### **Law and the Question of the**

**Animal** Yoriko Otomo, Edward Mussawir, 2013-02-11 This book addresses the problem of animal life in terms that go beyond the usual extension of liberal rights to animals The discourse of animal rights is one that increasingly occupies the political ethical and intellectual terrain of modern society But although the question of the status of animals holds an important place within a range of civil political and technological disciplines the issue of rights in relation to animals usually rehearses the familiar perspectives of legal moral and humanist philosophy Animal law is fast becoming a topic of significant contemporary interest and discussion This burgeoning interest has not however been matched by renewed inquiry into the jurisprudential frames and methods for the treatment of animals in law nor the philosophical issue of the human and the animal that lies at law s foundation Responding to this interest *Law and the Question of the Animal* A Critical Jurisprudence brings together leading and emerging critical legal theorists to address the question of animality in relation to law s foundations practices and traditions of thought In so doing it engages a surprisingly underdeveloped aspect of the moral philosophies of animal rights namely their juridical register and existence How does animal law alter our juridical image of personality or personhood How do the technologies of law intersect with the technologies that invent create and manage animal life And how might the ethical ontological and ceremonial relation between humans and animals be linked to a common source or experience of law

Integrationism and the Self Christopher Hutton, 2019-04-10 In recent years a set of challenging questions have arisen in relation to the status of animals their treatment by human beings their cognitive abilities and the nature of their feelings emotions and capacity for suffering This ground breaking book draws from integrational semiology to investigate arguments around the rights of certain animals to be recognized as legal persons thereby granting them many of the protections enjoyed by humans In parallel with these debates the question of the legal personality of artificial intelligence AI systems has moved to the forefront of legal debate with entities such as robots cyborgs self driving cars and genetically engineered beings under consideration Integrationism offers a framework within which the wider theoretical and practical issues can be understood Law requires closure and categorical answers integrationism is an open ended form of inquiry that is seen as removed from particular controversies This book argues that the two domains can be brought together in a challenging and productive synthesis A much needed resource to examine the heart of this fascinating debate and a must read for anyone interested in semiology linguistics philosophy ethics and law The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Morris, 2016-07-26 Unlock the Mysteries of Faith and Science Have you wondered how the creation story in Genesis fits with the evolutionary theories of popular science You re not alone Many Christians wrestle with the seeming disparity between faith and science They want to believe the inerrancy of Scripture but it s difficult to reconcile the two Unlocking the Mysteries of Genesis seeks to resolve this conflict by answering key questions about the origin of human life the evidence left by the fossil record and how the findings of science line up with the Bible Using the most current research and data this visually stunning book takes readers on a journey that explores the wonders of God s creation through the lens of faith based science that clearly points to the authenticity and accuracy of the biblical creation account The compelling evidence you ll find as you study both Genesis and science will challenge your intellect and reinforce your faith

Subcommittee on the Constitution,2005     *The Ethics of Animal Experimentation* Donna Yarri,2005-08-18 Donna Yarri presents an overview of the current discussion on the ethics of animal experimentation from a Christian standpoint     *The Animal Catalyst* Patricia MacCormack,2014-06-19 The Animal Catalyst deals with the question of what is an animal and also in some instances what is a human It pushes critical animal studies in important new directions it re examines basic assumptions suggests new paradigms for how we can live and function ecologically in a world that is not simply ours It argues that it is not enough to recognise the ethical demands placed upon us by our encounters with animals or to critique our often murderous treatment of them this simply reinforces human exceptionalism Featuring contributions from leading academics lawyers artists and activists the book examines key issues such as How compassion for animals reinforces ideas of what distinguishes human beings from other animals How speciesism and human centrality are built into the legal system How individualist subjectivity works in relation to animals who may not think of themselves in the same way How any consideration of animal others must involve a radical deconstruction of our very notion of the human How art philosophy and literature can both avoid speciesism and deliver the human from subjectivity This volume is a unique project which stands at the cutting edge of both animal rights philosophies and posthuman artistic abstract philosophies of identity It will be of great interest to undergraduates and researchers in philosophy ethics particularly continental philosophy critical theory and cultural studies
