Curriculum Development in the Postmodern Era Patrick Slattery, 2012-12-06 First Published in 2006 Routledge is an imprint of Taylor Francis an informa company *Curriculum and Teaching Dialogue* Barbara Slater Stern, 2008-10-01 Curriculum and Teaching Dialogue is the journal of the American Association of Teaching and Curriculum AATC An important historical event in the development of organizations dealing with the scholarly field of teaching and curriculum was the founding of the AATC on October 1 1993 The members of the AATC believed that the time was long overdue to recognize teaching and curriculum as a basic field of scholarly study to constitute a national learned society for the scholarly field of teaching and curriculum teaching is the more inclusive concept curriculum is an integral part of teaching the what to teach aspect Since that AATC has produced scholarship in teaching and curriculum and serve the general public through its conferences journals and the interaction of its members The purpose of the organization as originally defined in Article 1 Section 2 of the AATC Constitution To promote the scholarly study of teaching and curriculum all analytical and interpretive approaches that are appropriate for the scholarly study of teaching and curriculum shall be encouraged Curriculum and Teaching Dialogue seeks to fulfill that mission **Practicing Critical Pedagogy** Mary Frances Agnello, William Martin Reynolds, 2015-12-22 This edited text recaptures many of Joe L Kincheloe's national and international influences An advocate and a scholar in the social historical and philosophical foundations of education he dedicated his professional life to his vision of critical pedagogy The authors in this volume found mentorship as well as kinship in Joe and express the many ways in which he and his work made profound differences in their work and lives Joe's research always pushed the limits of what critically reflective and informed teaching entailed never diluting the import of comprehending the complexity of sociopolitical cultural economic and educational discourses and practices Dedicated to a praxis of social and political activism rooted in students development as citizens and workers the labor of teachers as action researchers cultural workers and social mediators is always at the heart of all he achieved We who were so influenced directly and indirectly by him knew his genius and relished the generosity with which he shared his ideas advice encouragement and art The world is better because of Joe L Kincheloe scholarship inextricably related to critical critical thinking and enactment of education that tenaciously interrupts complacency mediocrity always responding thoughtfully to particular educational contexts Reading Curriculum Theory William M. Reynolds, 1989 Reading Curriculum Theory The Development of a New Hermeneutic is a study of curriculum theory texts of the 1980s Focusing on three divisions within the theoretical traditions of the field the conservative the reconceptualist and the reproductionist the book provides a hermeneutic reading of specific texts within each tradition The book relies heavily upon the interpretation theory of Paul Ricoeur and discusses Ricoeur's theoretical works The book reveals and demonstrates that the ultimate aim of interpretive reading or the hermeneutic process is enhanced self understanding International Handbook of Curriculum Research William F. Pinar, 2003-04-01 The

International Handbook of Curriculum Research is the first collection of reports on scholarly developments and school curriculum initiatives worldwide Thirty four essays on 28 nations framed by four introductory chapters provide a panoramic

Intellectual Advancement Through Disciplinarity William F. Pinar, 2019-02-18 Skepticism toward disciplinarity William F Pinar points out is etched deeply in the U S field drawn by progressive education s efforts to reconfigure the school curriculum as child centered and or as focused on social reconstruction Skepticism toward disciplinarity had also been affirmed by Bobbitt and Charters positioning of adult activity as the organizer of the school curriculum Add to these historical dispositions the contemporary legitimation crisis of the academic disciplines and the rage for interdisciplinary trans disciplinary post disciplinary anything but disciplinary research and curriculum becomes intelligible The intellectual labor of understanding constitutes the discipline of disciplinarity Through the discipline of disciplinarity one contributes to the field s intellectual advancement and to one s own Appreciating the centrality of disciplinarity to intellectual advancement requires us Pinar argues to replace Schwab s syntactical and substantive structures of the disciplines Focused on methodology and the concepts research methodology generates Schwab s schema was more appropriate to the natural and social behavioral sciences than it is to the humanities and the arts Pinar replaces these with two structures more appropriate to a discipline associated with the humanities and the arts and focused on the education of the public horizontality and verticality Explicating Spivak s notion of planetarity to specify the structures of subjectivity these structures of disciplinarity invite Pinar illustrates these concepts through introductions to the scholarship of Ted Aoki Tom Barone Mary Aswell Doll Maxine Greene James Henderson Dwayne Huebner Rita Irwin David Jardine Kathleen Kesson James B Macdonald Janet Miller Marla Morris Alice Pitt William Reynolds John Weaver among others Of significance to all specializations in the broad and fragmented academic field of education Intellectual Advancement through Disciplinarity provides the intellectual tools by means of which education scholars worldwide can participate in the complicated conversation that is internationalization in order to contribute to the intellectual sophistication of their nationally distinctive fields American Doctoral Dissertations

, 2002 **Education as Enforcement** Kenneth J. Saltman, David Gabbard, 2003 The first book to bring together noted scholars to address how education is being remade by the violent demands of corporate globalization as well as how education is central to the global pursuit of corporate dominance A Curriculum of Imagination in an Era of Standardization Robert Lake, 2013-03-01 A Curriculum of Imagination in an Era of Standardization In A Curriculum of Imagination in an Era of Standardization An Imaginative Dialogue with Maxine Greene and Paulo Freire a volume in Landscapes of Education Series Editors William H Schubert University of Illinois at Chicago Ming Fang He Georgia Southern University Robert Lake explores with the reader what is meant by imagination in the work of Maxine Greene and Paulo Freire and their relevance in an era of increasingly standardized and highly scripted practices in the field of education The author explores how imagination permeates every aspect of life with the intent to develop capacity with the readers to look

beyond the taken for granted to question the normal to develop various ways of knowing seeing feeling and to imagine and act upon possibilities for positive social and educational change The principal aspect of the work illustrated in this book that distinguishes it from other work is that an imaginary dialogue between Maxine Greene and Paulo Freire runs through the book using actual citations from their work Each chapter starts with such a dialogue interspersed with the works of others and the author's critical autobiographical reflections With a brief overview of the socio cultural evolution of imagination from pre literate times to the present the author explores some of the current iterations of imagination including the eugenics movement and dark imagination sensing gaps and creative critical imagination metaphors as the language of imagination and empathy as social imagination Reflecting upon emerging tensions challenges and possibilities curriculum workers face in such an era of standardization the author calls for a curriculum of imagination After providing a brief overview of the socio cultural evolution of imagination from pre literate times to the present the author looks at some of the current iterations of imagination including the eugenics movement and dark imagination sensing gaps and creative critical imagination metaphors as the language of the imagination and empathy as social imagination All of these ideas are then incorporated in a curriculum of imagination that is envisioned through Joseph Schwab's four commonplaces of curriculum followed by a discussion of emerging tensions issues and possibilities for praxis and scholarship in present and future inquiry
