrative of the genocide itself the evolving debate over the role and impact of hate media in Rwanda the challenge of digitizing archival records of the genocide and the fostering of free and independent media in atrocity s wake The volume also probes how journalists themselves confront mass atrocity and examines the preventive function of media through the use of advanced digital technology as well as radio programming in the Lake Chad Basin and the Democratic Republic of Congo Media and Mass Atrocity questions what the lessons of Rwanda mean now in an age of communications so dramatically influenced by social media and the relative decline of traditional news media
