Ratios fundamentales de gestión empresarial Ciaran Walsh,2001 **La gestión del control de la empresa** José de Jaime Eslava,2013-10-25 El control de la empresa es fundamental para que pueda sobrevivir Es evidente que como confirman las estadísticas una gran mayoría de empresas pequeñas y medianas mueren bien por falta de control o bien por la existencia de un inadecuado sistema de control Estas muertes han pasado bastante desapercibidas durante la poca de crecimiento y bonanza pues si una empresa moría rápidamente era sustituida por otra nueva Pero la llegada de nuevos entornos de crisis ha puesto en primera plana las renovadas exigencias por incrementar y reforzar los niveles del control empresarial Control que se ha hecho mucho más necesario no sólo desde la perspectiva del control interno de las actividades empresariales sino también desde los crecientes requerimientos del control externo a las actividades de la empresa Control externo a las actividades sociales de la empresa cuya demanda por diferentes estamentos sociales crece de forma exponencial cada día como consecuencia de los casos de fraude y corrupción empresarial que aparecen y que dan la nefasta impresión de que muchas empresas son gestionadas con una gran falta de valores morales y éticos o como ahora se dice bajo la preeminencia de una cultura empresarial tóxica y destructiva Ahora bien tanto el control interno como externo de la gestión empresarial requieren a su vez de una adecuada sistematización que permita que dichos controles sean eficaces frente a todos los objetivos que deben conseguir amplios variados y en ciertos aspectos difíciles De ahí que este libro lo haya titulado como La gestión del control empresarial pues dicho control tiene que ser adecuadamente gestionado si con las actividades de control se pretenden corregir las desviaciones en los diferentes objetivos y niveles de la gestión empresarial Y por eso en el contenido del libro se analizan y comentan diferentes aspectos de cómo las actividades de la gestión del control empresarial deberían estructurarse sistematizarse y ejecutarse Incluso se aporta una metodología de actuación en base a una pirámide de cinco niveles control de las operaciones control de los procesos informativos y contables control de los resultados de gestión control de las estrategias y control de las responsabilidades sociales en los que en mi opinión debería estructurarse cualquier sistema integrado de gestión del control que persiga el éxito Además se incluyen ejemplos y ejercicios resueltos índice El control de la empresa como sistema El control de los procesos operativos y de la seguridad de los activos El control de los procesos informativos y contables El control de los resultados de la gestión empresarial El control de las estrategias empresariales Caso práctico de control El control de las responsabilidades sociales **Las claves del análisis**
