Cinema in the Arab World Ifdal Elsaket,Daniël Biltereyst,Philippe Meers,2023-01-26 Cinema in the Arab world has been the subject of varied and rigorous studies but most have focused on films as text providing in depth analyses of plot style ideologies or examination of the biographies of prominent directors or actors This innovative new volume shifts the focus on Arab cinema off screen to examine the histories politics and conditions of distribution exhibition and cinema going in the Arab world Through broadening the frame of study beyond the screen the book widens understanding of the cinema not merely as a collection of films as texts but as a site of cultural and political

contestation in the Arab world Divided into two sections and guided by interdisciplinary considerations the contributors examine historical and contemporary issues of Arab cinema in terms of the experience of movie going and filmmaking They examine the networks of distribution and exhibition as well as the contested and multiple meanings that the cinema embodied through diverse historical periods and geographical locations Part I focuses on new histories of Arab cinema in terms of film production distribution exhibition and audience s experiences of cinema going Part II deals with more recent issues within scholarship on Arab cinema such as issues of politics economics ideologies as well as issues related to Arab movies international circulation and screenings at festivals Together the chapters enrich our understanding of the cinema in the Arab world showing how deeply embedded it is within its social political and economic contexts Census Reports Tenth Census. In 1844 a charismatic young Persian merchant from Shiraz known as the B b electrified the Sh ih world by claiming to be the return of the Hidden Twelfth Imam of Islamic prophecy But contrary to traditional expectations of apocalyptic holy war the B b maintained that the spiritual path was not one of force and coercion but love and compassion The movement he founded was the precursor of the Bah Faith but until now the B b s own voluminous writings have been seldom studied and often misunderstood Gate of the Heart offers the first in depth introduction to the writings of the B b Taking an interdisciplinary approach the author examines the B b s major works in multifaceted context explaining the unique theological system mystical world view and interpretive principles they embody as well as the rhetorical and symbolic uses of language through which the B b radically transforms traditional concepts Arguing that the B b movement went far beyond an attempt at an Islamic Reformation the author explores controversial issues and offers conclusions that will compel a re evaluation of some

prevalent assumptions about the Báb's station, claims and laws. Nader Saiedi's meticulous and insightful analysis identifies the key themes, terms and concepts that characterize each stage of the Báb's writings, unlocking the code of the Báb's mystical lexicon. *Gate of the Heart* is a subtle and profound textual study and an essential resource for anyone wishing to understand the theological foundations of the Bahá'í religion and the Báb's significance in religious history. **Adventure**, 1918
