life of a spinster Gideon Wolfe Earl of Harrington has been avoiding marriage but a case of mistaken identity in the library has left him saddled with an argumentative and unwilling fiancé What readers are saying I enjoyed seeing the relationship play out between the two main characters especially since the author decided to make them both forthright and honest with each other being able to pick up on emotional cues instead of relying on misdirection and misinterpretation to lengthen the story as is usually the case in this genre Their characters and their relationship develop at an almost perfect pace as the book progresses with bumps along the newlywed road of course If you like a strong female this is the book for you The Fair Maid of Perth Walter Scott,1894-01-01 *The Whenabouts of Burr: A Science Fiction Novel* Michael Kurland,2015-12-03

Someone has taken the original document of the U S Constitution and substituted another The substitute is identical just as old and equally authentic except it has been signed by Aaron Burr It contradicts history but it is real and there for everyone to see Such a crime calls for out of this world detective work There must be alternate Americas and one of them must be an American union that Burr helped shape With a few impossible coins the path is indicated and the search for THE WHENABOUTS OF BURR begins It s a hunt through all the alternate universe Americas that might have been with Alexander Hamilton to point the way and Aaron Burr to block it A classic science fiction novel combining future past and present in a super science history mystery Features a new introduction by Michael Kurland The Congregationalist and Christian World ,1901 **Studies in Late Medieval Wall Paintings, Manuscript Illuminations, and Texts** Clifford

Davidson,2016-12-19 This volume is an interdisciplinary consideration of late medieval art and texts falling into two parts first the iconography and context of the great Doom wall painting over the tower arch at Holy Trinity Church Coventry and second Carthusian studies treating fragmentary wall paintings in the Carthusian monastery near Coventry the devotional images in the Carthusian Miscellany and meditation for simple souls in the Carthusian Nicholas Love s Mirror of the Blessed Life of Jesus Christ Emphasis is on such aspects as memory participative theology devotional images meditative practice and techniques of constructing patterns of sacred imagery And None Shall Make Them Afraid Rick Richman,2023-03-07 This is the story of how Zionism supported by Americanism created a modern miracle told through the little known stories of eight individuals who collectively changed history And None Shall Make Them Afraid presents eight historic figures four from Europe Theodor Herzl Chaim Weizmann Vladimir Jabotinsky and Abba Eban and four from America Louis D Brandeis Golda Meir Ben Hecht and Ron Dermer who reflect the intellectual and social revolutions that Zionism and Americanism brought to the world In some cases the stories have been forgotten in other cases misrepresented in still others not yet given their full due But they are central to the miraculous recovery of the Jewish people in the twentieth century Taken together they recount both a people s return to its place among the nations and the impact on history that a single individual can make More than a century ago after studying the early Zionist texts Brandeis concluded that Jews were the trustees of their history charged to carry forward what others in the past have borne so well The stories in this book recording the extraordinary

efforts of extraordinary individuals that created the modern state of Israel and then sustained it reinforce Brandeis's observation for our own time. The story of Zionism and its interaction with Americanism is a continuing one. This book is not only about the past but the present and future as well. *The Guardian* Joyce Sweeney, 2015-02-10. After Hunter prays to the angel Gabriel to protect him, he is shocked when a motorcycle rider appears to answer his prayers. Hunter has spent his life going from foster home to foster home; he's never had a real family looking after him. When his foster father dies, he is left at the mercy of his abusive foster mother Stephanie, who resents Hunter for coming into their home and ruining her perfect life. Between living with Stephanie's cruelty and dealing with the school bully, Hunter feels like he has no one to turn to except for the angel Gabriel, who visited Hunter when he was a kid and promised he'd always watch over him. Although he hasn't spoken to Gabriel in a long time, Hunter is desperate to avoid getting beaten again, so he prays for help, and Gabriel answers. Every time Hunter asks Gabriel for something, he receives it. Is he really being protected by a guardian angel? Hunter can't believe he could ever be so lucky, but if an angel isn't protecting him, who is?

A monumental and exhilarating history of European thought from the end of Antiquity to the beginning of the Enlightenment, 500 to 1700 AD, tracing the arc of intellectual history as it evolved, setting the stage for the modern era. With more than 140 illustrations, 90 in full color. Charles Freeman, lauded historical scholar and author of *The Closing of the Western Mind: A Triumph* (The Times, London), explores the rebirth of Western thought in the centuries that followed the demise of the classical era. As the dominance of Christian teachings gradually subsided over time, a new open-mindedness made way for the ideas of morality and theology, and fueled and formed the backbone of the Western mind of the late Middle Ages, the Renaissance, and beyond. In this wide-ranging history, Freeman follows the immense intellectual development that culminated in the Enlightenment, from political ideology to philosophy and theology, as well as the fine arts and literature. He writes in vivid detail of how Europeans progressed from the Christian-minded thinking of Saint Augustine to the more open-minded later scholars such as Michel de Montaigne, leading to a broader, more humanist way of thinking. He explores how the discovery of America fundamentally altered European conceptions of humanity, religion, and science; how the rise of Protestantism and the Reformation profoundly influenced the tenor of politics and legal systems with enormous repercussions; and how the radical Christianity of philosophers such as Spinoza affected a rethinking of the concept of religious tolerance that has influenced the modern era ever since.
