Rationality And Theistic Belief An Essay On Reformed Epistemology:

Rationality and Theistic Belief Mark S. McLeod, 1993 Rationality and Theistic Belief offers a strong dissenting voice on the work of both Plantinga and Alston Certain to provoke vigorous discussion it makes a significant contribution to the contemporary discussion of the epistemology of religious belief **Epistemology as Theology** James Beilby, 2017-09-29 Alvin Plantinga is arguably one of the most influential philosophers of our time Much of his career has been devoted to explaining and defending the intellectual acceptability of Christian belief Recently he has developed a comprehensive rigorous and distinctively Christian religious epistemology This book presents the development of Plantinga s religious epistemology before considering Plantinga s mature religious epistemology in detail Locating Plantinga s most recent work in the context of his theological assumptions his previous work on religious epistemology and in the context of the current debate over how knowledge should be characterized Beilby blends theological and philosophical discussion to offer a unique perspective on Plantinga s influential proposal *The Rationality of Theism* Godehard Brüntrup, R.K. Tacelli, 2013-04-17 In May 1998 a distinguished group of philosophers met in Munich to discuss the rationality of theism This volume is a collection of the papers read at that conference While in recent years the rationality of theistic belief has been widely discussed the Munich conference was an event of some moment in the history of philosophical dialogue for the first time German and English speaking philosophers of religion representatives of both the Continental and the Anglo Saxon traditions joined together to grapple with a common philosophical theme This multiplicity of perspectives brought a unique richness to the analysis of rationality that no one tradition by itself could provide Readers will find that richness displayed in the pages of this book Professional philosophers will find here a great deal to stimulate and challenge them but graduate students capable undergraduates and all others with a serious interest in the philosophy of religion will be well rewarded for their efforts to come to grips with these thought provoking papers **An Essay on Divine Authority** Mark C. Murphy, 2018-07-05 In the first book wholly concerned with divine authority Mark C Murphy explores the extent of God s rule over created rational beings The author challenges the view widely supported by theists and nontheists alike that if God exists then humans must be bound by an obligation of obedience to this being He demonstrates that this view the authority thesis cannot be sustained by any of the arguments routinely advanced on its behalf including those drawn from perfect being theology metaethical theory normative principles and even Scripture and tradition After exposing the inadequacies of the various arguments for the authority thesis he develops his own solution to the problem of whether and to what extent God is authoritative For Murphy divine authority is a contingent matter while created rational beings have decisive reason to subject themselves to the divine rule they are under divine authority only insofar as they have chosen to allow God s decisions to take the place of their own in their practical reasoning The author formulates and defends his arguments for this view and notes its implications for understanding the distinctiveness of Christian ethics Twentieth-Century Philosophy of Religion Graham

