Rayford W Logan And The Dilemma Of The Africanamerican Intellectual

Zachery R. Williams

Rayford W Logan And The Dilemma Of The Africanamerican Intellectual:

Rayford W. Logan and the Dilemma of the African American Intellectual Kenneth Robert Janken, 2022 This biography of the African American activist and scholar Rayford W Logan draws from his own work letters diaries and autobiography to create a portrait of a lesser known member of the black scholarly elite in the mid 20th century

Rayford W. Logan and the Dilemma of the African-American Intellectual Kenneth Robert Janken, 1993 This biography of the African American activist and scholar Rayford W Logan discusses his life and career and examines his contributions to the history of race relations in the United States

In Search of the Talented Tenth Zachery R. Williams, 2010-01-29 From the 1920s through the 1970s Howard University was home to America's most renowned assemblage of black scholars This book traces some of the personal and professional activities of this community of public intellectuals demonstrating their scholar activist nature and the myriad ways they influenced modern African American African and Africana policy studies In Search of the Talented Tenth tells how individuals like Rayford Logan E Franklin Frazier John Hope Franklin Merze Tate Charles Wesley and Dorothy Porter left an indelible imprint on academia and black communities alike through their impact on civil rights anticolonialism and women's rights Zachery Williams explores W E B Du Bois's Talented Tenth by describing the role of public intellectuals from the Harlem Renaissance to the Black Power movement in times as trying as the Jim Crow and Cold War eras Williams first describes how the years 1890 to 1926 laid the foundation for Howard's emergence as the capstone of Negro education during the administration of university president Mordecai Johnson He offers a wide ranging discussion of how the African American community of Washington D C contributed to the dynamism and intellectual life of the university and he delineates the ties that linked many faculty members to one another in ways that energized their intellectual growth and productivity as scholars He also discusses the interaction of Howard's intellectual community with those of the West Indies Africa and other places showing the international impact of Howard's intellectuals and the ways in which black and brown elites outside the United States stimulated the thought and scholarship of the Howard intellectuals In Search of the Talented Tenth marks the first in depth study of the intellectual activity of this community of scholars and further attests to the historic role of women faculty in shaping the university It testifies to the impact of this group as a model against which the twenty first century's black public intellectuals can be measured

The Segregated Scholars Francille Rusan Wilson, 2006 The careers Wilson considers include many of the most brilliant of their eras She sheds new light on the interplay of the professional and political commitments of W E B Du Bois Abram L Harris Robert C Weaver Carter G Woodson George E Haynes Charles H Wesley R R Wright Jr a succession of scholars bent on replacing myths and stereotypes regarding black labor with rigorous research and analysis

The Literature of the Ozarks Phillip Douglas Howerton, 2019 This book surveys two centuries of Ozarks literature from an Osage creation story to contemporary poetry and fiction This anthology presents writings from more than forty authors and connects these works to major literary movements while

