Comprehension Through Conversation Maria Nichols, 2006 Maria Nichols offers not possible lessons but full descriptions of actual lessons Here you ll find no ivory tower examples of what might be but examples of what is already available in many classrooms These are classrooms of the sort that we hope our children and grandchildren are lucky enough to encounter not once in a while but routinely Richard L Allington To say this is an exceptional book about teaching comprehension would be to trivialize it With superb examples and flawless logic Nichols demonstrates how to orchestrate conversations that build literate habits of mind Peter H Johnston author of *Choice Words* *Comprehension Through Conversation* captures the power and essence of purposeful engaging instruction and reminds us of the real purpose for comprehension instruction to understand the deeper issues in texts and discuss these ideas to construct meaning Nancy L Akhavan author of *How to Align Literacy Instruction and Standards* When it comes to reading comprehension talk isn t cheap it s a valuable way to help children think articulate their opinions about a text and get the most from their reading experiences *Comprehension Through Conversation* is a practical guide to comprehension conversation and collaboration Maria Nichols invites you to listen in on reading workshops where purposeful book talk leads students to deeper understandings of fiction nonfiction and the world beyond Moving forward from the widely understood concept that exchanging ideas builds students comprehension Nichols shows you specific ways to use conversation as a scaffolding that bridges prior knowledge to more advanced reading skills and techniques as well as to big ideas such as themes Her useful ideas for conversations begin with lesson designs that use read alouds to spark discussions lead to suggestions for units of study that support children as they read progressively more complex texts and ultimately build toward fully independent reading and thinking Start a new dialogue with your students about reading thinking and sharing Open your curriculum to the types of smart book discussions in *Comprehension Through Conversation* You ll discover that when it comes to increasing reading comprehension encouraging critical thinking and creating literate habits of mind purposeful talk is priceless
