Nidaros Office Of Holy Blood:

The Nidaros Office of the Holy Blood Gisela Attinger, Andreas Haug, 2004 When looking at Nidaros or Trondheim as the city is now called from the perspective of music history it was a hub of activity on the edge of medieval Europe Being the seat of the Norwegian archbishop from the middle of the twelfth century until the Reformation in 1537 it played an important role as an administrative and cultural centre not just in Norway but throughout the extensive archbishopric As elsewhere the musical practice of the cathedral was determined by the reception of the Roman Chant and the transition from a passive to an active productive chant reception can be seen in the musical compilations that have likely been produced by this centre One of them is the music for a local cult of a relic of the Holy Blood seemingly the oldest one of which the music has been preserved is the object of the present study It includes a facsimile of the only known course of the Office an edition of the texts and melodies a translation of the Latin texts and commentaries and essays on the liturgical importance and the historical background of the Office as well as the liturgical importance and the historical background of the Office as well as the building history of the church in which it was sung during the Middle Ages **Der heilige Wikingerkönig Olav**

Haraldsson und sein hagiographisches Dossier (2 vols.) Lenka Jiroušková, 2014-10-30 The twelfth century vita of Saint Olav the Norwegian King Olav Haraldsson is an outstanding example of how the intersection of power and sanctity was politically functionalised in the Middle Ages Olav s hagiographic dossier is transmitted in several and in part newly discovered manuscripts Its contents depend on both the Latin and the vernacular tradition while the milieus in which it was used range from the clerics of the High Middle Ages to the Hanseatic merchants at the end of the epoch Fourteen studies on language and style on codicological as well as cultic and cultural context of individual copies of the Passio Olavi on the veneration of Olav in Scandinavia England Northern France and Northern Germany on the construction of sanctity strategies of propagating Olav s cult and their narrative realisation and finally on changes of the text its spread and usage are presented alongside the first critical edition of the complete dossier **Nordic Latin Manuscript Fragments** Åslaug

Ommundsen, Tuomas Heikkilä, 2017-07-14 Much of what is known about the past often rests upon the chance survival of objects and texts Nowhere is this better illustrated than in the fragments of medieval manuscripts re used as bookbindings in the sixteenth and seventeenth centuries Such fragments provide a tantalizing yet often problematic glimpse into the manuscript culture of the Middle Ages Exploring the opportunities and difficulties such documents provide this volume concentrates on the c 50 000 fragments of medieval Latin manuscripts stored in archives across the five Nordic countries of Denmark Finland Iceland Norway and Sweden This large collection of fragments mostly from liturgical works provides rich evidence about European Latin book culture both in general and in specific relation to the far north of Europe one of the last areas of Europe to be converted to Christianity As the essays in this volume reveal individual and groups of fragments can play a key role in increasing and advancing knowledge about the acquisition and production of medieval books and in helping

to distinguish locally made books from imported ones Taking an imaginative approach to the source material the volume goes beyond a strictly medieval context to integrate early modern perspectives that help illuminate the pattern of survival and loss of Latin manuscripts through post Reformation practices concerning reuse of parchment In so doing it demonstrates how the use of what might at first appear to be unpromising source material can offer unexpected and rewarding insights into diverse areas of European history and the history of the medieval book *Secret Spaces: Sacred Treasures in England 1066-1320* Lesley Milner, 2024-05-27 The medieval treasure house consisting of sacristy vestry and treasure rooms was the depository for the ecclesiastical treasure belonging to a church holy vessels vestments altar hangings candlesticks and priceless liturgical books and reliquaries It was carefully designed to convey the message of its status and function A book devoted to these medieval museums which housed such precious materials is long overdue Ironically the interest in the objects that they conserved has often resulted in ecclesiastical treasure being removed to new museums leaving their former places of protection in need of protection themselves **The Cambridge History of Medieval Music** Mark Everist, Thomas Forrest Kelly, 2018-08-09 Spanning a millennium of musical history this monumental volume brings together nearly forty leading authorities to survey the music of Western Europe in the Middle Ages All of the major aspects of medieval music are considered making use of the latest research and thinking to discuss everything from the earliest genres of chant through the music of the liturgy to the riches of the vernacular song of the trouvères and troubadours Alongside this account of the core repertory of monophony The Cambridge History of Medieval Music tells the story of the birth of polyphonic music and studies the genres of organum conductus motet and polyphonic song Key composers of the period are introduced such as Leoninus Perotinus Adam de la Halle Philippe de Vitry and Guillaume de Machaut and other chapters examine topics ranging from musical theory and performance to institutions culture and collections *The Grove Encyclopedia of Medieval Art and Architecture* Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture *Dominican Resonances in Medieval Iceland* , 2021-08-16 Dominican Resonances in Medieval Iceland explores the life and legacy of Jón Halldórsson Bishop of Skálholt 1322-39 a Dominican who had studied the liberal arts in Paris and canon law in Bologna Combining different disciplinary approaches literary and intellectual history manuscript studies musicology this book aims to examine the conditions under which literate culture thrived in 14th century Scandinavia The studies included in this volume consider Jón Halldórsson's educational background and his contributions as a storyteller to Old Norse literature focusing especially upon legendary sagas such as the Eyrbyggja saga and examining their link to the Dominican tradition of exempla The volume also includes critical studies of manuscripts that contain tales and adventures

secular law and canon law administrative writings as well as music and liturgy from the province of Nidaros Combining these various analytical perspectives results in rich insights with broad implications for our understanding of medieval Nordic culture Contributors are Astrid Marner Christian Etheridge Embla Aae Gisela Attinger Gottskalk Jensson Gunnar Hararson Hjalti Snorrarsson Karl G Johansson Stefan Drechsler Váðs Ragnheiðr and Viðar Þósson *The Sequences of Nidaros* Andreas Haug,2006 The sequence was one of the most important types of music of the Middle Ages Performed during the mass and sung throughout the churches of medieval Europe the Latin poetry of this new compositional genre distinguished itself from what is commonly called Gregorian chant The sequences of the medieval Cathedral of Nidaros and its vast archdiocese comprise a song repertoire remarkable for its sheer size chronological comprehensiveness and stylistic diversity The current volume presents eleven studies on this musical tradition and the authors using a wide range of perspectives and approaches paleographical codicological repertorial textual musical and exegetical place this Nordic practice in its broader European context This book is more than a study of a regional tradition of a single genre it instead touches on topics and methodologies fundamental to contemporary research on chant