exploring their regional themes and their contributions to the social construction of the Ozarks *Breaking White Supremacy* Gary Dorrien, 2018-01-09 The award winning author of *The New Abolition* continues his history of black social gospel with this study of its influence on the Civil Rights movement The civil rights movement was one of the most searing developments in modern American history It abounded with noble visions resounded with magnificent rhetoric and ended in nightmarish despair It won a few legislative victories and had a profound impact on U S society but failed to break white supremacy The symbol of the movement Martin Luther King Jr soared so high that he tends to overwhelm anything associated with him Yet the tradition that best describes him and other leaders of the civil rights movement has been strangely overlooked In his latest book Gary Dorrien continues to unearth the heyday and legacy of the black social gospel a tradition with a shimmering history a martyred central figure and enduring relevance today This part of the story centers around King and the mid twentieth century black church leaders who embraced the progressive justice oriented internationalist social gospel from the beginning of their careers and fulfilled it inspiring and leading America's greatest liberation movement *Ralph Ellison and the Raft of Hope* Lucas E. Morel, 2021-05-11 This superb essay collection enables readers of *Invisible Man* to appreciate the subtleties of its cultural and political commentary *Journal of American Studies* An important collection of original essays that examine how Ellison's landmark novel *Invisible Man* 1952 addresses the social cultural political economic and racial contradictions of America Commenting on the significance of Mark Twain's writings Ralph Ellison wrote that a novel could be fashioned as a raft of hope perception and entertainment that might help keep us afloat as we tried to negotiate the snags and whirlpools that mark our nation's vacillating course toward and away from the democratic ideal Ellison believed it was the contradiction between America's noble ideals and the actualities of our conduct that inspired the most profound literature the American novel at its best Drawing from the fields of literature politics law and history the contributors make visible the political and ethical terms of *Invisible Man* while also illuminating Ellison's understanding of democracy and art Ralph Ellison and the *Raft of Hope* uniquely demonstrates why *Invisible Man* stands as a premier literary meditation on American democracy Essential reading for anyone interested in understanding Ellison's political thought Lawrence Jackson author of *Ralph Ellison Emergence of Genius Outstanding* Provides an interdisciplinary perspective of the politics of the book *Lexington Herald Leader* These essays demonstrate that a great work of art has the capacity to renew itself across generations Pamela K Jensen Kenyon College This careful study of Ellison's great novel is highly recommended for all serious students of American and African American literature *African American Review*

African Americans and ROTC Charles Johnson, Jr., 2002-05-20 This work covers Reserve Officer Training Corps ROTC detachments at historically African American colleges and universities throughout the United States from the inception of the Student Army Training Corps to the advanced programs currently in place The armistices following World War I allowed for ROTC programs to be set up World War II saw a push for recruits and American participation in Vietnam made use of black

soldiers more than ever Despite African American participation in the military in war and peace it took nearly 60 years for black collegiate education institutions around 1973 to fulfill their need for Army Navy and Air Force ROTC programs producing commissioned officers The book discusses the beginnings of the ROTC programs at African American colleges with the Student Army Training Corps and the establishment expansion and reorganization of the programs that followed The acquisition of Air Force and Navy ROTC programs are discussed and all the revisions to the various programs thereafter including opening them up to women

Race to Revolution Gerald Horne, 2014-07-08 The histories of Cuba and the United States are tightly intertwined and have been for at least two centuries In *Race to Revolution* historian Gerald Horne examines a critical relationship between the two countries by tracing out the typically overlooked interconnections among slavery Jim Crow and revolution Slavery was central to the economic and political trajectories of Cuba and the United States both in terms of each nation's internal political and economic development and in the interactions between the small Caribbean island and the Colossus of the North Horne draws a direct link between the black experiences in two very different countries and follows that connection through changing periods of resistance and revolutionary upheaval Black Cubans were crucial to Cuba's initial independence and the relative freedom they achieved helped bring down Jim Crow in the United States reinforcing radical politics within the black communities of both nations This in turn helped to create the conditions that gave rise to the Cuban Revolution which on New Years Day in 1959 shook the United States to its core Based on extensive research in Havana Madrid London and throughout the U S *Race to Revolution* delves deep into the historical record bringing to life the experiences of slaves and slave traders abolitionists and sailors politicians and poor farmers It illuminates the complex web of interaction and influence that shaped the lives of many generations as they struggled over questions of race property and political power in both Cuba and the United States

White World Order, Black Power Politics Robert Vitalis, 2015-12-09 Racism and imperialism are the twin forces that propelled the course of the United States in the world in the early twentieth century and in turn affected the way that diplomatic history and international relations were taught and understood in the American academy Evolutionary theory social Darwinism and racial anthropology had been dominant doctrines in international relations from its beginnings racist attitudes informed research priorities and were embedded in newly formed professional organizations In *White World Order Black Power Politics* Robert Vitalis recovers the arguments texts and institution building of an extraordinary group of professors at Howard University including Alain Locke Ralph Bunche Rayford Logan Eric Williams and Merze Tate who was the first black female professor of political science in the country Within the rigidly segregated profession the Howard School of International Relations represented the most important center of opposition to racism and the focal point for theorizing feasible alternatives to dependency and domination for Africans and African Americans through the early 1960s Vitalis pairs the contributions of white and black scholars to reconstitute forgotten historical dialogues and show the critical role played by race in the formation of

