## **Re Distribution Of Authority A Cross Regional Perspective:**

Re-distribution of Authority Jeanie J. Bukowski, Swarna Rajagopalan, 2000-05-30 Bukowski Rajagopalan and their contributors seek to cross both analytical and geographic boundaries in the study of why and how authority shifts both within and beyond the modern nation state They develop a conceptualization of the re distribution of authority that is when the capacity of governmental and societal units involved in carrying out the tasks and responsibilities of governance change over time relative to each other They argue that this is a more comprehensive alternative to extant conceptualizations used to study the shifting of authority such as decentralization regionalism or federalism Nine diverse cases are then presented Pakistan India Sri Lanka the United States Russia Spain Portugal Senegal and South Africa Each case addresses the questions Which are the factors that explain the re distribution of authority Under what conditions are some of these factors more important than others Despite the diversity of the cases in both geographic location and levels of economic and political development four major explanatory factors emerge as common across all nine cases identity related claims economic imperatives considerations of administrative efficiency and political agency Moreover discerning the complex interaction of these factors is necessary in understanding the re distribution of authority in both its centralizing and decentralizing forms across all levels of governance Of particular interest to scholars students and policy researchers involved with international relations comparative politics public administration political development and state formation and ethnonational politics

*State and Nation in South Asia* Swarna Rajagopalan, 2001 What makes a national community out of a state Addressing this fundamental question Rajagopalan studies national integration from the perspective of three South Asian communities Tamilians in India Sindhis in Pakistan and Tamils in Sri Lanka that have a history of secessionism in common but with vastly different outcomes Rajagopalan investigates why integration is relatively successful in some cases Tamil Nadu less so in others Sindh and disastrous in some Sri Lanka Broadly comparative and drawing together multiple aspects of political development and nation building her imaginative exploration of the tension between state and nation gives voice to relatively disenfranchised sections of society

**The Secular and the Sacred** William Safran, 2004-08-02 What is the place of religion in modern political systems This volume addresses that question by focusing on ten countries across several geographic areas Western and East Central Europe North America the Middle East and South Asia These countries are comparable in the sense that they are committed to constitutional rule have embraced a more or less secular culture and have formal guarantees of freedom of religion Yet in all the cases examined here religion impinges on the political system in the form of legal establishment semi legitimation subvention and or selective institutional arrangements and its role is reflected in cultural norms electoral behaviour and public policies The relationship between religion and politics comes in many varieties in differing countries yet all are faced with three major challenges modernity democracy and the increasingly multi ethnic and multi religious nature of their societies

**Between Europeanization and Local Societies** Jeanie J. Bukowski, Simona

Patterson, 2018-01-18 This edited volume analyzes African state responses to the AIDS epidemic Institutionally weak limited in resources and lacking power in the international system the African state has been characterized as inefficient corrupt and illegitimate The volume questions how aspects of the African state have affected policy responses to AIDS It highlights how African states must initiate develop and or implement the long term policy solutions necessary to combat AIDS It employs empirical studies from the international and national arena to illustrate why some African states have been able and willing to address AIDS while others have not Contributions analyze how international actors civil society organizations state ideology patriarchy and state capacity have influenced policies to fight AIDS Examining AIDS policies through the prism of African state development and linkages to domestic and international actors this book provides a nuanced understanding of the variety of responses to AIDS in Africa **Local Government in Central and Eastern Europe** Andrew Coulson, Adrian Campbell, 2007-08-02 Advocates of democratization in Central and Eastern Europe before 1989 placed great emphasis on community self government as the basis of civil society and democracy After the Velvet Revolutions of 1989 and the break up of the Soviet Union in 1991 the new states created an elected local government whereby cities towns and villages elected the John Frith, Scholar and Martyr Brian Raynor, 2000 John Frith was one of the outstanding academics of his time He had a clear logical mathematical mind was highly respected and influenced many Yet in 1553 at the age of 30 he was burnt at the stake for writing books supporting doctrines of Reformation This work discusses his life Local Government Reform Brian Dollery, Joseph Garcea, Edward C. **Security and South Asia** Swarna Rajagopalan, 2014-03-21 Stephen Philip Cohen can rightly be called the doyen of South Asian security analysis especially traditional security concerns in the region and advocacy on US foreign policy The contributors to the volume have all at different at different points in time been Cohen s students and are now well known scholars in their own right Broadly dividing Cohen s work into categories the contributors deal with the following issues how security is understood and how important strategic relationships are framed approaches to and choices made in the areas of military structure arms production and investment in science and technology how and why civil society groups are mobilized towards political ends specifically looking at ethnic mobilization in diaspora communities non official initiatives for peace in South Asia and the role of state and non state actors in disaster management the role of the army The essays reflect a view of security as something people choose to make for themselves through an exercise of agency that is rooted in the realm of

