Paul Getty Museum** Gillian Wilson, Catherine Hess, 2002-03-07 J Paul Getty had a passion for the exquisitely made furniture and decorative objects of eighteenth century France which he began collecting in the 1930s. Gillian Wilson, curator of decorative arts since 1971, has broadened and strengthened the collection, adding Boulle furniture, mounted oriental porcelain tapestries, clocks, ceramics, and more. In the 1980s and 1990s the Museum continued to enlarge its decorative arts holdings, creating a European sculpture department in 1984 and adding glass, maiolica, goldsmiths' work, *pietre dure* and furniture from Italy and Northern Europe. This book is a revised and expanded edition of *Decorative Arts: An Illustrated Summary Catalogue of the Collection of the J. Paul Getty Museum*, 1993. In addition to more than forty recent acquisitions, among these four wall sconces from Versailles that once belonged to Marie Antoinette and an elaborate upholstered bed from the collection of Karl Lagerfeld, it includes the results of years of research. Designed for scholars, students, and devotees of the decorative arts, this volume provides a comprehensive look at the Getty's fine collection. **Images Libraries Museums/Arch** Amy Mccoll, 2005-07-19 First Published in 1997. Focusing on the use of words in art and words as art forms, thematic chapters include *Pictures in Words*, *Words in Pictures*, *Word Picture Puzzles*, *Picture Word Puzzles*, *Words as Images*, *The Power of the Word*, and *Monumental and Moving Words*. Chapter subsections further explore cross-cultural themes. Examining text and image relationships from the obvious to the elusive, the puzzling to the profound, the minor to the major, the book demonstrates the diverse ways in which images and writing have been combined through the ages and explores the interplay between visual and written communication in a wide range of thought-provoking examples. A color insert is included. Instructors considering this book for use in a course may request an examination copy here. **Global Objects** Edward S. Cooke, Jr., 2022-10-04 A bold reorientation of art history that bridges the divide between fine art and material culture through an examination of objects and their uses. Art history is often viewed through cultural or national lenses that define some works as fine art while relegating others to the category of craft. *Global Objects* points the way to an interconnected history of art, examining a broad array of functional, aesthetic objects that transcend geographic and temporal boundaries and challenging preconceived ideas about what is and is not art. Avoiding traditional binaries such as East versus West and fine art versus decorative art, Edward Cooke looks at the production, consumption, and circulation of objects made from clay, fiber, wood, and nonferrous base metals. Carefully considering the materials and process of making and connecting

process to product and people he demonstrates how objects act on those who look at use and acquire them He reveals how objects retain aspects of their local fabrication while absorbing additional meanings in subtle and unexpected ways as they move through space and time In emphasizing multiple centers of art production amid constantly changing contexts Cooke moves beyond regional histories driven by geography nation state time period or medium Beautifully illustrated Global Objects traces the social lives of objects from creation to purchase and from use to experienced meaning charting exciting new directions in art history