international relations *Charles H. Houston* James L. Conyers Jr.,2012-07-25 This study seeks to examine the life and work of Charles Hamilton Houston and the scope of this project will focus on the implementation and organization of the proposed plan in three ways philosophical ideas constructive engagement and lasting contributions of this legal scholar activist When compiling scholarly articles for this volume the challenge was examining not just legal precedents of Houston but his contributions to the study of civic engagement with emphasis on privilege racism disparity and educational philosophy

The Internal Colony Sam Klug,2025-01-14 An explication of how global decolonization provoked profound changes in American political theory and practice In *The Internal Colony* Sam Klug reveals the central but underappreciated importance of global decolonization to the divergence between mainstream liberalism and the Black freedom movement in postwar America Klug reconsiders what has long been seen as a matter of primarily domestic policy in light of a series of debates concerning self determination postcolonial economic development and the meanings of colonialism and decolonization These debates deeply influenced the discord between Black activists and state policymakers and formed a crucial dividing line in national politics in the 1960s and 1970s The result is a history that broadens our understanding of ideological formation particularly how Americans conceptualized racial power and political economy by revealing a much wider and more dynamic network of influences Linking intellectual political and social movement history *The Internal Colony* illuminates how global decolonization transformed the terms of debate over race and social class in the twentieth century United States *The*

New Abolition Gary J. Dorrien,2015-01-01 The black social gospel emerged from the trauma of Reconstruction to ask what a new abolition would require in American society It became an important tradition of religious thought and resistance helping to create an alternative public sphere of excluded voices and providing the intellectual underpinnings of the civil rights movement This tradition has been seriously overlooked despite its immense legacy In this groundbreaking work Gary Dorrien describes the early history of the black social gospel from its nineteenth century founding to its close association in the twentieth century with W E B Du Bois He offers a new perspective on modern Christianity and the civil rights era by delineating the tradition of social justice theology and activism that led to Martin Luther King Jr **Transformation of the**

African American Intelligentsia, 1880-2012 Martin Kilson,2014-06-17 After Reconstruction African Americans found themselves largely excluded from politics higher education and the professions Martin Kilson explores how a modern African American intelligentsia developed amid institutionalized racism He argues passionately for an ongoing commitment to communitarian leadership in the tradition of Du Bois **Racism in Contemporary America** Meyer Weinberg,1996-05-23

Racism in Contemporary America is the largest and most up to date bibliography available on current research on the topic It has been compiled by award winning researcher Meyer Weinberg who has spent many years writing and researching contemporary and historical aspects of racism Almost 15 000 entries to books articles dissertations and other materials are organized under 87 subject headings In addition there are author and ethnic racial indexes Several aids help the researcher

