Phillips, 2018-03-07 This volume offers a new introduction to the American Renaissance exploring many of the key themes genres and social and cultural contexts that inform the best new scholarship in the field [The Sketch, the Tale, and the Beginnings of American Literature](#) Lydia G. Fash, 2020-03-31 Accounts of the rise of American literature often start in the 1850s with a cluster of great American novels Hawthorne's *The Scarlet Letter* Melville's *Moby Dick* and Stowe's *Uncle Tom's Cabin* But these great works did not spring fully formed from the heads of their creators All three relied on conventions of short fiction built up during the culture of beginnings the three decades following the War of 1812 when public figures glorified the American past and called for a patriotic national literature Decentering the novel as the favored form of early nineteenth century national literature Lydia Fash repositions the sketch and the tale at the center of accounts of American literary history revealing how cultural forces shaped short fiction that was subsequently mined for these celebrated midcentury novels and for the first novel published by an African American In the shorter works of writers such as Washington Irving Catharine Sedgwick Edgar Allan Poe and Lydia Maria Child among others the aesthetic of brevity enabled the beginning idea of a story to take the outsized importance fitted to the culture of beginnings Fash argues that these short forms with their ethnic exclusions and narrative

innovations coached readers on how to think about the United States past and the nature of narrative time itself Combining history print history and literary criticism this book treats short fiction as a vital site for debate over what it meant to be American thereby offering a new account of the birth of a self consciously national literary tradition **Border Modernism** Christopher Schedler,2013-12-16 Reorienting the field of American literary modernism Christopher Schedler defines an intercultural form of representation termed border modernism that challenges the aesthetic hegemony of metropolitan high modernism In this study Schedler compares the works of European and Anglo American modernists with the works of Mexican Native American and Chicano writers who engaged with modernist theories and practices In the process he uncovers a unique intercultural aesthetic produced in the borderlands of the United States and Mexico aimed at modernizing the native literary traditions of the Americas Addressing issues of migration cultural identity and ethnography Border Modernism is a major contribution to current debates over the origins and development of American literary modernism and a new model for transnational and intercultural reconstructions of American literary history **American and British**

intellectuals in America In *Coming to Terms with Democracy* Marshall Foletta contends that by calling for a new American literature in their journal the second generation Federalists helped American readers break free from imported neo classical standards thus paving the way for the American Renaissance Despite their failure to reconstitute in the cultural sphere their fathers lost political prominence Foletta concludes that the original contributors to the *North American Review* were enormously influential both in the creation of the role of the American public intellectual and in the development of a vision for the American university that most historians place in a much later period They have earned a prominent place in the history of American literature magazines and journals law and legal education institutional reform and the cultural history of New England

The View from the Masthead Hester Blum, 2012-09-01 With long solitary periods at sea far from literary and cultural centers sailors comprise a remarkable population of readers and writers Although their contributions have been little recognized in literary history seamen were important figures in the nineteenth century American literary sphere In the first book to explore their unique contribution to literary culture Hester Blum examines the first person narratives of working sailors from little known sea tales to more famous works by Herman Melville James Fenimore Cooper Edgar Allan Poe and Richard Henry Dana In their narratives sailors wrote about how their working lives coexisted with indeed mutually drove their imaginative lives Even at leisure they were always on the job site Blum analyzes seamen's libraries Barbary captivity narratives naval memoirs writings about the Galapagos Islands Melville's sea vision and

the crisis of death and burial at sea She argues that the extent of sailors literacy and the range of their reading were unusual for a laboring class belying the popular image of Jack Tar as merely a swaggering profane or marginal figure As Blum demonstrates seamen s narratives propose a method for aligning labor and contemplation that has broader applications for the study of American literature and history
