Raymond Poincaré The French Presidency:

Raymond Poincaré and the French Presidency Gordon Wright, 1967 Raymond Poincaré and the French Presidency Gordon Wright, 1939 **Raymond Poincaré and the French Presidency** Gordon Wright (historicus), 1942 **Raymond Poincaré and the French Presidency-N.Y., Octagon Books, 1967** Gordon Wright, **The Lost History of 1914** Jack Beatty, 2012-02-02 In *The Lost History of 1914* Jack Beatty examines the First World War and its causes testing against fresh evidence the long dominant assumption that it was inevitable. Most books set in 1914 map the path leading to war. Beatty writes this one maps the multiple paths that led away from it. Radically challenging the standard account of the war's outbreak, Beatty presents the assassination of Archduke Franz Ferdinand not as the catalyst of a war that would have broken out in any event over some other crisis but rather as its all but unique precipitant. Chronicling largely forgotten events faced by each of the belligerent countries in the months before the war started in August, Beatty shows how any one of them a possible military coup in Germany the threat to Britain of civil war in Ireland the murder trial of the wife of the likely next premier of France who sought détente with Germany might have derailed the arrival of war. Europe's ruling classes, Beatty shows, were so haunted by fear of those below that they mistook democratisation for revolution and were tempted to escape forward into war to head it off. Beatty's deeply insightful book as elegantly written as it is thought provoking and probing, lights a lost world about to blow itself up in what George Kennan called the seminal catastrophe of the twentieth century. *The Lost History of 1914* is a highly original and challenging work of history. The Trial of Madame Caillaux Edward Berenson, 1993-12-15 What a pleasure it is to read a book by a gifted writer whose exhaustive research results in such thought provoking insights. Deirdre Bair, author of *Simone de Beauvoir*. A Biography **A Line in the Sand: The Anglo-French Struggle for the Middle East, 1914-1948** James Barr, 2012-01-09 Uses recently declassified French and British government documents to describe how the two countries secretly divided the Middle East during World War I and the effect these mandates had on local Arabs and Jews. **Twilight of the Titans** Paul K. MacDonald, Joseph M. Parent, 2018-04-15 In *Twilight of the Titans* Paul K. MacDonald and Joseph M. Parent examine great power transitions since 1870 to determine how declining powers choose to behave, identifying the strong incentives to moderate their behavior when the hierarchy of great powers is shifting. Challenging the conventional wisdom that such transitions push declining great powers to extreme measures, this book argues that intimidation, provocation, and preventive war are not the only alternatives to the loss of relative power and prestige. Using numerous case studies, MacDonald and Parent show how declining states tend to behave, the policy options they have, how rising states respond to those in decline, and what conditions reward particular strategic choices. **Power and Pleasure** Robert J. Young, 1991 One of the great political figures of his day, Barthou, 1862-1934, spent 45 years in French public life as lawyer, journalist, deputy senator, and cabinet minister. Young, history U of Winnipeg, has written a social biography situating Barthou's life both public and private.

Drake, 2005-04-05 A companion volume to Drake's Intellectuals and Politics in Post War France 2002 French Intellectuals from the Dreyfus Affair to the Occupation traces the political positions adopted by French writers and artists from the end of the 19th century to the Liberation Drawing on a wide range of primary and secondary sources it offers a clear and accessible analysis of the intellectuals' engagement with nationalism pacifism communism anti communism surrealism fascism and anti fascism which is located within the evolving national and international context of the period **Europe between**

Democracy and Dictatorship Conan Fischer, 2010-09-20 Fischer offers a captivating analysis of Europe's turbulent history during the first half of the twentieth century from the optimism at the turn of the century to the successive waves of destruction of the First and Second World Wars Written by a leading authority in this field the book draws upon his areas of expertise Reflects the most recent scholarship in this period of history While laying stress on Europe's major powers and the seminal events of the earlier twentieth century Fischer pays due attention to the smaller European countries from the Atlantic to the Black Sea and the Baltic to the Mediterranean Extends beyond the political sociological and economic paradigms to include extensive references to the European cultural scene Organized both as a broad chronology and thematically in order to allow for historical insights and entry into the key debates and literature Panthéon de la Guerre:

Reconfiguring a Panorama of the Great War Mark Levitch, 2006-11 **T. P.'s Weekly**, 1913 *Lloyd George and the Generals* David R. Woodward, 2004-11-23 The frustrating stalemate on the western front with its unprecedented casualties provoked a furious debate in London between the civil and military authorities over the best way to defeat Germany The passions aroused continued to the present day The mercurial and dynamic David Lloyd George stood at the centre of this controversy throughout the war His intervention in military questions and determination to redirect strategy put him at odds with the leading soldiers and admirals of his day Professor Woodward a student of the Great War for some four decades explores the at times Byzantine atmosphere at Whitehall by exhaustive archival research in official and private papers The

focus is on Lloyd George and his adversaries such as Lord Kitchener General Sir William Robertson and Field Marshall Sir Douglas Haig The result is a fresh compelling and detailed account of the interaction between civil and military authorities in total war

The Hijaz Malik Dahlan,2018-08-01 Dahlan offers an alternative vision of Islamic governance through the history and promise of the Hijaz the first state of Islam The Hijaz in the west of present day Saudi Arabia was the first Islamic state in Mecca and Medina This new interpretative history offers a fresh vision of Islamic governance and law as a positive force for political reform in the Middle East and beyond Applying key Islamic principles of public good to contemporary life Malik Dahlan challenges two dominant narratives He reclaims the development of Islamic statecraft as the wellspring of collective identity and statesmanship in the Arab world simultaneously influenced and disrupted by Westphalian statehood models and Enlightenment notions of self determination He equally rejects the appropriation of Islamic governance and the Caliphate concept by both the post modern non territorial Al Qaeda and the neo medievalist ISIS Celebrating the history and untapped potential of a region where Arab leaders built the ideological foundations of an emerging polity The Hijaz is a compelling alternative analysis of governance in the Arabian Peninsula and the global Islamic community and of its interaction with the wider world

The Origins of World War I Richard F. Hamilton,Holger H. Herwig,2003-02-24 This work poses a straightforward yet at the same time perplexing question about World War I Why did it happen Several of the oft cited causes are reviewed and discussed The argument of the alliance systems is inadequate lacking relevance or compelling force The arguments of mass demands those focusing on nationalism militarism and social Darwinism it is argued are insufficient lacking indications of frequency intensity and process how they influenced the various decisions The work focuses on decision making on the choices made by small coterie in Austria Hungary Germany Russia France Britain and elsewhere The decisions made later by leaders in Japan the Ottoman Empire Italy the Balkans and the United States are also explored The final chapters review the basic causes once again An alternative position is advanced one focused on elites and coterie their backgrounds and training and on their unique agendas

The French Secret Services Douglas Porch,2003-11 Chronicles the development of the French secret services in the modern era asks some fundamental questions about what France expected and expects from them and offers a assessment of their role and influence in the state and the military