access the materials included In addition to the subject organization of the bibliography entries are annotated whenever the title is not self explanatory An author index is followed by an ethnic racial index which makes it convenient to follow a single group through any or all the subject headings This is a source book for the serious study of America s most enduring problem as such it will be of value to students and researchers at all levels and in most disciplines **Thinking in Public** Celucien L. Joseph,2017-04-25 Thinking in Public provides a probing and provocative meditation on the intellectual life and legacy of Jacques Roumain As a work of intellectual history the book investigates the intersections of religious ideas secular humanism and development within the framework of Roumain s public intellectualism and cultural criticism embodied in his prolific writings The book provides a reconceptualization of Roumain s intellectual itineraries against the backdrop of two public spheres a national public sphere Haiti and a transnational public sphere the global world Second it remaps and reframes Roumain s intellectual circuits and his critical engagements within a wide range of intellectual traditions cultural and political movements and philosophical and religious systems Third the book argues that Roumain s perspective on religion social development and his critiques of religion in general and of institutionalized Christianity in particular were substantially influenced by a Marxist philosophy of history and secular humanist approach to faith and human progress Finally the book advances the idea that Roumain s concept of development is linked to the theories of democratic socialism relational anthropology distributive justice and communitarianism Ultimately this work demonstrates that Roumain believed that only through effective human solidarity and collaboration can serious social transformation and real human emancipation take place **Alpha Phi Alpha** Gregory S. Parks,Stefan M. Bradley,2012-01-27 A thoughtful historical and sociological look inside the fraternity that s shaped men from W E B DuBois to Martin Luther King Jr to Thurgood Marshall Choice On December 4 1906 on Cornell University s campus seven black men founded one of the greatest and most enduring organizations in American history Alpha Phi Alpha Fraternity Inc has brought together and shaped such esteemed men as Martin Luther King Jr Cornel West Thurgood Marshall Wes Moore W E B DuBois Roland Martin and Paul Robeson Born in the shadow of slavery and on the lap of disenfranchisement Alpha Phi Alpha like other black Greek letter organizations was founded to instill a spirit of high academic achievement and intellectualism foster meaningful and lifelong ties and racially uplift those brothers who would be initiated into its ranks In Alpha Phi Alpha Gregory S Parks Stefan M Bradley and other contributing authors analyze the fraternity and its members fidelity to the founding precepts set forth in 1906 They discuss the identity established by the fraternity at its inception the challenges of protecting the image and brand and how the organization can identify and train future Alpha men to uphold the standards of an outstanding African American fraternity Drawing on organizational identity theory and a diverse array of methodologies the authors raise and answer questions that are relevant not only to Alpha Phi Alpha but to all black Greek letter organizations **Black Veterans, Politics, and Civil Rights in Twentieth-Century America** Robert F. Jefferson Jr.,2019-01-29 Fusing riveting testimony from African American

veterans with the most incisive research of current military scholars Black Veterans Politics and Civil Rights in 20th Century America Closing Ranks explores the intersecting characteristics of civil rights struggle and political activism that was reflected in the lives of ex GIs throughout Twentieth Century American history The volume examines black veterans social and political activities throughout the 20th Century from the World Wars through the Korean and Vietnam War and ends with the Persian Gulf War Presenting the full flesh and blood experiences of black veterans who came from backgrounds and from all walks of life each essay captures how race gender ethnic class disability generation and region shaped their experiences in the nation s military during times of war and how these issues profoundly affected the postwar politics they embraced while trying to realize the true meaning of equality in America With original essays by emerging scholars in the field of study Closing Ranks is a foundational text for reassessing the relationship between the ex GI and the modern nation state and providing readers with a vivid window into the harsh realities that black citizen soldiers have faced during war and its aftermath for nearly a century

Betrayal Houston A. Baker, 2010-03-05 Houston A Baker Jr condemns black intellectuals who he believes have turned their backs on the tradition of racial activism in America In their literature speeches and academic and public behavior Baker identifies a hungry generation eager for power respect and money Critiquing his own impoverished childhood in the Little Africa section of Louisville Kentucky Baker seeks to understand the shaping of this new public figure He also revisits classical sites of African American literary and historical criticism and critique and devotes chapters to the writing and thought of such black academic superstars as Cornel West Michael Eric Dyson and Henry Louis Gates Jr Hoover Institution senior fellow Shelby Steele Yale law professor Stephen Carter and Manhattan Institute fellow John McWhorter Baker s provocative investigation into the disingenuous posturing of these and other individuals exposes what he deems to be a tragic betrayal of the legacy of Martin Luther King Jr He urges black intellectuals to reestablish both sacred and secular connections with local communities and rediscover the value of social responsibility As Baker sees it the mission of the black intellectual today is not to do great things but to do specific racially based work that is in the interest of the black majority

Political Woman Sharon Hartman Strom, 2001 Countering traditional narratives that place men at the centre of political thinking and history this text tells the life story of Florence Hope Luscomb a political activist who s life spanned nearly all of the 20th century
