Reading Alive:

Reading J. Z. Smith Willi Braun, Russell T. McCutcheon, 2018-06-28 Over the course of a career of more than forty years Jonathan Z Smith was among the most important voices of critical reflection within the academic study of religion distinguishing himself as perhaps the most influential theorist of religion of the last half century Among his significant body of work are essays and lectures on teaching and the essential role of academic scholarship on religion in matters of education and public policy The interviews and essay published here display something of the dynamic thinking on his feet liveliness that Smith brought to questions about the study of religion his theoretical preferences and his methods of teaching With refreshing candidness and clarity Reading J Z Smith offers an often provocative introduction to discussions on issues that still dominate the complex and continually changing critical conversations in the academic study of religion *Books*

Promiscuously Read Heather Cass White, 2021-07-06 The critic and scholar Heather Cass White offers an exploration of the nature of reading Heather Cass White s *Books Promiscuously Read* is about the pleasures of reading and its power in shaping our internal lives It advocates for a life of constant disorderly time consuming reading and encourages readers to trust in the value of the exhilaration and fascination such reading entails Rather than arguing for the moral value of reading or the preeminence of literature as an aesthetic form *Books Promiscuously Read* illustrates the irreplaceable experience of the self that reading provides for those inclined to do it Through three sections Play Transgression and Insight which focus on three ways of thinking about reading *Books Promiscuously Read* moves among and considers many poems novels stories and works of nonfiction The prose is shot through with quotations reflecting the way readers think through the words of others *Books Promiscuously Read* is a tribute to the whole lives readers live in their books and aims to recommit people to those lives As White writes What matters is staying attuned to an ordinary unflashy mutely persistent miracle that all the books to be read and all the selves to be because we have read them are still there still waiting still undiminished in their power It is an astonishing joy

Protocols of Reading Robert Scholes, 1989-01-01 Discussing a wide range of literary theory in a clear and accessible way prize winning author Robert Scholes here continues his ongoing construction of a humane semiotic approach to the problems of reading writing and teaching Taking the view that all the world s a text Scholes considers numerous texts from life and literature including photographs paintings and television commercials as well as biographies and novels A significant and thoughtful effort to think about the responsibilities of reading in the wake of deconstruction *Choice* *Protocols of Reading* is a personal avuncular book attractive in its common sense and brevity Wendy Steiner *Times Literary Supplement* A complex argument developed in delightful plain English *Protocols of Reading* sees both textual fundamentalism and deconstructive debunking as needful opposites in an oscillation that Scholes labels nihilistic hermeneutics Fine tuning this oscillation is what the humanistic enterprise is all about he suggests it is our key to the true connection between reading and ethics Richard A Lanham University of California Los Angeles Robert Scholes Andrew W

Mellon Professor of Humanities at Brown University is also the author of *Textual Power Literary Theory and the Teaching of English Semiotics and Interpretation and Structuralism in Literature An Introduction* **Reading Minds** Henry M. Wellman, 2019-12-03 The need to understand human social life is basic to our human nature and fuels a life long quest that we begin in early childhood Key to this quest is trying to fathom our inner mental states our hopes plans wants thoughts and emotions Scientists deem this developing a theory of mind In *Reading Minds* Henry Wellman tells the story of our journey into that understanding Our hard won everyday comprehension of people and minds is not spoon fed or taught Each of us creates a wide ranging theory of mind step by step and uses it to understand how all people work Failure to learn these steps cripples a child and ultimately an adult in areas as diverse as interacting socially creating a coherent life story enjoying drama and movies and living on one's own Progressing along these steps as most of us do allows us to see the nature of our shared humanity to understand our children and our childhood selves to teach and to learn from others and to better navigate and make sense of our social world Theory of mind is basic to why some of us become religious believers and others atheists why some of us become novelists and all of us love stories why some love scary movies and some hate them *Reading Minds* illuminates how we develop this theory of mind as children how that defines us as individuals and ultimately how it defines us as human *Versions of Antihumanism* Stanley Fish, 2012-04-19 Stanley Fish one of the foremost critics of literature working today has spent much of his career writing and thinking about Milton This book brings together his finest published work with brand new material on Milton and on other authors and topics in early modern literature In his analyses of Renaissance texts he meditates on the interpretive problems that confront readers and offers a sustained critique of historicist methods of interpretation Intention he argues is key to understanding which pieces of historical data are relevant to literary criticism Lucid provocative direct and inimitable this new book from Stanley Fish is required reading for anyone teaching or studying Milton and early modern literary studies *Reading Hegel* Robert Lucas Scott, 2025-03-14 Retrieves Hegelian speculative experience for literary theory The relationship between Hegel and literary theory has for a long time been both contested and paradoxical On the one hand theory is often skeptical of all that Hegel ostensibly stood for idealism systematicity and identity at the expense of difference Yet in spite of itself literary theory is taken to owe a profound debt to Hegel's philosophy Robert Lucas Scott's book complicates this account and argues that literary theory has made the mistake of abstracting Hegel's thought from its more dynamic presentation in Hegel's writings reducing Hegel to a series of propositions or positions Literary theory Scott argues misses what is perhaps the greatest innovation of Hegel's philosophy a presentation of experience that begins precisely by setting aside all preconceptions or prior assumptions It is on this point that Hegel's philosophy itself approaches literature its content cannot be simply abstracted from the singular experience of reading it Only through a mode of reading alive to speculative experience can literary theory become truly Hegelian Scott's exposition of Hegel offers a model of reading with relevance beyond philosophy one that is critical without pretensions of

