Re Examining The Cold War Us China Diplomacy 1954 1973:

Re-examining the Cold War Robert S. Ross, Changbin Jiang, 2001 The twelve essays in this volume underscore the similarities between Chinese and American approaches to bilateral diplomacy and between their perceptions of each other's policy making motivations Much of the literature on U S China relations posits that each side was motivated either by ideologically informed interests or by ideological assumptions about its counterpart But as these contributors emphasize newly accessible archives suggest rather that both Beijing and Washington developed a responsive and tactically adaptable foreign policy Each then adjusted this policy in response to changing international circumstances and changing assessments of its counterpart's policies Motivated less by ideology than by pragmatic national security concerns each assumed that the other faced similar considerations International Relations Since 1945 John W. Young, John Kent, 2020 This textbook provides description and analysis of the Cold War and its aftermath It covers the period from all angles with focus on regional developments as well as global interactions and also gives due consideration to economic and strategic issues

Constructing the U.S. Rapprochement with China, 1961-1974 Evelyn Goh, 2004-11-22 With Nixon's historic reconciliation with China in 1972 Sino American relations were restored and China moved from being regarded as America's most implacable enemy to a friend and tacit ally Existing accounts of the rapprochement focus on the shifting balance of power between the USA China and the Soviet Union but in this book Goh argues that they cannot adequately explain the timing and policy choices related to Washington's decisions for reconciliation with Beijing Instead she applies a more historically sensitive approach that privileges contending official American constructions of China's identity and character This book demonstrates that ideas of reconciliation with China were already being propagated and debated within official circles in the USA during the 1960s It traces the related policy discourse and imagery and examines their continuities and evolution into the early 1970s that facilitated Nixon's new policy **The Media and Sino-American Rapprochement, 1963-1972**

Guolin Yi, 2020-11-11 Winner of the ACPSS Research Award An important new cultural study of the Cold War Guolin Yi's *The Media and Sino American Rapprochement 1963 1972* analyzes how the media in both countries shaped public perceptions of the changing relations between China and the United States in the decade prior to Richard Nixon's visit to Beijing This book offers the first systematic study of Cankao Xiaoxi Reference News an internal Chinese newspaper that carried relatively objective stories the Xinhua News Agency translated from world news media for circulation among Communist cadres As the main channel for the cadres to learn about the outside world this newspaper provides a window into China's evolving foreign policy including the reception of signals from the Nixon administration Yi compares this internal communications channel with the public accounts contained in the more widely circulated newspaper *People's Daily* a chief propaganda outlet of the Chinese Communist Party CCP directed at its own people and China watchers all over the world A third level of communication emerges in classified CCP instructions and government documents By approaching the Chinese

communication system on three levels internal public and classified Yi's analysis demonstrates how people at different positions in the political hierarchy accessed varying types of information allowing him to chart the development of Beijing's approach to the U.S. government In a corresponding analysis of the defining features of American reporting on China Yi considers the impact of government media relationships in the United States during the Cold War Alongside prominent magazines and newspapers particularly the New York Times and the Washington Post in their differing coverage of key events Yi discusses television networks which proved vital for promoting the success of Ping Pong Diplomacy and the impact of Nixon's visit in 1972 With its comparative study of news outlets in the two countries *The Media and Sino American Rapprochement 1963-1972* presents a thorough and comprehensive perspective on the role of the media in influencing domestic Chinese and American public opinion during a critical decade

The Everyday Cold War Chi-kwan Mark, 2017-10-05 In 1950 the British government accorded diplomatic recognition to the newly founded People's Republic of China But it took 22 years for Britain to establish full diplomatic relations with China How far was Britain's China policy a failure until 1972 This book argues that Britain and China were involved in the everyday Cold War or a continuous process of contestation and cooperation that allowed them to normalize their confrontation in the absence of full diplomatic relations From Vietnam and Taiwan to the mainland and Hong Kong China's everyday Cold War against Britain was marked by diplomatic ritual propaganda rhetoric and symbolic gestures Rather than pursuing a failed policy of appeasement British decision makers and diplomats regarded engagement or negotiation with China as the best way of fighting the everyday Cold War Based on extensive British and Chinese archival sources this book examines not only the high politics of Anglo-Chinese relations but also how the British diplomats experienced the Cold War at the local level

A Cold War Turning Point Chris Tudda, 2012-05-07 In February 1972, President Nixon arrived in Beijing for what Chairman Mao Zedong called the week that changed the world Using recently declassified sources from American, Chinese, European, and Soviet archives, Chris Tudda's *A Cold War Turning Point* reveals new details about the relationship forged by the Nixon administration and the Chinese government that dramatically altered the trajectory of the Cold War Between the years 1969 and 1972, Nixon's national security team actively fostered the U.S. rapprochement with China Tudda argues that Nixon, in bold opposition to the stance of his predecessors, recognized the mutual benefits of repairing the Sino-U.S. relationship and was determined to establish a partnership with China Nixon believed that America's relative economic decline, its overextension abroad, and its desire to create a more realistic international framework aligned with China's fear of Soviet military advancement and its eagerness to join the international marketplace In a contested but calculated move, Nixon gradually eased trade and travel restrictions to China Mao responded in kind, albeit slowly, by releasing prisoners, inviting the U.S. ping pong team to Beijing, and secretly hosting Secretary of State

