## **Resettlement Of British Columbia:**

**The Resettlement of British Columbia** Cole Harris, 1997 In this beautifully crafted collection of essays Cole Harris reflect on the strategies of colonialism in British Columbia during the first 150 years after the arrival of European settlers The pervasive displacement of indigenous people by the newcomers the mechanisms by which it was accomplished and the resulting effects on the landscape social life and history of Canada s western most province are examined through the dual lenses of post colonial theory and empirical data By providing a compelling look at the colonial construction of the province the book revises existing perceptions of the history and geography of British Columbia

**Selling British Columbia** Michael Dawson, 2007-10-01 Selling British Columbia is an entertaining examination of the development of the tourist industry in British Columbia between 1890 and 1970 Michael Dawson argues that in order to understand the roots of the fully fledged consumer culture that emerged in Canada after the Second World War it is necessary to understand the connections between the 1930s 1940s and the postwar era Cultural producers such as tourism promoters and the state infrastructure played important roles in fostering consumer demand particularly during the Depression the Second World War and throughout the postwar era Dawson draws upon promotional pamphlets newspapers advertisements and films as well as archival sources regarding government civic and international tourism organizations Central to his book is an examination of the representation of popular imagery and of how aboriginal and British cultures were commodified and marketed to potential tourists He also looks at the gendered aspect of these promotional campaigns particularly during the 1940s and challenges earlier interpretations regarding the relationship between tourism and nature in Canada Historians have tended to focus on either the first wave of consumerism from the 1880s to the 1920s or else on the era of economic expansion that followed World War Two As Dawson shows the 1930 45 period in particular was an important and dynamic one in the creation of Canadian and British Columbian consumer culture Michael Dawson s highly readable and engaging account of the development of the British Columbia tourist industry will be welcomed by British Columbian and Canadian historians as well as other scholars of tourism and consumerism

**Becoming British Columbia** John Belshaw, 2009-07-01 Becoming British Columbia is the first comprehensive demographic history of British Columbia Investigating critical moments in the demographic record and linking demographic patterns to larger social and political questions it shows how biology politics and history conspired with sex death and migration to create a particular kind of society John Belshaw overturns the widespread tendency to associate population growth with progress He reveals that the province has a long tradition of thinking and acting vigorously in ways meant to control and shape biological communities of humans and suggests that imperialism race class and gender have historically situated population issues at the centre of public consciousness in British Columbia

Geography of British Columbia, Third Edition Brett McGillivray, 2011-01-01 Why is British Columbia unique within Canada What forces have made its landscape so rugged its population so diverse How have its resources been exploited and managed in the past and in the present Brett McGillivray adopts mainly a thematic rather than a regional approach to answer these questions Beginning with a regional overview and introduction to geographic concepts he then moves to discuss the physical processes that produced a spectacular variety of mountains lakes fjords forests and minerals His thematic exploration traces the province's historical geography including First Nations lifeways colonization Asian

immigration and institutionalized racism Detailed accounts of BC's economic geography forestry fisheries mining energy supply and demand agriculture water and tourism culminate in a discussion of contemporary issues such as urbanization economic development and resource management This fully revised edition is enhanced by updated figures maps and graphs and by new discussions including how globalization climate change and recession are influencing the province and its people

**Contesting White Supremacy** Timothy J. Stanley, 2011-01-17 In 1922-23 Chinese students in Victoria British Columbia went on strike to protest a school board's attempt to impose segregation Their resistance was unexpected at the time and

