9 1/2 Mystics Herbert Weiner, 1971 9 1 2 *Mystics* is a treasure hunt for the life secrets of the great mystical tradition of the Kabbala Herbert Weiner opens up a world rarely accessible to outsiders by introducing us to contemporary representatives of this tradition some famous some unknown and helps us see the connection between their hidden wisdom and problems of contemporary life

9 1/ 2 (nine and a Half) Mystics Herbert Weiner, 1971 *Nine and One-Half (9 1/2) Mystics; The Kabbala Today* Herbert Weiner, 1969 *Contemporary American Judaism* Dana Evan Kaplan, 2011 No longer controlled by a handful of institutional leaders based in remote headquarters and rabbinical seminaries American Judaism is being transformed by the spiritual decisions of tens of thousands of Jews living all over the United States A pulpit rabbi and himself an American Jew Dana Evan Kaplan follows this religious individualism from its postwar suburban roots to the hippie revolution of the 1960s and the multiple postmodern identities of today From Hebrew tattooing to Jewish Buddhist meditation Kaplan describes the remaking of historical tradition in ways that channel multiple ethnic and national identities While pessimists worry about the vanishing American Jew Kaplan focuses on creative responses to contemporary spiritual trends that have made a Jewish religious renaissance possible He believes that the reorientation of American Judaism has been a bottom up process resisted by elites who have reluctantly responded to the demands of the spiritual marketplace The American Jewish denominational structure is therefore weakening at the same time that religious experimentation is rising leading to the innovative approaches supplanting existing institutions The result is an exciting transformation of what it means to be a religious American Jew in the twenty first century

Jewish Studies Kalman Dubov, Jewish mysticism is quite popular by way of books lectures and classes to teach this esoteric subject The student suddenly confronts a world with a unique language and great masters who use obscure language so that the concepts are confusing amidst the different schools of Kabbalistic thought and traditions Prior to 1700 all such teaching was done from master to student with intentional obscurities so that the student today faces many challenges in comprehending this discipline This review quoting from original sources is designed to provide a basic and foundational structure from which the student can appreciate both the why of Kabbalism and the how they got there The premise is that God created our physical universe for a reason and the revelations on Mount Sinai are deliberate Kabbalists understood the hidden from the apparent so that open texts were suddenly imbued with meaning never apparent from the text itself The book review basic Kabbalistic concepts as well as a number of the giants in this arena Different schools of thought emerged over time so that different modalities of Kabbalah are present today These reviews are based on Theoretical Kabbalah so that intention Kavanah during prayer and even during

mundane acts throughout the day are imbued with Kabbalistic intention The book does not review Practical Kabbalah where incantations amulets and similar acts are done to enhance positive energy In 1760 following the leadership and death of the Baal Shem Tov the teaching of Kabbalah was opened to the lay public setting aside the hidden curtain existing previously Why the sudden change after thousands of years when this discipline was clandestine and not revealed openly The answer lies with a mystic experience the Baal Shem Tov had with the Messiah who charged him with such open teaching before he would come That charge is the central pivot upon which these teachings turn The book's sections are divided into separate reviews to enable the student to review them more easily The first section is on concepts the second is on personalities and the challenges they faced The next major section is a review of two mystic concepts God outside of nature and within nature These concepts are central to the mystic understanding of infinite and finite and how this is present in Kabbalistic understanding The following section is on God's Five Acquisitions Torah Heaven and Earth Abraham Israel and the Temple A follow on section is a review of the topic of reincarnation a central tenet of Kabbalistic Judaism A few other sections are present such as two different medical oaths a reflection on the Ark of the Covenant and a brief discursus on why Jews use CE and not AD when referencing the year It is hoped that the student will have an easier time when studying this subject

Chosen Will Become Herds Jonathan Garb, 2009-08-25 A noted expert on Kabbalah Jonathan Garb places the kabbalistic Renaissance within the global context of the rise of other forms of spirituality including Sufism and Tibetan Buddhism

Still Phyllis Donald Friedman, 2024-06-04 Phyllis was a vital single woman a photographer and writer who was enjoying life in the city when she was suddenly stricken by Creutzfeldt Jakob Disease CJD a disease rarer than a lightning strike that spreads incredibly via a non living molecule called a prion Terrified to realize she couldn't perform her duties at work Phyllis very soon couldn't even find her way to her desk or to her apartment from the corner store Informed of his sister's diagnosis with this dementing and always fatal illness her estranged brother her only living relative brought her home against the advice of her doctors to care for her with his wife The profoundly affecting memoir illuminates how closeness can deepen when words are lost an inspiring truth to anyone with a friend or family member with dementia