Oppy, N. N. Trakakis, 2014-09-11 The twentieth century saw religion challenged by the rise of science and secularism a confrontation which resulted in an astonishingly diverse range of philosophical views about religion and religious belief Many of the major philosophers of the twentieth century James Bergson Russell Wittgenstein Ayer Heidegger and Derrida significantly engaged with religious thought Idiosyncratic thinkers such as Whitehead Levinas and Weil further contributed to the extraordinary diversity of philosophical investigation of religion across the century In their turn leading theologians and religious philosophers notably Buber Tillich and Barth directly engaged with the philosophy of religion Later philosophy of religion became a distinct field of study led by the work of Hick Alston Plantinga and Swinburne Twentieth Century Philosophy of Religion provides an accessible overview of the major strands in the rich tapestry of twentieth century thought about religion and will be an indispensable resource for any interested in contemporary philosophy of religion *The History of Western Philosophy of Religion* Graham Oppy, N. N. Trakakis, 2016-09-17 The History of Western Philosophy of Religion brings together an international team of over 100 leading scholars to provide authoritative exposition of how history's most important philosophical thinkers from antiquity to the present day have sought to analyse the concepts and tenets central to Western religious belief especially Christianity Divided chronologically into five volumes The History of Western Philosophy of Religion is designed to be accessible to a wide range of readers from the scholar looking for original insight and the latest research findings to the student wishing for a masterly encapsulation of a particular philosopher's views Together these volumes provide an indispensable resource for anyone conducting research or teaching in the philosophy of religion and related fields such as theology religious studies the history of philosophy and the history of ideas **Philosophy of Religion** Paul Copan, Chad Meister, 2007-10-22 Philosophy of Religion Classic and Contemporary Issues offers a comprehensive and authoritative overview of the most important ideas and arguments in this resurgent field Provides a solid foundation on the history of religious philosophy while broadening our understanding of religion's significance in today's world Features 18 newly commissioned essays by well known scholars with varied viewpoints on the philosophy of religion Examines the evolution of religious philosophy from its roots to contemporary issues while expanding its analysis to include non Western religious themes Includes charts questions and annotated suggested readings to stimulate further study and reflection **Knowledge, Belief, and God** Matthew A. Benton, John P. Hawthorne, Dani Rabinowitz, 2018 Recent decades have seen a fertile period of theorizing within mainstream epistemology which has had a dramatic impact on how epistemology is done Investigations into contextualist and pragmatic dimensions of knowledge suggest radically new ways of meeting skeptical challenges and of understanding the relation between the epistemological and practical environment New insights from social epistemology and formal epistemology about defeat testimony a priority probability and the nature of evidence all have a potentially revolutionary effect on how we understand our epistemological place in the world Religion is the place where such rethinking can potentially have its deepest impact and importance Yet there has been surprisingly little

infiltration of these new ideas into philosophy of religion and the epistemology of religious belief Knowledge Belief and God incorporates these myriad new developments in mainstream epistemology and extends these developments to questions and arguments in religious epistemology The investigations proposed in this volume offer substantial new life breadth and sophistication to issues in the philosophy of religion and analytic theology They pose original questions and shed new light on long standing issues in religious epistemology and these developments will in turn generate contributions to epistemology itself since religious belief provides a vital testing ground for recent epistemological ideas

A Middle Way to God Garth L. Hallett, 2000 This conclusion and the distinctive path that leads to it will interest students and scholars in philosophy of religion and theology A Middle Way to God will also be enlightening reading for general readers with an interest in the question of God's existence

Smith, 2011-03-31 Being at Home in the World is a book of Christian Apologetics But Mark McLeod Harrison and Phil Smith don't defend Christian faith instead they invite readers into faith In the course of making this invitation the authors raise suspicions against modern naturalism offer respectful criticisms of major religions and explain how Christian beliefs provide an organizing center of a flourishing human life Their invitation to Christian faith is philosophically sophisticated but it is also honest and personal McLeod Harrison and Smith tell their own stories of how they grew up as Christians and why they remain believers

Faith and Philosophical Analysis Harriet A. Harris, Christopher J. Insole, 2019-08-22 What tensions arise between philosophy of religion and theology What strengths and weaknesses of analytical methods emerge in relation to strongly confessional philosophical theologies or to Continental philosophies Faith and Philosophical Analysis evaluates how well philosophy of religion serves in understanding religious faith Figures who rarely share the space of the same book leading exponents of analytic philosophy of religion and those who question its legacy are drawn together in this book with their disagreements harnessed to positive effect Figures such as Richard Swinburne and Basil Mitchell reflect on their life long projects from a perspective which has not previously been seen in print A wide range of approaches found in contemporary philosophy of religion are explored

including reformed epistemology traditional metaphysical theory building feminist methodologies Wittgensteinian approaches and American pragmatism Considering the trends in philosophy of religion as they are interacting across continents looking particularly at philosophical influences in North America Britain and Continental Europe this book will appeal to students scholars and general readers with an interest in philosophy of religion theology or analytical philosophy

Dictionary Of Modern American Philosophers John R.

