Fun Learning Activities for Modern Foreign Languages Jake Hunton, 2014-03-26 Students learning modern foreign languages often comment that it is just too hard to learn and remember all of vocabulary presented to them. Yes, there is a lot of content that needs to be covered and a lot of vocabulary that needs to be learned. But there is a way of making this process engaging and motivating. Language lessons needn't be full of grammar worksheets, endless drilling, and rote learning lists of vocabulary. Learning languages isn't always fun, and games. But these aren't games; they are fun learning activities. And they can help revolutionise language teaching, enabling teachers to authoritatively impart knowledge while fostering a thirst for knowledge and love of learning in their students. First, the Vocab Fun Learning Activities (VFLAs) learn the vocabulary in ways which will improve recognition and recall. Then the Fun Learning Activities use this vocabulary knowledge to build sentences and paragraphs, explore and use this language while keeping the whole class engaged and actively learning. The activities are designed to encourage all students to participate and learn more through enjoyment. Based on the author's extensive classroom experience and underpinned by research into how students learn best, each activity comes complete with a detailed explanation and plenty of ideas for variations, differentiations, and extensions. The activities come with example vocabulary lists in French, German, and Spanish as a starting point, which are all available for download via a link provided in the book. However, the activities will work effectively in any language and with any vocabulary list of the teacher's choosing and can be adapted to suit every topic, learning objective, and age range. Discover ready-to-use activities which will make for outstanding lessons in every class and ensure engagement, motivation, rapport, progress, and attainment over time.
