Psychology, Development and Social Policy in India R. C. Tripathi, Yoganand Sinha, 2013-08-05 This book examines how and where psychology can engage itself in the framing of social policies for national as well as human development in India Although the role that psychological knowledge can play in informing social policy decisions has been discussed for a long time psychologists by and large have had little role in framing policy decisions related to such important domains as education health social justice and social inclusion Policy makers not only in India but more or less everywhere have focused on interventions at the macro level which has led them to ignore the root causes of the problems lying at the micro level However with the more humanistic approaches now being followed by economists and other social scientists the person in society is slowly taking centrestage Micro level variables like happiness the wellbeing of individuals and the social relationships within which people define themselves are becoming important Therefore this book discusses important

psychological issues related to human development particularly health and education social justice social integration environment and work organizations besides focusing on some general issues relating to the logic of making social policies It is a first ever attempt in India to inform policy makers about how micro variables can be a crucial factor to consider while framing social policies
