Reading Castaneda:

Reading Castaneda (Routledge Revivals) David Silverman, 2019-10-25 Carlos Castaneda's accounts of his meeting with the Yaqui Indian magician Don Juan are well known to sociologists both in Britain and in America. Using material largely from Castaneda's *The Teachings of Don Juan*, David Silverman here seeks to introduce the student of Sociology to some of the central epistemological concerns of social science. First published in 1975, the title assumes no previous knowledge of Castaneda but instead uses his work as a springboard to wider issues in particular making sense of our reality and understanding each other by using language and communication. This is an interesting reissue which will be of particular value to students of the sociology of language and communication as well as Communication Studies more generally.

Reading Castaneda (Routledge Revivals) David Silverman, 2013-12-02 Carlos Castaneda's accounts of his meeting with the Yaqui Indian magician Don Juan are well known to sociologists both in Britain and in America. First published in 1975, the title assumes no previous knowledge of Castaneda but instead uses his work as a springboard to wider issues. **Castañeda and his Guises** Adriano Palma, 2014-08-25 This volume responds to and reassesses the work of Hector Neri Castañeda 1924-1991. The essays collected here, written by his students, followers and opponents, examine Castañeda's seminal views on deontic logic, metaethics, indelicacy, praxiology, fictions and metaphysics, utilizing the critical viewpoint afforded by time as well as new data to offer insights on his theories and methodology. *The Ethnopoetics of Shamanism* M. Santos, 2016-04-30 Over the last century, Western portrayals of shamanism have changed radically toward an ethnopoetics of shamanism. While shamanic practices had long been indirectly registered by Westerners, it is only since the late nineteenth century that they have taken on symbolic import within discourses of primitivism and debates over magic and rationality. **The Metaphysics of Relations** Anna Marmodoro, David Yates, 2016-01-07 This volume presents thirteen original essays which explore both traditional and contemporary aspects of the metaphysics of relations. It is uncontroversial that there are true relational predications: Abelard loves Eloise, Simmias is taller than Socrates, smoking causes cancer, and so forth. More controversial is whether any true relational predications have irreducibly relational truthmakers. Do any of the statements above involve their subjects jointly instantiating polyadic properties, or can we explain their truths solely in terms of monadic, non-relational properties of the relata? According to a tradition dating back to Plato and Aristotle and continued by medieval philosophers, polyadic properties are metaphysically dubious. In non-symmetric relations such as the amatory relation, a property would have to inhere in two things at once: lover and beloved, but characterise each differently, and this puzzled the ancients. More recent work on non-symmetric relations highlights difficulties with their directionality. Such problems offer clear motivation for attempting to reduce relations to monadic properties. By contrast, ontic structural realists hold that the nature of physical reality is exhausted by the relational structure expressed in the equations of fundamental physics. On this view, there must be some irreducible relations for its fundamental ontology is purely relational. *The Metaphysics of Relations* draws together the

work of a team of leading metaphysicians to address topics as diverse as ancient and medieval reasons for scepticism about polyadic properties recent attempts to reduce causal and spatiotemporal relations recent work on the directionality of relational properties powers ontologies and their associated problems whether the most promising interpretations of quantum mechanics posit a fundamentally relational world and whether the very idea of such a world is coherent From those who question whether there are relational properties at all to those who hold they are a fundamental part of reality this book covers a broad spectrum of positions on the nature and ontological status of relations from antiquity to the present day

Nelson,1924 **The Invented Indian** James A. Clifton,2017-09-04 This is an explosive collection of essays written by leading scholars of North American Indians most of them heavily involved in service and applied work often on behalf of Indian clients communities and organizations In an area saturated with deadening consciously politicized orthodoxy these

seventeen essays aim at nothing less than the reconstruction of our understanding of the American Indian past and present. The volume examines in careful accurate but uncompromising ways the recent construction of the prevailing conventional story line about America's most favored underclass. The first eight essays introduce the volume and treat a variety of specific invented traditions concerning Indians. These are followed by four essays on broader thematic issues related to the demographic religious cultural and kinship elements in Indian studies. The final five chapters express a comparative perspective from Anglo and French Canada, Europe from inside the Bureau of Indian Affairs and from a legal position. *The Invented Indian* explores how cultural fictions promote divisiveness and translate into policy. Throughout the volume reveals a deep and abiding respect for Indians, their histories and their cultures, saving its critiques for jaundiced academics and callow politicians. Representing years of cooperative effort, this work brings together a group providing breadth and balance. Far more than a critical collection, it is a constructive effort to make sense of a field displaying empirical confusions and moral muddles. The volume will be of interest to anthropologists, professionals in Indian studies and policymakers.

The POWER to STOP Karen Bentley, 2012-06-01. The Power to Stop is a 30 day do it yourself spiritual training program that stops bad habits, undoes out of control behaviors and ends substances abuse problems. It's revolutionary because it uses an ordinary unwanted behavior as an essential tool for developing self love, personal power and moments of enlightenment. The secret of success is the experience of self love which is learned through four easy and practical stopping skills. There's a skill for the mind, a skill for the spirit, a skill for the heart and a skill for the body. Each skill by itself is powerful and produces a calming result; however, when all four skills are practiced in a disciplined way, the intention to stop is amplified and leads to a full life expression of stopping. In addition to teaching the essential life skill called stopping, *The Power to Stop* accelerates personal growth, restores connection with God and renews deep rich meaning in life. Take the happy leap from wasting your life to saving it with love. Karen Bentley is the author of 17 books, an educator and media personality. She's an expert in using the power of love to solve problems, especially stopping problems. As the creator of The Sugar Free Miracle Diet System, Bentley developed a weight loss program that also stops out of control eating. Over 3,000 people have been helped by her life-changing program. Bentley is also the producer and host of *Stopping Nation*, a national directory and focal point for spiritual, religious, holistic and alternative stopping resources. *The Power to Stop* is within you. Embrace it and it will embrace you. Revs Debora and Paul Phelps, Miracles One Foundation Church: You don't think you have the power to stop. Stop that thinking. Fantasies of the Master Race Ward Churchill, 1998 Chosen an Outstanding Book on the Subject of Human Rights in the United States by the Gustavus Myers Center for the Study of Human Rights In this volume of incisive essays Ward Churchill looks at representations of American Indians in literature and film delineating a history of cultural propaganda that has served to support the continued colonization of Native America During each phase of the genocide of American Indians the media has played a critical role in creating easily digestible stereotypes of Indians for popular consumption Literature about Indians was first written and published in order to provoke and sanctify warfare against them Later the focus changed to enlisting public support for civilizing the savages stripping them of their culture and assimilating them into the dominant society Now in the final stages of cultural genocide it is the appropriation and stereotyping of Native culture that establishes control over knowledge and truth The primary means by which this is accomplished is through the powerful publishing and film industries Whether they are the tragically doomed noble savages walking into the sunset of Dances With Wolves or Carlos Castaneda's Don Juan the exotic mythical Indians constitute no threat to the established order Literature and art crafted by the dominant culture are an insidious political force disinforming people who might otherwise develop a clearer understanding of indigenous struggles for justice and freedom This book is offered to counter that deception and to move people to take action on issues confronting American Indians today
