*Lucas Pereira Rezende<sup>2</sup>*

Parte da série publicada pelo *International Institute for Strategic Studies* (IISS), a obra em questão é um *Adelphi Paper*<sup>3</sup> assinado por Andrew Cottey, da *University College Cork*, e Anthony Forster, da *University of Bristol*. Ainda que pequeno em tamanho, é um livro essencial para a discussão das novas formas de cooperação militar em curso desde o colapso da União Soviética. Em especial, o livro direciona o conceito da diplomacia de defesa e sua mudança prática e conceitual após os anos 1990. Diferentemente do papel tradicional das forças armadas, a “Diplomacia de Defesa (...) envolve o uso cooperativo das forças armadas e suas estruturas relacionadas (primariamente ministérios de defesa) em tempos de paz como uma ferramenta de política externa e de segurança” (COTTEY & FORSTER, 2004, p. 5-6).

Segundo os autores, para além do contrabalanceamento, os novos usos da cooperação militar são feitos para: (1) o engajamento estratégico, usando a assistência militar com antigos ou potenciais inimigos; (2) espalhar a democracia; (3) desenvolver capacidades em operações de paz (PKO) e de imposição da paz. Esses três pontos são exatamente os três capítulos que o livro se divide.

O engajamento estratégico, tema do Capítulo 1, é um fenômeno típico da nova diplomacia de defesa por buscar a cooperação militar com oponentes antigos ou

diplomacy by examining its practice In particular it focuses on the implementation of educational and exchange programs by the US Departments of State and Defense toward China Implementation is the focal point of this study and is utilized both as a practical process and a methodology It refers to the process of translating a public diplomacy policy goal the specific order

given to a governmental institution in order to achieve a general foreign policy objective into public diplomacy practices and impact. In addition, it refers to a research method that centers implementation and accepts the prerequisite of discretion from studies of policy implementation. This book maps out where and by whom implementation discretion is exercised in public diplomacy. Defense Engagement since 1900 Greg Kennedy, 2020-05-20. There is more to defense than military might and more to the military than a fighting force. At a moment of global upheaval, domestic turmoil, and political uncertainty, this timely volume seeks to define and reframe the terms of defense engagement: the use of military capabilities to exert soft power influence as opposed to hard power military force. *Defense Engagement since 1900* is a work of applied military history that brings lessons of the past to bear on current issues. In a number of case studies spanning the twentieth century and the globe, the authors explore various dimensions of defense engagement. Their work, which attempts to recast the role of a state's military from wielder of force to employer of power, is squarely aimed at tackling the causes of designated security threats and not merely managing their consequences. The chapters, by scholars and practitioners representing diverse points of view, focus primarily on the British experience, perhaps the most extensive example of the use of military power in a nonmartial fashion in pursuit of policy goals. However, the chapters also consider events in the United States, Canada, Japan, the Middle East, and Africa. Intelligence, diplomacy, deterrence, alliances, coalitions, and networks all are within the authors' scope as they address the need to use a wide range of attributes and capabilities associated with military power in various contemporary conflicts and national security strategies. The understanding their work provides will prove critically important to strategic thinkers of our day as democratic states increasingly contend with hybrid, subthreshold, and Gray Zone warfare.

An Army of Influence Craig Stockings, Peter Dennis, 2021-11-15. A thought-provoking analysis of the Australian Army's capacity to change, with a particular focus on the Asia Pacific region.

*Where is Nato Going?* Martin Smith, 2013-09-13. Since the end of the Cold War and especially since September 11, 2001, the future of NATO has been the subject of intense debate. This book brings together a group of international relations specialists in order to offer fresh perspectives on the Alliance's current and future purposes and roles. Rather than revisiting long-standing debates in areas such as NATO enlargement, the contributors focus instead on relevant contemporary issues. These include the prospects for NATO going global, NATO's role in the US-led war on terror, and the challenges posed by the transatlantic capabilities gap and the emergence of a military dimension to the European Union. The paradox facing NATO today is that whilst it is busier than it has ever been before, it still does not appear to many observers to have found a viable core role or roles in the contemporary international security arena. By exploring key issues and debates on NATO's current agenda, this book helps us to better understand the prospects for its long-term survival and viability. This book was previously published as a special issue of the leading journal *Contemporary Security Policy*.

**Japan's Defense Engagement in the Indo-Pacific** Nanae Baldauff, 2024-07-17 This original book systematically examines Japan's defense engagement with its strategic partners since the end of the Cold War based on Japan's national security strategy The author maps three defense engagement activities military exercises capacity building and defense equipment transfer and technology cooperation and subsequently evaluates these against the three national security objectives deterrence cooperative security and the Free and Open Indo Pacific vision The book asks two important research questions why is Japan active in defense engagement with the armed forces of its strategic partners And what purposes do Japan's self defense forces pursue Through the ten carefully selected cases of strategic partners Australia India Indonesia Vietnam the Philippines ASEAN the UK France NATO and the EU the book follows a structured cross case comparison based on the analytical framework developed for the research It also discusses the evolution of Japan's postwar defense policy providing a solid background for the case studies The book overall argues that while the Japan US alliance is still the most indispensable Japan's strategic partnerships are a valuable instrument of deterrence that contributes to Japan's national security objectives In order to more effectively pursue these objectives and thus secure the national interest Japan must pursue a purpose driven defense engagement

International Security in the Asia-Pacific Alan Chong, 2017-09-13 This volume argues that international security in the Asia Pacific lends itself to contradictory analyses of centrifugal and centripetal trends Transitional polycentrism is intrinsically awkward as a description of the security of states and their populations it implies the loosening of state control and the emergence of newly asserted authority by mixed constellations of intergovernmental organizations and non state actors It implies a competition of agendas threats to the integrity of borders and human security threats such as natural disasters airliner crashes and displacement by man made pollution and food scarcity Conversely polycentrism could also imply a return to a more neo realist oriented international order where great powers ignore ASEAN and steer regional order according to their perceived interests and relative military superiority This book embraces these contradictory trends as a foundation of analysis and accepts that disorder can also be re described from the perspective of studied detachment as polycentric order
