Single Sounds

Introduction

Read and Colour - Single Sounds has been designed to reinforce the recognition of the letters of the alphabet and the sounds they make.

Students are asked to recognise and write single sounds in their beginning, middle and final positions in words.

Recognition of single sounds sets the foundation for developing further reading skills.

The pictures below will help you with the correct sounds for each of the letters of the alphabet.

 apple	 ball	 cat	 dog	 egg	 fish	 goat
 hat	 igloo	 jug	 key	 leaf	 man	 net
 orange	 pot	 quilt	 ring	 sun	 top	 umbrella
	 van	 wall	 box	 yawn	 zebra	

Most letters can have more than one sound e.g. 'o' as in orange or 'o' as in oval. These pictures will help you with the correct sound for each letter of the alphabet.

Colour Louise Porich, Greg Porich, 2006-02 The Aesthetics of Music Roger Scruton, 1999 Now available in paperback this is perhaps the first comprehensive account of the nature and significance of music from the perspective of modern philosophy and the only treatment of the subject which is properly illustrated with music examples The book starts from the metaphysics of sound distinguishes sound from tone analyses rhythm melody and harmony and develops a novel account of music as the intentional object of an imaginative perception The argument explores the various dimensions of musical organization and musical meaning and shows exactly how and why music is an expressive medium The Aesthetics of Music explains and criticizes many fashionable theories in the philosophy and theory of music and mounts a case for the moral significance of music its place in our culture and the need for taste and discrimination in both performer and listener The various schools of musical analysis are subjected to a critical examination and recent criticism of tonality as the foundation of musical order are rehearsed and rejected Scruton defends the objectivity of aesthetic values lays down principles of criticism and ends with an energetic critique of modern popular music Reading and Its Difficulties M. D. Vernon, 2010-06-24

Originally published in 1971 this book constitutes a scientific enquiry into the basis of reading and dyslexia Professor Vernon considers visual perception reasoning motivation and outlines work in psycholinguistics in order to define the basic psychological processes involved in learning to read She also discusses the problem of specific developmental dyslexia and concludes that the basic deficiency may lie in the processes of conceptual reasoning between the sequence of printed and sounded letters A fundamental disfunction of the brain is also seen as a possibility She stresses the importance of early recognition and remedial treatment of reading difficulties since these may be alleviated if not entirely overcome by suitable treatment Reading with Words in Colour Caleb Gattegno, 1969 The Dictionary of Every-Day Difficulties in Reading,
