NIGERIA

A CRITIQUE
OF
BRITISH
COLONIAL ADMINISTRATION

The administration of our vast colonial empire is taken for granted ; most people feel vaguely that it is good. Its comparative excellence is beyond doubt, but more and more certain grave defects are developing, and unlike the defects which may emerge from time to time in other branches of public administration they are unknown not only to the public, but, on account of the isolation and variation of forty odd different Crown Colonies, also to informed political opinion, indeed often to the Colonial Office itself. Here is a book from an ex-Administrative Officer the first of its kind since the appearance of Lord Lugard's "*Dual Mandate*," which will be of equal interest to those who know Africa and to those who are interested in colonial policy and administration. About two-thirds of it is given up to extracts from the author's journal covering a full circle of twelve months, recording day by day the notable incidents of an official's life in Nigeria and showing how the British colonial machine functions. The remaining third is an essay pointing the moral of the journal. All the major subjects such as indirect rule, missions, English law and legalism, quality of personnel, defects in the governing, possible remedies, etc., are examined, and the administration of the colonial empire as a whole is discussed, especially with regard to the quality and effectiveness of Colonial Office and of Parliamentary control.