Sacred Books; Secular Books Kalman Dubov, The ultra orthodox Jewish world divides the world into two distinct realities the sphere within and the sphere without The internal sphere which I refer to as the Sphere of Holiness is maintained in a sacrosanct manner so that the Sphere of Secularity does not intrude and contaminate the other sphere The range of figurative walls maintaining these two spheres affects the consciousness and reality of every ultra orthodox Jew so that this construct is continually brought to conscious awareness Every member of those who maintain this lifestyle is urged to continually be reminded and reinvigorated in this awareness Examples of such awareness begin with ultra orthodox schooling A child begins religious studies that are exclusive with secular studies either ignored or completed in a way that denies credence or importance In New York State the education law contains vague language regarding how a child is to be educated This vagueness allows

those in charge of that school to largely circumvent traditional pedagogy As the child advances in religious studies the lack of external exposure coupled with the intensity of study requirements ensures the young man does not stray into forbidden areas that might endanger his sacred standing in the community and be enticed by the larger world Such study intensifies with each passing grade and year until he is fully conversant with ancient Jewish law and traditions after nearly twenty years of such study At the same time however he will be a functional illiterate in the lingua franca of his home country His female counterpart will not be exposed to such traditional studies because her role is to be the mother and home caretaker not the scholar The Jewish tradition not to teach girls and women similar to men derives from the Talmud and the legal determination of Maimonides This mindset has continued for hundreds of years and is unlikely to change Despite this limitation on women's education through Jewish history exceptional women achieved a high scholarship to the acclaim of their entire community including men In fact one woman a singular exception became a Chassidic Rebbe amidst fierce opposition A modern exception to such a study curriculum is Chabad Because it has a messianic outreach program the Chabad couple who establish a Chabad House in diverse cities and countries and are often the only ones running the program the woman must have the training to lead and know the deeper aspects of Judaism This book is not only about women's education but it represents the larger dynamics in how the ultra orthodox Jewish world bifurcates the reality of its members so that any intrusion from that external world remains in place An example of such limitation is the ultra orthodox public denunciations against the use of the internet use of computers as against the smartphone unless these devices are programmed so that surfing is not possible The future of these communities on a trajectory of high fertility ensures their future growth As they populate the United States and other countries replenishing the numbers lost in the Holocaust their exposure to and awareness of the world at large will remain extremely limited

A Psychoanalytic History of the Jews

Avner Falk, 1996 This includes the evolution of the Hebrew religion as a projective response to the inner conflicts produced by the human family the sociopsychological development of the Israelite kingdoms in Canaan the fascinating duality of Jewish life in the Diaspora and the emotional ties of the Jews to their idealized motherland from the Babylonian exile to modern political Zionism

Beyond Individualism Gordon Wheeler, 2013-04-15 In this pathbreaking and provocative new treatment of some of the oldest dilemmas of psychology and relationship Gordon Wheeler challenges the most basic tenet of the West cultural tradition the individualist self Characteristics of this self model are our embedded yet pervasive ideas that the individual self precedes and transcends relationship and social field conditions and that interpersonal experience is somehow secondary and even opposed to the needs of the inner self Assumptions like these Wheeler argues which are taken to be inherent to human nature and development amount to a controlling cultural paradigm that does considerable violence to both our evolutionary self nature and our intuitive self experience He asserts that we are actually far more relational and intersubjective than our cultural generally allows and that these relational capacities are deeply built into our inherent

evolutionary nature His argument progresses from the origins and lineage of the Western individualist self model into the basis for a new model of the self relationship and experience out of the insights and implications of Gestalt psychology and its philosophical derivatives deconstructivism and social constructionism From there in a linked series of experiential chapters each of them a groundbreaking essay in its own right he takes up the essential dynamic themes of self experience and relational life interpersonal orientation meaning making and adaptation support shame intimacy and finally narrative and gender culminating in considerations of health ethics politics and spirit The result is a picture and an experience of self that is grounded in the active dynamics of attention problem solving imagination interpretation evaluation emotion meaning making narration and above all relationship By the final section the reader comes away with a new sense of what it means to be human and a new and more usable definition of health
