Flippo revisits her groundbreaking *Expert Study* in which she set out to find common ground among experts in the much fragmented field of reading research. Taking a fresh look at it and its current implications for literacy education and common ground in light of the newest thinking and research of today, the Second Edition includes four new chapters from leaders in the field who discuss the *Study* from their unique vantage points: literacy trends, emergent writing development, a comprehensive literacy curriculum, and a comparative analysis of the *Study*'s findings and recommendations.
