Reading America Denis Donoghue, 1988-01-01 Here is a selection by the distinguished critic of his essays and commentaries on American writing and writers from Emerson and Whitman through Auden and Ashbery Denis Donoghue examines the canon in the light of what he takes to be the central dynamic of the American enterprise the imperatives of a powerful national past versus the subversions of an irrevocably anarchic spirit *The Islamic Lineage of American Literary Culture* Jeffrey Einboden, 2016-08-02 Uncovering Islam's little known yet formative impact on U S literary culture this book traces genealogies of Islamic influence that span America's earliest generations reaching from the Revolution to Reconstruction Excavating personal appeals to Islam by pioneering national authors Ezra Stiles William Bentley Washington Irving Lydia Maria Child Ralph Waldo Emerson Einboden discovers Muslim discourse woven into the familiar fabric of unpublished letters and sermons journals and journalism memoirs and marginalia The first to unearth multiple manuscripts exhibiting American investment in Middle Eastern languages and literatures Einboden argues that Islamic precedents helped to prompt and propel creativity in the young Republic acting as vehicles of artistic reflection religious contemplation and political liberation Intersecting informal engagements and intimate exchanges Islamic sources are situated in this timely study as catalysts for American authorship and identity with U S writers mirroring the defining struggles of their country's first decades through domestic investment in the Qur'an Hadith and Persian Sufi poetry *The American Classics* Denis Donoghue, 2008-10-01 How is a classic book to be defined How much time must elapse before a work may be judged a classic And among all the works of American literature which deserve the designation In this provocative new book Denis Donoghue essays to answer these questions He presents his own short list of relative classics works whose appeal may not be universal but which nonetheless have occupied an important place in our culture for more than a century These books have survived the abuses of time neglect contempt indifference willful readings excesses of praise and hyperbole Donoghue bestows the term classic on just five American works Melville's *Moby Dick* Hawthorne's *The Scarlet Letter* Thoreau's *Walden* Whitman's *Leaves of Grass* and Twain's *Adventures of Huckleberry Finn* Examining each in a separate chapter he discusses how the writings have been received and interpreted and he offers his own contemporary readings suggesting for example that in the post 9/11 era *Moby Dick* may be rewardingly read as a revenge tragedy Donoghue extends an irresistible invitation to open the pages of these American classics again demonstrating with wit and acuity how very much they have to say to us now

American Literature and the Culture of Reprinting, 1834-1853 Meredith L. McGill, 2013-10-11 The antebellum period has long been identified with the belated emergence of a truly national literature And yet as Meredith L McGill argues a mass market for books in this period was built and sustained through what we would call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign works Restoring a political dimension to accounts of the economic grounds of antebellum literature McGill unfolds the legal arguments and political struggles that produced an American culture of reprinting and held it in place for two crucial decades In this culture of reprinting the circulation of print outstripped authorial and editorial control McGill examines the workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally divided and transatlantic literary marketplace Through readings of the work of Dickens Poe and Hawthorne McGill seeks both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as literary markets became centralized and literary culture became stratified in the early 1850s *American Literature and the Culture of Reprinting 1834-1853* delineates a distinctive literary culture that was regional in articulation and transnational in scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with the extension of authors rights
