Candace R. Kuby, Tara Gutshall Rucker, 2016-04-15 This book provides an introduction to poststructural and posthumanist theories in order to imagine new possibilities for expanding literacy education The authors put to work these theories in the context of an elementary school classroom examining literacy based activities that occur as students participate with materials in a multimedia writers studio

Focusing on literacy processes the book emphasizes the fluid and sometimes unintentional ways multimodal artifacts come into being through intra actions with human and nonhuman materials Because these theories emphasize the unplanned nonlinear aspects of literacy the authors demonstrate an approach to literacy that works against the grain of standardization and rigid curricular models Go Be a Writer reveals that when educators appreciate the value of unscripted intra actions they allow for more authentic learning Research in Education ,1973 **The Mentor-world Traveler** ,1927 *Normal Instructor and Teachers World* ,1924 *Reading, Writing, and Talk* Mariana Souto-Manning, Jessica Martell, 2016-05-14 This book invites readers to consider ways in which their language and literacy teaching practices can better value and build upon the brilliance of every child In doing so it highlights the ways in which teachers and students build on diversities as strengths to create more inclusive and responsive classrooms After inviting readers to consider and better understand the diverse language and literacy practices of diverse children it offers invitations for teachers to make these practices foundational in their own classrooms and to consider meaningful possibilities for learning authentically with young children in primary grades It features chapters that focus on oral language reading and writing development all while recognizing that these are not separate In each of these chapters readers are invited to consider diverse possibilities perspectives and points of view in practice within primary grades classrooms Throughout it offers ways to foster classroom learning communities where racially culturally and linguistically diverse children are supported and valued *How Societies Work, 5th Edition* Joanne Naiman, 2020-04-28T00:00:00Z In 2011 protesters around the world including Canada called for changes to the societies in which they live Many observers were asking What do they want Some answers to this question can be found in *How Societies Work* a unique and accessible introductory sociology textbook that introduces students to the structure of contemporary societies and the power relationships within them In contrast to most introductory textbooks *How Societies Work* explores a broad range of sociological concepts and theories while simultaneously creating a coherent picture of modern societies Drawing on fields as diverse as anthropology genetics economics social psychology history and politics this innovative and popular text looks at both the roots of modern societies and the current structures within them This approach helps undergraduate students make sense of our complex social world and encourages them to connect the social world to their own lived experiences This extensively revised and updated fifth edition includes discussions of the roots of the recent global economic crisis and worldwide responses to it growing social inequality broader global struggles for change the growth of the security state in Canada and the sudden resurgence of political protest in North America The final chapter looks to the future examining such issues as the possible consequences of climate change increased forced migration of peoples and the changing dynamic of global power More boxes quotes and think about it elements have been added to the fifth edition while the language clarity of presentation and many examples make it even more accessible to readers It is an introductory textbook that truly engages students in the sociological imagination This fifth edition is presented in a large format making it

easier to read and even more student friendly A testbank and power point presentation are available for instructors upon request

Writing and Teaching to Change the World Stephanie Jones, 2014-03-29 The story begins when some committed and curious teachers from the Red Clay Writing Project gathered into a teacher inquiry community to spend a year focusing on and documenting their experiences with one of their most disenfranchised students By analyzing and rethinking what they do in the classroom and why they do it the authors come to re imagine who they are as teachers and as human beings These honest and compelling stories about connecting with one student uncover valuable insights for becoming more responsive to all students The book introduces the Oral Inquiry Process and examines its role in fostering critical awareness among educators Perfect for use in teacher preparation courses and professional learning groups the text includes prompts at the end of each chapter to support teacher writer groups along with a suggested writing exercise
