Shawna Coronado

New Guinea Gardens:

Coral Gardens and Their Magic Bronislaw Malinowski, 2013-10-16 The first part of a two volume classic devoted to the agriculture and agricultural rites of the Trobriand Islanders This work looks at the significance of agriculture in the Trobriand Islands

Indiana Getting Started Garden Guide Shawna Coronado, 2014-10-10 In *Indiana Getting Started Garden Guide* internationally renowned gardening expert and Indiana native Shawna Coronado presents foolproof planting advice for over 150 species handpicked for their ability to flourish in the Hoosier State

New Guinea gardens Axel Steensberg, 1978

The Secret Garden Margaret Eileen Meredith, 2005 This fascinating study grew out of the author's abiding interest in gardening as a metaphor for the process of individuation

Coral Gardens and Their Magic: A Study of the Methods of Tilling the Soil and of Agricultural Rites in the Trobriand Islands Bronislaw Malinowski, 2013-09 As part of Papua New Guinea the Trobriand Islands are located in a bordering sea of the Pacific Ocean At the beginning of the 20th century the anthropologist Bronislaw Malinowski was one of the first to explore the archipelago in the South Sea and its inhabitants In the context of his work he discovered that Freud's psychoanalytic universality thesis regarding the Oedipus complex is not true for the islanders In this first volume out of three Malinowski deals with the tribal economics and social organizations as well as the trobriandan gardening techniques and the magic within this kind of work

The Garden, 1875

Illinois Getting Started Garden Guide Shawna Coronado, 2014-10-10 In *Illinois Getting Started Garden Guide* born and bred midwestern gardener Shawna Coronado offers planting instructions for more than 150 species from the blazing star to the ginkgo destined for success all throughout Illinois

Natives and Exotics Judith A. Bennett, 2009-07-15 Ambitious in its scope and scale this environmental history of World War II ranges over rear bases and operational fronts from Bora Bora to New Guinea providing a lucid analysis of resource exploitation entangled wartime politics and human perceptions of the vast Oceanic environment Although the war's physical impact proved significant and oftentimes enduring this study shows that the tropical environment offered its own challenges Unfamiliar tides left landing craft stranded unseen microbes carrying endemic diseases disabled thousands of troops Weather terrain plants animals all played an active role as enemy or ally At the heart of *Natives and Exotics* is the author's analysis of the changing visions and perceptions of the environment not only among the millions of combatants but also among the Islands peoples and their colonial administrations in wartime and beyond Judith Bennett reveals how prewar notions of a paradisiacal Pacific set up millions of Americans Australians New Zealanders and Japanese for grave disappointment when they encountered the reality

She shows that objects usually considered distinct from environmental concerns souvenirs cemeteries war memorials warrant further examination as the emotional quintessence of events in a particular place Among native people wartime experiences and resource utilization induced a shift in environmental perceptions just as the postwar colonial agenda demanded increased diversification of the resource base Bennett's ability to reappraise such human perceptions and productions with an environmental lens is one of the unique qualities of this study Impeccably researched *Natives and Exotics* is essential reading for those interested in environmental history Pacific studies and a different kind of war story that has surprising relevance for today's concerns with global warming

Mundane Objects Pierre Lemonnier, 2016-06-16 This concise book shows the importance of objects that are considered ordinary by cultural outsiders and scholars yet lie at the heart of the systems of thought and practices of their makers and users This volume demonstrates the role of these objects in nonverbal communication both in non ritual and in ritual situations Lemonnier shows that some objects their physical properties and their material implementation are wordless expressions of fundamental aspects of a way of living and thinking as well as sometimes the only means of expressing the inexpressible Through the study of the most mundane technical activities such as fence building creating models cars or trapping fish we often gain a better understanding of what these objects mean and how they work within their cultures of origin In addition to anthropologists and archaeologists this book will also be of interest to sociologists historians philosophers cognitive anthropologists and primatologists for whom the intertwining of function and style is the very mark of all cultural behavior

Sex and Temperament Margaret Mead, 2001-05-22 First published in 1935 *Sex Temperament* is a fascinating and brilliant anthropological study of the intimate lives of three New Guinea tribes from infancy to adulthood Focusing on the gentle mountain dwelling Arapesh the fierce cannibalistic Mundugumor and the graceful headhunters of Tchambuli Mead advances the theory that many so called masculine and feminine characteristics are not based on fundamental sex differences but reflect the cultural conditioning of different societies This edition prepared for the centennial of Mead's birth features introductions by Helen Fisher and Mead's daughter Mary Catherine Bateson A precursor to Mead's illuminating *Male Female Sex Temperament* lays the groundwork for her lifelong study of gender differences

Material culture : critical concepts in the social sciences. Vol. 3 : Pt. 1 Victor Buchli, 2004 Publisher description *Catalogue of Plants Under Cultivation in the Melbourne Botanic Gardens, Alphabetically Arranged* Royal Botanic Gardens (Vic.), William Robert Guilfoyle, 1883

[The Cambridge World Prehistory](#) Colin Renfrew, Paul Bahn, 2014-06-09 The Cambridge World Prehistory provides a systematic and authoritative examination of the prehistory of every region around the world from the early days of human origins in Africa two million years ago to the beginnings of written history which in some areas started only two centuries ago Written by a team of leading international scholars the volumes include both traditional topics and cutting edge approaches such as

archaeolinguistics and molecular genetics and examine the essential questions of human development around the world The volumes are organised geographically exploring the evolution of hominins and their expansion from Africa as well as the formation of states and development in each region of different technologies such as seafaring metallurgy and food production The Cambridge World Prehistory reveals a rich and complex history of the world It will be an invaluable resource for any student or scholar of archaeology and related disciplines looking to research a particular topic tradition region or period within prehistory

Technological Choices Pierre Lemonnier, 2013-10-15 Technological Choices applies the critical tools of archaeology to the subject of technology and its impact on humankind throughout the ages An examination of the challenges technological innovations present to various cultures Technological Choices asserts that in any society such choices are made on the basis of cultural values and social relations rather than on the inherent benefits in technology itself Of course this revolutionary viewpoint has critical implications for contemporary Western societies Based on case studies covering a wide range of chronologies and geographies Technological Choices moves rapidly from Neolithic Europe to the modern industrial age stopping on the way to examine the tribes of Papua New Guinea rural Indian and North African societies as well as several European peasant communities The techniques studied range from the manufacture of stone implements to the development of high tech transportation devices With its breadth of subject matter and multidisciplinary approach Technological Choices offers new insight into the interrelationship between technology and society Also unprecedented is the book's emphasis on the functional aspects of material culture