Shook, 2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought

Resurrection, Scripture, and Reformed Apologetics Steven D. West, 2012-07-26 Apologetic methodology has been the subject of intense debate in Reformed circles This book argues that we can test Reformed apologetic methods for consistency using two linchpin theological topics the doctrine of the resurrection and the doctrine of Scripture Should apologetics move from establishing theism to the resurrection and then to Scripture Or should theism the

resurrection and the doctrine of Scripture be accepted on the testimony of the Holy Spirit as basic beliefs Alternatively do these doctrines need to be presupposed and incorporated into a transcendental defense of the faith After analyzing classical apologetics historical evidentialism Reformed epistemology and presuppositionalism for their apologetic cogency Steven D West contends that any method used by Reformed apologists should be able to argue successfully for a high view of Scripture the source of the doctrine of the resurrection The book will be useful to everyone interested in the relationship between theology philosophy and apologetics

Believing by Faith John Bishop, 2007-04-12 Can it be justifiable to commit oneself by faith to a religious claim when its truth lacks adequate support from one's total available evidence In *Believing by Faith* John Bishop defends a version of fideism inspired by William James's 1896 lecture *The Will to Believe* By critiquing both isolationist Wittgensteinian and Reformed epistemologies of religious belief Bishop argues that anyone who accepts that our publicly available evidence is equally open to theistic and naturalist atheistic interpretations will need to defend a modest fideist position This modest fideism understands theistic commitment as involving doxastic venture practical commitment to propositions held to be true through passionate causes causes other than the recognition of evidence of or for their truth While Bishop argues that concern about the justifiability of religious doxastic venture is ultimately moral concern he accepts that faith ventures can be morally justifiable only if they are in accord with the proper exercise of our rational epistemic capacities Legitimate faith ventures may thus never be counter evidential and furthermore may be made supra evidentially only when the truth of the faith proposition concerned necessarily cannot be settled on the basis of evidence Bishop extends this Jamesian account by requiring that justifiable faith ventures should also be morally acceptable both in motivation and content Hard line evidentialists however insist that all religious faith ventures are morally wrong Bishop thus conducts an extended debate between fideists and hard line evidentialists arguing that neither side can succeed in establishing the irrationality of its opposition He concludes by suggesting that fideism may nevertheless be morally preferable as a less dogmatic more self accepting even a more loving position than its evidentialist rival

Faith, Reason, and Revelation in Theodore Beza, 1519-1605 Jeffrey Mallinson, 2003 *Faith Reason and Revelation in the Thought of Theodore Beza* investigates the direction of religious epistemology under a chief architect of Calvinism 1519 1605 Mallinson contends that Beza consolidated his tradition by balancing the subjective and objective aspects of faith and knowledge Making use of new editions of Beza's class notes and correspondence and examining the theological ideas found in Beza's long neglected New Testament annotations this study clarifies the thought of Calvin's successor The nature of Protestant scholasticism and the relationship between faith and philosophy are observed in context rather than from the anachronistic perspectives of modern schools that seek to establish their own continuity with Calvinism

Reenchantment without Supernaturalism David Ray Griffin, 2018-08-06 The process philosophy of Alfred North Whitehead and Charles Hartshorne has made many distinctive contributions to the philosophy of religion David Ray Griffin now offers the first full scale philosophy of religion written from

this perspective discussing such topics as the relationship between science and religion the validity of religious experience the nature and existence of God religious pluralism creation and evolution and the problem of evil Griffin's clear and comprehensive book also serves as a valuable introduction to process philosophy itself In his vigorous defense of a worldview that is fully naturalistic and fully religious Griffin shows not only how this position reconciles naturalism with freedom genuine religious experience and even life after death but also how its naturalistic theism reenchants the world in the sense of providing cosmic support for moral values Highly original and sometimes controversial Griffin's book develops its stance in conversation with influential proponents of other philosophical positions including William P. Alston Jürgen Habermas John Hick Colin McGinn Alvin Plantinga Hilary Putnam Willard Quine Ninian Smart Jeffrey Stout and Bernard Williams
