Sherman,1996-11-30 Phantom pain is an intriguing mystery that has captured the imagination of health care providers and the public alike How is it possible to feel pain in a limb or some other body part that has been surgically removed Phantom pain develops among people who have lost a limb or a breast or have had internal organs

removed It also occurs in people with totally transected spinal cords Unfortunately phantom pain is a medical night mare Many of the people reporting phantom pain make disproportionately heavy use of the medical system because their severe pains are usually not treated successfully The effect on quality of life can be devastating Phantom pain has been reported at least since 1545 Weir Mitchell as related by Nathanson 1988 and or experienced by such diverse people as Admiral Lord Nelson and Ambroise Pare Melzack Davis 1993 The folklore surrounding phantom pain is fascinating and mirrors the concepts about how our bodies work that are in vogue at any particular time Most of the stories relate to phantom limbs and date from the mid 1800s The typical story goes like this A man who had his leg amputated complained about terrible crawling twitching feelings in his leg His friends found out where the leg was buried dug it up and found maggots eating it They burned it and the pain stopped Another man complained of a swollen feeling with frequent stinging or biting pains

Giantsize Phantom 9 , *Human Body Perception from the Inside Out* Günther Knoblich,2006-01-05 As the general notion of cognition has recently broadened to include its embodied nature researchers accounts of perception have increasingly come to include the body's special status as a window on the world and to accommodate the specific perceptual requirements for identifying interpreting and interacting with other bodies This volume presents a comprehensive overview of the rapid progress that has been made in understanding the human body and its relationship to perception It will help to unify the relevant research from several independent areas of cognitive psychology and cognitive neuroscience and facilitate the development of an integrated framework for the study of human body perception *The Serpent's Muse* Shane Coley,2024-11-08 Private investigator Raven Cole navigates the rain slicked streets of Veritas a metropolis teeming with secrets her sharp eyes missing nothing But even Raven a collector of others deceptions isn't prepared for the nightmare that awaits her Her latest case a seemingly mundane infidelity investigation involving art dealer Marcus Knight plunges her into a world of meticulously staged deaths and chilling artistry Marcus a man shrouded in enigma moves through a world of exclusive galleries and clandestine auctions He exudes a dangerous magnetism that both repels and attracts Raven drawing her deeper into the investigation and closer to the truth about the Crimson Society a shadowy organization operating just beneath the city's glittering facade The first death shatters the illusion of normalcy A prominent socialite is found posed as a grotesque sculpture a macabre echo of a piece in Marcus's collection The air hangs heavy with the cloying scent of lilies Marcus's signature fragrance a spectral calling card from a killer who transforms victims into macabre masterpieces Each subsequent murder mimics a different piece from Marcus's collection turning the city into a canvas for the Society's gruesome art Drawn into a dangerous tango with Marcus Raven finds herself entangled in a web of suspicion and desire each step bringing them closer to the truth and closer to the edge of the abyss Dr Erika Chase a brilliant psychologist scarred by a past betrayal emerges as the architect of these deadly performances Her motivation is chillingly personal to recreate and control the very emotions that once destroyed her She views her victims as mere pawns their lives and deaths a perverse

symphony of human emotion Haunted by the ghosts of a past case disgraced investigator Joseph Ross offers Raven fragmented clues and cryptic warnings His fractured memories hold the key to dismantling the Society but accessing them means confronting the trauma that shattered his career and his sanity As Raven and Marcus delve deeper they uncover the Society's intricate selection process realizing they are both targets in Dr Chase's twisted game Their investigation takes them from glittering galleries to the city's darkest corners where secrets are currency and survival is an art form In a hidden chamber beneath a museum they discover Dr Chase's journals revealing her chilling obsession with Raven herself The race is on to stop her final masterpiece a terrifying climax in a secluded mansion where the lines between hunter and hunted blur lover and suspect intertwine Raven must confront her own past traumas her obsession with uncovering Marcus's secrets mirroring her deep seated fear of vulnerability The confrontation forces Marcus to choose between the shadows of his past and the promise of a future with Raven The Society's deadly charade is exposed but the cost of truth is steep The city scarred but resilient continues to breathe its secrets buried deep within its concrete veins The serpent's muse silenced but not forgotten remains a haunting testament to the enduring power of obsession and the chilling beauty of destruction