runs against the grain of mainstream accounts of Asian exclusion which tend to ignore the agency of the excluded Contesting White Supremacy offers an alternative reading of racism in British Columbia Drawing on Chinese sources and perspectives and an innovative theory of racism and anti racism to explain the strike Timothy Stanley demonstrates that by the 1920s migrants from China and their BC born children actively resisted policy makers efforts to organize white supremacy into the very texture of life The education system served as an arena where white supremacy confronted Chinese nationalist schooling and where parents and students rejected the idea of being either Chinese or Canadian and instead invented a new category Chinese Canadian to define their identity      The Reluctant Land Cole Harris,2009-01-01 Winner 2008 K D Srivastava Prize for Excellence in Scholarly Publishing UBC Press The Reluctant Land describes the evolving pattern of settlement and the changing relationships of people and land in Canada from the end of the fifteenth century to the Confederation years of the late 1860s and early 1870s It shows how a deeply indigenous land was reconstituted in European terms and at the same time how European ways were recalibrated in this non European space It also shows how an archipelago of scattered settlement emerged out of an encounter with a parsimonious territory and suggests how deeply this encounter differed from an American relationship with abundance The book begins with a description of land and life in northern North America in 1500 and ends by considering the relationship between the pattern of early Canada and the country as we know it today Intended to illuminate the background of modern Canada The Reluctant Land is an intelligent discussion of people and place that will be welcomed by scholars and lay readers alike      British Columbia Patricia Roy,John Herd Thompson,2005 In this fifth volume in Oxford s Illustrated History of Canada series Patricia Roy and John Thompson present a compact narrative survey of British Columbia s economic political and social history generously illustrated with roughly 150 paintings drawings and maps that shed their own light on the province s history British Columbia as we know it geographically and politically today did not exist until 1858 The boundaries of the present day province were defined in a piecemeal and haphazard manner and are still disputed by the First Nations who have never accepted the 1927 agreement between the federal and the provincial governments that defined the extent of their territories within the province Historians can never entirely escape superimposing the tidy political map of contemporary British Columbia over an untidy geography and an equally untidy history Human conflict and human diversity mark British Columbia s past Based on current scholarship this volume provides a detailed account of the multitude of experiences within British Columbia British Columbia Land of Promises continues the tradition of sound scholarship and easy readability of the previous volumes in Oxford s Illustrated History of Canada series Previous volumes were praised for being richly illustrated readable detailed and opinionated London Free Press and attractive as individual volumes to those who want an introduction to a particular region and as part of a series to those who are looking for a new general history of Canada Quill and Quire      Makúk John Sutton Lutz,2009-01-01 John Lutz traces Aboriginal people s involvement in the new economy and their displacement from it from the arrival of the

first Europeans to the 1970s Drawing on an extensive array of oral histories manuscripts newspaper accounts biographies and statistical analysis Lutz shows that Aboriginal people flocked to the workforce and prospered in the late nineteenth century He argues that the roots of today's widespread unemployment and welfare dependency date only from the 1950s when deliberate and inadvertent policy choices what Lutz terms the white problem drove Aboriginal people out of the capitalist wage and subsistence economies offering them welfare as compensation

**Creating a Modern Countryside** James Murton, 2011-11-01 In the early 1900s British Columbia embarked on a brief but intense effort to manufacture a modern countryside The government wished to reward veterans of the Great War with new lives soliders and other settlers would benefit from living in a rural community considered a more healthy and moral alternative to urban life But the fundamental reason for the land resettlement project was the rise of progressive or new liberal thinking as reformers advocated an expanded role for the state in guaranteeing the prosperity and economic security of its citizens This ideological shift pushed the government to intervene directly in the management of not only society but also the natural environment As most arable accessible land in British Columbia was already being farmed by 1919 the state had to undertake environmental engineering projects on a scale not yet attempted in the province Creating a Modern Countryside examines how this process unfolded identifies its successes and failures and demonstrates how the human environment relationship of the early twentieth century shaped the province as it is today

**The Business of Women** Melanie Buddle, 2011-01-01 In the past Western women inhabited a conceptual space divorced from the world of business Historians have consequently tended to overlook the experiences of women entrepreneurs Who were these women and how were they able to justify their work outside the home The Business of Women explores the world of women entrepreneurs in early twentieth century British Columbia Contrary to expectation the typical businesswoman was not unmarried or particularly rebellious but a woman who reconciled entrepreneurship with her femininity and her identity as a wife mother or widow The entrepreneurial woman was the product of a frontier ethos in British Columbia that translated into higher rates of marriage for women and more married women working outside the home than in any other province in Canada Like men they worked to support their families

**Beyond the City Limits** R.W. Sandwell, 2011-11-01 Historians have not usually identified British Columbia as a rural province B C historiography has been dominated by mining logging and fishing and theorized within the context of large scale laissez faire capitalism and economic individualism Silences in the historical record have exacerbated this situation and lent tacit support to the dominance of resource based capitalism as the shaping force in B C history The essays in Beyond the City Limits all published here for the first time decisively break this silence and challenge traditional readings of B C history In this wide ranging collection R W Sandwell draws together a distinguished group of contributors who bring expertise methodologies and theoretical perspectives taken from social and political history environmental studies cultural geography and anthropology They discuss such diverse topics as Aboriginal White settler relations on Vancouver Island pimping and

violence in northern BC and the triumph of the coddling moth over Okanagan orchardists to show that a narrow emphasis on resource extraction capitalist labour relations and urban society is simply not broad enough to adequately describe those who populated the province's history. By challenging the dominant urban based and overwhelmingly capitalist interpretation of the province's history the provocative essays in *Beyond the City Limits* expand our understanding of what rural was and what it meant in the history of British Columbia.

