Emerging Trends in Technological Innovation Luis M. Camarinha-Matos,Pedro Pereira,Luis Ribeiro,2010-02-09 Identifying Emerging Trends in Technological Innovation Doctoral programs in science and engineering are important sources of innovative ideas and techniques that might lead to new products and technological innovation Certainly most PhD students are not experienced researchers and are in the process of learning how to do research Nevertheless a number of empiric studies also show that a high number of technological innovation ideas are produced in the early careers of researchers The combination of the eagerness to try new approaches and directions of young doctoral students with the

experience and broad knowledge of their supervisors is likely to result in an important pool of innovation potential The DoCEIS doctoral conference on Computing Electrical and Industrial Engineering aims at creating a space for sharing and discussing ideas and results from doctoral research in these inter related areas of engineering Innovative ideas and hypotheses can be better enhanced when presented and discussed in an encouraging and open environment DoCEIS aims to provide such an environment releasing PhD students from the pressure of presenting their propositions in more formal contexts
