Dowd, 2025-02-03 Early Modern Women's Writing and the Future of Literary History demonstrates that a full accounting of early modern women's literary and creative activities is necessary to the future of literary studies writ large Despite benefiting from a rich body of scholarship and diverse critical practices early modern women's writing is still treated as an optional or secondary component of Renaissance literary studies as a whole In this book Dodds and Dowd offer a state of the field assessment of the critical and theoretical debates that have resulted in this state of affairs in order to advance specific visions for the future Dodds and Dowd examine how perennial questions about authorship canon and literary value have historically influenced scholarship on early modern women's writing and its place within literary studies Early modern women's writing has been perceived as belated out of sync with dominant critical trends Dodds and Dowd show the belatedness of early modern women's writing to be a happy accident that positions women's writing as a resource for the renewal of literary history In both the classroom and in scholarship early modern women's writing shows the way forward for the field whether in the revitalization of formalist approaches to literature through an alliance with feminism or in the integration of newer critical methodologies such as premodern critical race studies This book demonstrates that a feminist literary history that places women's writing at its center is essential to the future of English Renaissance literary studies There is in other words no history of English Renaissance literature without women writers      **The Female as**

**Narrative Structure and Reader Formation in Lady Mary Wroth's Urania** Rahel Orgis,2016-12-01 Narrative Structure and Reader Formation in Lady Mary Wroth s Urania offers the first systematic formal and thematic analysis of Wroth s Urania in its historical context and explores the structural means by which Wroth fashions her readership The book thus has a dual focus at once on narrative art and reader formation It makes two original claims the first being that the Urania is not the unorganized accumulation of stories critics have tended to present it as but a work of sophisticated narrative structures i e a complex text in a positive sense These structures are revealed by means of a circumspect narratological analysis of the formal and thematic patterns that organise the Urania Such an analysis furthers our understanding of the reading strategies that Wroth encourages The second claim is then that through the careful structuring of her text Wroth seeks to create her own ideal readership More precisely the formal and thematic structures of the Urania engage with readers expectations inviting them to reflect on prominent thematic issues and respond to the text as what early modern prefaces term good readers Combining narratological methods with a generic perspective and taking into account the work of book historians on early modern reading practices this monograph provides a new approach to the Urania supplementing the typically gender or auto

biographically oriented interpretations of the romance Moreover it contributes to the study of early modern prose narrative and romance and exemplifies how historically contextualised narratological analysis may yield new insights and profit research on reading strategies The Intellectual Culture of Puritan Women, 1558-1680 J. Harris,E.

Scott-Baumann,2010-11-24 This collection of essays by leading scholars in the field reveals the major contribution of puritan women to the intellectual culture of the early modern period It demonstrates that women s roles within puritan and broader communities encompassed translating and disseminating key texts producing an impressive body of original writing *The Oxford Handbook of Literature and the English Revolution* Laura Lunger Knoppers,2012-11-29 This Handbook offers a comprehensive introduction and thirty seven new essays by an international team of literary critics and historians on the writings generated by the tumultuous events of mid seventeenth century England Unprecedented events civil war regicide the abolition of monarchy proscription of episcopacy constitutional experiment and finally the return of monarchy led to an unprecedented outpouring of texts including new and transformed literary genres and techniques The Handbook provides up to date scholarship on current issues as well as historical information textual analysis and bibliographical tools to help readers understand and appreciate the bold and indeed revolutionary character of writing in mid seventeenth century England The volume is innovative in its attention to the literary and aesthetic aspects of a wide range of political and religious writing as well as in its demonstration of how literary texts register the political pressures of their time Opening with essential contextual chapters on religion politics society and culture the largely chronological subsequent chapters analyse particular voices texts and genres as they respond to revolutionary events Attention is given to aesthetic qualities as well as to bold political and religious ideas in such writers as James Harrington Marchamont Nedham Thomas Hobbes Gerrard Winstanley John Lilburne and Abiezer Coppe At the same time the revolutionary political context sheds new light on such well known literary writers as John Milton Andrew Marvell Robert Herrick Henry Vaughan William Davenant John Dryden Lucy Hutchinson Margaret Cavendish and John Bunyan Overall the volume provides an indispensable guide to the innovative and exciting texts of the English Revolution and reevaluates its long term cultural impact