Henry Kissinger prior to Nixon's momentous visit. Set in the larger framework of international relations at the peak of the Vietnam War, *A Cold War Turning Point* is the first book to use the Nixon tapes and Kissinger telephone conversations to illustrate the complexity of early Sino-U.S. relations. Tudta's thorough and illuminating research provides a multi-archival examination of this critical moment in twentieth-century international relations. [A Companion to Richard M. Nixon](#) Melvin Small, 2013-05-03 This companion offers an overview of Richard M. Nixon's life, presidency and legacy as well as a detailed look at the evolution and current state of Nixon scholarship. Covers the full range of topics from his campaigns for Congress to his career as Vice President to his presidency and Watergate. [The United States and China](#) Dong Wang, 2021-07-28 Now fully revised and updated, *The United States and China* offers a comprehensive synthesis of US-Chinese relations from initial contact to the present. Balancing the modern 1784-1949 and contemporary 1949-present periods, Dong Wang retraces centuries of interaction between two of the world's great powers from the perspective of both sides. She examines state-to-state diplomacy as well as economic, social, military, religious and cultural interplay within varying national and international contexts. As China itself continues to grow in global importance, so too does the US-Chinese relationship, and this book provides an essential grounding for understanding its past, present and possible futures. *The China Threat* Nancy Bernkopf Tucker, 2014-03-04 Nancy Bernkopf Tucker confronts the coldest period of the cold war, the moment in which personality, American political culture, public opinion and high politics came together to define the Eisenhower Administration's policy toward China. A sophisticated multidimensional account based on prodigious cutting-edge research, this volume convincingly portrays Eisenhower's private belief that close relations between the United States and the People's Republic of China were inevitable and that careful consideration of the PRC should constitute a critical part of American diplomacy. Tucker provocatively argues that the Eisenhower Administration's hostile rhetoric and tough actions toward China obscure the president's actual views. Behind the scenes, Eisenhower and his Secretary of State John Foster Dulles pursued a more nuanced approach, one better suited to China's specific challenges and the stabilization of the global community. Tucker deftly explores the contradictions between Eisenhower and his advisors, public and private positions. Her most powerful chapter centers on Eisenhower's recognition that rigid trade prohibitions would undermine the global postwar economic recovery and push China into a closer relationship with the Soviet Union. Ultimately, Tucker finds Eisenhower's strategic thinking on Europe and his fear of toxic anticommunist domestic politics constrained his leadership, making a fundamental shift in U.S. policy toward China difficult, if not impossible. Consequently, the president was unable to engage Congress and the public effectively on China, ultimately failing to realize his own high standards as a leader. *The People's Republic of China at 60* William C. Kirby, 2020-10-26 In 2009 the Fairbank Center for

Chinese Studies convened a major conference to discuss the health and longevity of China's ruling system and to consider a fundamental question. After three decades of internal strife and turmoil followed by an era of reform, entrepreneurialism and internationalization is the PRC here for the dynastic long haul. Bringing together scholars and students of China from around the world, the gathering witnessed an energetic exchange of views on four interrelated themes: politics, social transformations, wealth and well-being, and culture, belief and practice. Edited and expanded from the original conference papers, the wide-ranging essays in this bilingual volume remain true to the conference's aim to promote open discussion of the past, present and future of the People's Republic of China.

Secrecy in US Foreign Policy Yukinori Komine, 2008. *Secrecy in US Foreign Policy* examines the pursuit of strict secrecy by President Nixon and his National Security Advisor Kissinger in foreign policy decision making in relation to the US rapprochement with China. Newly declassified materials help to identify key questions and highlight the dynamics of events.

Isolating the Enemy Tao Wang, 2021-08-03. In the crucial moment after the Korean War, the United States and the People's Republic of China circled each other warily. They shifted between confrontation and conciliation, ratcheting up tension yet also embarking on peace initiatives. Tao Wang offers a new account of Sino-American relations in the mid-1950s that situates the two great powers in their international context. He reveals how both the United States and China adopted a policy of attempting to isolate their adversary and explores how Chinese and American leaders perceived and reacted to each other's strategies. Although the policy of the Eisenhower administration was to contain China, Washington often overestimated Chinese aggressiveness, worrying allies and neutral states. Sensitive to the differences within the Western camp, Chinese leaders sought to convince American allies to persuade the United States to back down. Wang analyzes diplomatic maneuvering over a peace settlement in Indochina, an American defense pact with Taiwan, and the anticolonial Bandung Conference, showing how political pressure pushed American leaders to make concessions. He challenges the portrayal of Communist states as driven by ideology, showing that Chinese leaders adopted a pragmatic policy during these crucial years. Drawing on Chinese, Taiwanese, Russian, Vietnamese, British, and American archival material, including reclassified Chinese Foreign Ministry documents, *Isolating the Enemy* offers new insight into Chinese diplomacy in the 1950s and US foreign policy under the Eisenhower administration through a nuanced portrayal of Sino-American interactions.

Improbable Diplomats Pete Millwood, 2022-12-22. In 1971, Americans made two historic visits to China that would transform relations between the two countries. One was by US official Henry Kissinger; the other, earlier visit, was by the US table tennis team. Historians have mulled over the transcripts of Kissinger's negotiations with Chinese leaders. However, they have overlooked how, alongside these diplomatic talks, a rich program of travel and exchange had begun with ping pong diplomacy. *Improbable Diplomats* reveals how a diverse cast of Chinese and Americans—athletes and physicists, performing artists and seismologists—played a critical but to date overlooked role in remaking US-China relations. Based on new sources from more than a dozen archives in China and the United States, Pete Millwood argues that

the significance of cultural and scientific exchanges went beyond reacquainting the Chinese and American people after two decades of minimal contact exchanges also powerfully influenced Sino American diplomatic relations and helped transform post Mao China
