[Reading at University](#) Jamie Q Roberts, Caitlin Hamilton, 2020-02-22 This concise and practical text will equip students with the effective reading strategies they need when preparing for their university assessments It dispels assumptions often made about the nature of reading at university and provides an overview of the culture of academic reading note making and what markers expect This text provides support for reading structured around the process of crafting an assignment including

reading critically and developing an academic voice Writing for Biomedical Sciences Students Harry Witchel, 2020-02-14
This book will equip readers with all the skills needed to write convincing and polished assignments in biomedical sciences
The first part introduces the idea of writing for one's audience and enables readers to understand what's expected of them
from different types of assignment Part two provides detailed guidance on specific writing and presentation tasks with
individual chapters on essays lab reports reflective writing posters and presentations Parts three and four cover all of the key
skills needed for successful writing in the biomedical sciences and help students develop a critical eye when selecting and
researching information and create clear well structured assignments Chapters contain top tips examples and helpful
summaries of key points and three annotated sample assignments are provided in an appendix This is an essential companion
to any student studying biomedical science or related disciplines such as physiology biomedical engineering pharmacy
medicine and dentistry *Be Well, Learn Well* Gareth Hughes, 2020-08-29 Help your students take control of their university
experience one step at a time In *Be Well Learn Well* Gareth Hughes explores the different dimensions of student wellbeing
physical psychological social and academic and helps students understand the connection between their wellbeing and
academic performance *Be Well Learn Well* begins by considering the impact of factors such as diet exercise hydration sleep
and sunlight on learning before examining how deep learning can improve wellbeing Subsequent chapters help students
create meaningful connections with their studies build motivation and approach exams presentations and group projects with
confidence The final chapter challenges unhelpful narratives around career trajectories and helps students to take small
manageable steps towards their goals This inspirational guide by the lead author of the UK's University Mental Health
Charter will empower students of all disciplines to study more effectively feel calmer and take control of their time at
university *Reflective Writing for Nursing, Health and Social Work* Elizabeth Tanguay, Peter Hanratty, Ben
Martin, 2020-04-23 This book takes students step by step through the process of planning and writing a reflective essay
beginning with crucial guidance on planning and structure It introduces different reflective frameworks and shows readers
how to structure a piece of writing according to a particular framework Chapters contain a wealth of activities and exercises
which will help build students skills and confidence Suitable for students of all health related disciplines in which written
assignments requiring reflective practice are required **The Graduate Career Guidebook** Steve Rook, 2019-04-10
Written by experienced careers advisor Steve Rook the new edition of this indispensable guide will help readers to develop
the skills they need to land their dream job It breaks the career planning process down into manageable steps from