***The Burden of History*** Elizabeth Furniss, 2011-11-01 This book is an ethnography of the cultural politics of Native non Native relations in a small interior BC city Williams Lake at the height of land claims conflicts and tensions. Furniss analyses contemporary colonial relations in settler societies arguing that ordinary rural Euro Canadians exercise power in maintaining the subordination of aboriginal people through common sense assumptions and assertions about history society and identity and that these cultural activities are forces in an ongoing contemporary system of colonial domination. She traces the main features of the regional Euro Canadian culture and shows how this cultural complex is thematically integrated through the idea of the frontier. Key facets of this frontier complex are expressed in diverse settings casual conversations among Euro Canadians popular histories museum displays political discourse public debates about aboriginal land claims and ritual celebrations of the city's heritage. In each setting Furniss shows how these cultural practices contribute to the marginalization of area Shuswap Sepwecemc Tsilhqot in Chilcotin and Carrier peoples and how area Native people are continually engaging in diverse and innovative modes of resistance to the dominant regional culture.

***Lions or Jellyfish*** Raymond B. Blake, 2015-01-01 Asked in 2010 about his pugnacious approach to federal provincial relations Newfoundland premier Danny Williams declared I would rather live one more day as a lion than ten years a jellyfish. He was only the latest in a long line of Newfoundland premiers who have fought for that province's interests on the national stage. From Joey Smallwood and the conflict over Term 29 of the Act of Union to Williams and his much publicized clashes with Paul Martin and Stephen Harper Newfoundland and Labrador's politicians have often expressed a determination to move beyond a legacy of colonialism and assert greater control over the province's own affairs. *Lions or Jellyfish* examines the history of these federal provincial clashes with both clarity and wit. Written by a noted expert on Newfoundland politics and intergovernmental affairs in Canada this book studies a vital but frequently overlooked aspect of modern Canadian federalism.

***Emerald City*** Matthew W. Kingle, 2008-10-01 At the foot of the snow capped Cascade Mountains on the forested shores of Puget Sound Seattle is set in a location of spectacular natural beauty. Boosters of the city have long capitalized on this splendor recently likening it to the fairytale capital of L. Frank Baum's *The Wizard of Oz* the Emerald City. But just as Dorothy Toto and their traveling companions discover a darker reality upon entering the green gates of the imaginary Emerald City those who look more closely at Seattle's landscape will find that it reveals a history marked by environmental degradation and urban inequality. This book explores the role of nature in the development of the city of Seattle from the earliest days of its settlement to the present. Combining environmental history urban history and human

geography Matthew Kingle shows how attempts to reshape nature in and around Seattle have often ended not only in ecological disaster but also in social inequality The price of Seattle s centuries of growth and progress has been high Its wildlife especially the famous Pacific salmon and its poorest residents have paid the highest price Kingle proposes a bold new way of understanding the interdependence between nature and culture and he argues for what he calls an ethic of place Using Seattle as a compelling case study he offers important insights for every city seeking to live in harmony with its natural landscape Provided by publisher Captain Alex MacLean Don MacGillivray,2008-11-01 Alex MacLean was the inspiration for the title character in Jack London s bestselling novel The Sea Wolf Originally from Cape Breton MacLean sailed to the Pacific side of North America when he was twenty one and worked there for thirty five years as a sailor and sealer His achievements and escapades while in the Victoria fleet in the 1880s laid the foundation for his status as a folk hero But this biography reveals more than the construction of a legend Don MacGillivray opens a window onto the sealing dispute brought the United States and Britain to the brink of war with Canadian sealing interests frequently enmeshed in espionage scientific debate diplomatic negotiations and vexing questions of maritime and environmental law **Witness to Loss** Jordan Stanger-Ross,Pamela Sugiman,2017-10-18 When the federal government uprooted and interned Japanese Canadians en masse in 1942 Kishizo Kimura saw his life upended along with tens of thousands of others But his story is also unique as a member of two controversial committees that oversaw the forced sale of the property of Japanese Canadians in Vancouver during the Second World War Kimura participated in the dispossession of his own community In Witness to Loss Kimura s previously unknown memoir written in the last years of his life is translated from Japanese to English and published for the first time This remarkable document chronicles a history of racism in British Columbia describes the activities of the committees on which Kimura served and seeks to defend his actions Diverse reflections of leading historians sociologists and a community activist and educator who lived through this history give context to the memoir inviting readers to grapple with a rich and contentious past More complex than just hero or villain oppressor or victim Kimura raises important questions about the meaning of resistance and collaboration and the constraints faced by an entire generation Illuminating the difficult even impossible circumstances that confronted the victims of racist state action in the mid twentieth century Witness to Loss reminds us that the challenge of understanding is greater than that of judgment
