Paradigms in Word

Formation Alba E. Ruz, Cristina Fernández-Alcaina, Cristina Lara-Clares, 2022-09-15 The focus of Paradigms in Word Formation Theory and applications is on the relevance of paradigms for linguistic description Paradigmatic organization has traditionally been considered an inherent feature of inflectional morphology but research in the last decades clearly shows the existence of paradigms in word formation especially in affixal derivation often at the expense of other word formation processes This volume seeks to address the role that paradigms may play in the description of compounding conversion and participles This volume should be of interest to anyone specialized in the field of English morphology and word formation

Thematic Structure and Para-Syntax: Arabic as a Case Study James Dickins, 2020-03-05 Thematic Structure and Para Syntax Arabic as a Case Study presents a structural analysis of Arabic providing an alternative to the traditional notions of theme and rheme Taking Arabic as a case study this book claims that approaches to thematic structure propounded in universalist linguistic theories of which Hallidayan systemic functional linguistics is taken as an illustrative example are profoundly wrong It argues that in order to produce an analysis of thematic structure and similar phenomena which is not undermined by its own theoretical presuppositions it is necessary to remove such notions from the domain of linguistic and semiotic theory The book initially focuses on Sudanese Arabic because this allows for a beautifully clear exposition of general principles before applying these principles to Modern Standard Arabic and some other Arabic varieties This book will be of interest to scholars in Arabic linguistics linguistic theory and information structure The Public School Journal ,1911