mastery and detachment and that honors the singularity of the reading experience without succumbing to the subjectivism of the postcritical. The book also includes engagements with the work of Luther Kant Marx Gillian Rose Fredric Jameson Robert Brandom Catherine Malabou and more in its recovery of Hegel's thought for a critical understanding of our time. **Putting**

Social Justice and Equity at the Heart of Reading for Pleasure Jane Carter, 2025-03-31 This essential book discusses what reading for pleasure is and what it is not introducing some fundamental ideas about how we learn to read and how this process can impact a child's identity as a reader in classrooms that promote equality inclusion and diversity. The profile and importance of Reading for Pleasure has grown significantly over the last few years and is now firmly embedded in both government policy and the Ofsted framework. Developing a Reading for Pleasure school that is truly inclusive of the whole school community however can require a culture shift in relation to the teaching of reading representation in the reading environment and the knowledge and attitudes of the school community. This book seeks to use the current research teacher case studies and the voices of children to address some of the issues that teachers and pre-service teachers encounter when trying to develop an inclusive Reading for Pleasure culture within their schools. Each chapter is co-authored by teachers and researchers and includes case studies and children's perspectives. It provides practical and evidence-based advice lesson ideas and creative ideas to both support and challenge all school leaders staff and student teachers in their journey to create readers rather than children that can just read. **Reading with a Passion** Jeffrey Staley, 2002-06-01 In this strikingly

personal account of recent literary approaches to the Bible Jeffrey Staley shows how people's life experiences relate to what they read in the Scriptures. He illustrates his argument from theories of autobiography where recent literary and feminist critiques provide him with tools for reflecting upon his childhood on a Navajo reservation and his family's five generations of contact with the Navajo people in northern Arizona and New Mexico. Using Tony Hillerman's popular detective novels as a lens to refract his own childhood memories Staley investigates how his cross-cultural childhood and family history have contributed to his understanding of the Fourth Gospel. By combining such diverse materials as popular fiction medieval passion plays cultural anthropology rhetorical studies and autobiographical reflection Staley takes his readers on a fascinating spiritual and intellectual journey through the Gospel of John. **Dostoevsky's Unfinished Journey** Robin Feuer

Miller, Professor Robin Feuer Miller, 2007-01-01 How does Dostoevsky's fiction illuminate questions that are important to us today? What does the author have to say about memory and invention the nature of evidence and why we read? How did his readings of such writers as Rousseau Maturin and Dickens filter into his own novelistic consciousness? And what happens to a novel like Crime and Punishment when it is the subject of a classroom discussion or a conversation? In this original and wide-ranging book Dostoevsky scholar Robin Feuer Miller approaches the author's major works from a variety of angles and offers a new set of keys to understanding Dostoevsky's world. Taking Dostoevsky's own conversion as her point of departure Miller explores themes of conversion and healing in his fiction where spiritual and artistic transfigurations abound. She also

addresses questions of literary influence intertextuality and the potency of what the author termed ideas in the air For readers new to Dostoevsky s writings as well as those deeply familiar with them Miller offers lucid insights into his works and into their continuing power to engage readers in our own times **Translations from Hung-ch'i (Red Flag)** United States.
