the introduction The stories in this collection were published between 1970 and 2003 and thus represent a considerable chunk perhaps a majority share of not only my career but my life when some critic asks me what was in my mind when I came up with a certain trope in one of those stories or what some bit of symbolism really means why I chose some word or image instead of another or sometimes even just what the specific inspiration for a story was often I just can't tell him I'm not that kid anymore So perhaps it's an odd way to review your career by the places where you've lived Probably not very satisfactory to the critics The most disgruntled among them will just have to get that time machine and go back and ask that bright-eyed young twenty-year-old kid about his work If you see him say hi for me Gardner Dozois is known for his beautiful evocation of setting and emotional intensity within a truly alien and often austere vision of the future He is a science fiction master of the first order a fact fully on display in this outstanding collection At the publisher's request this title is sold without DRM Digital Rights Management _Lyric haunting heartbreaking this is science fiction at its best George R R Martin Science Fiction Hall of Fame Inductee Gardner Dozois is the winner of two Nebula awards for fiction _My generation of writers has produced relatively few authentic masters of the short form Gardner Dozois is one of them William Gibson