ideas     **Nationalism and Self-Government** Scott L. Greer,2012-02-01 Scotland and Catalonia both ancient nations with strong nationalisms within larger states are exemplars of the management of ethnic conflict in multinational democracies and of global trends toward regional government Focusing on these two countries Scott L Greer explores why nationalist mobilization arose when it did and why it stopped at autonomy rather than statehood He challenges the notion that national identity or institutional design explains their relative success as stable multinational democracies and argues that the key is their strong regional societies and their regional organizations preferences for autonomy and environmental stability

**Imagining India** Nandan Nilekani,2009 An analysis of the central ideas that have shaped India throughout its recent economic boom presented by a co founder of Infosys explains why India s future will depend on reform and innovation in all sectors of public life in a report that traces the achievements of the country s leaders to date while charting key ideas for ongoing infrastructure developments     **The Federalism Report** ,1994     Is There a Future for Regional Government?

Great Britain: Parliament: House of Commons: ODPM: Housing, Planning, Local Government and the Regions Committee,2006-03-15 Is there a future for regional Government Session 2005 06 Vol 2 Written Evidence     *Coalitional Presidentialism in Comparative Perspective* Paul Chaisty,Nic Cheeseman,Timothy J. Power,2018 This book provides the first cross regional study of an increasingly important form of politics coalitional presidentialism Drawing on original research of minority presidents in the democratising and hybrid regimes of Armenia Benin Brazil Chile Ecuador Kenya Malawi Russia and Ukraine it seeks to understand how presidents who lack single party legislative majorities build and manage cross party support in legislative assemblies It develops a framework for analysing this phenomenon and blends data from MP surveys detailed case studies and wider legislative and political contexts to analyse systematically the tools that presidents deploy to manage their coalitions The authors focus on five key legislative cabinet partisan budget and informal exchange of favours tools that are utilised by minority presidents They contend that these constitute the toolbox for coalition management and argue that minority presidents will act with imperfect or incomplete information to deploy tools that provide the highest return of political support with the lowest expenditure of political capital In developing this analysis the book assembles a set of concepts definitions indicators analytical frameworks and propositions that establish the main parameters of coalitional presidentialism In this way *Coalitional Presidentialism in Comparative Perspective* provides crucial insights into this mode of governance Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Senior Research Fellow Nuffield College University of Oxford     **Virginia journal of international law** ,2002     **Legal Perspectives on the Russia-Ukraine War** Michał Balcerzak,Ewelina Cała-Wacinkiewicz,2025-09-18 This book critically examines the legal

ramifications of Russia's invasion of Ukraine and the aftermath of these events. Combining international and domestic perspectives, it synthesises nearly three years of legal responses to the aggression. Russia's aggression against Ukraine has triggered profound legal challenges with far-reaching implications for the states directly involved, third parties, and the international legal order. This book offers a comprehensive analysis of the international and domestic legal dimensions of the conflict. Beginning by exploring the international legal framework, including assessing the responses of the United Nations system and key legal issues arising from the war, exploring topics such as human rights, international humanitarian law, and the law of war, the book also analyses Poland's response to the war, discussing the legislative and policy measures undertaken to address the impact of the crisis. Poland, Ukraine's immediate neighbour, has played a pivotal role in managing the unprecedented influx of Ukrainian refugees and adapting its legal framework to the challenges posed by the war. The book uses Poland as a lens through which to examine the international legal response. This book will be of interest to researchers in the field of international law and human rights law.

**Municipal Reform in Canada** Joseph Garcea, Edward C. LeSage, 2005. This book presents an analysis of the purposes, processes, politics, and outcomes of reform for each of the provinces and the northern territories. These analyses reveal that reforms during this turn of the millennium period have reconfigured and in some cases re-empowered municipal governance and shifted the balance of roles, responsibilities, and relationships among city and regional municipal governments and between them and their respective provincial and territorial governments. The reform process, however, has not gone so far as to reinvent municipal governance and is not likely to in the foreseeable future. Indeed, the extent of change in recent years in many jurisdictions has brought about a degree of reform fatigue so that the principle actors in provincial municipal politics may be reticent to pursue new initiatives in the near future.
