Residue Reviews Vol 5:

Residue Reviews / Rückstands-Berichte Francis A. Gunther, Jane Davies Gunther, 2012-12-06 That residues of pesticide and other foreign chemicals in food stuffs are of concern to everyone everywhere is amply attested by the reception accorded previous volumes of Residue Reviews and by the gratifying enthusiasm sincerity and efforts shown by all the individuals from whom manuscripts have been solicited Despite much propaganda to the contrary there can never be any serious question that pest control chemicals and food additive chemicals are essential to adequate food production manufacture marketing and storage yet without continuing surveillance and intelligent control some of those that persist in our foodstuffs could at times conceivably endanger the public health Ensuring safety in use of these many chemicals is a dynamic challenge for established ones are continually being displaced by newly developed ones more acceptable to food technologists pharmacologists toxicologists and changing pest control requirements in progressive food producing economies These matters are of genuine concern to increasing numbers of governmental agencies and legislative bodies around the world for some of these chemicals have resulted in a few mishaps from improper use Adequate safety in use evaluations of any of these chemicals persisting into our foodstuffs are not simple matters and they incorporate the considered judgments of many individuals highly trained in a variety of complex biological chemical food technological medical pharmacological and toxicological disciplines

Residue Reviews Herbert M. Hull, 2013-12-19 That residues of pesticide and other foreign chemicals in foodstuffs are of concern to everyone everywhere is amply attested by the reception accorded previous volumes of Residue Reviews and by the gratifying enthusiasm sincerity and efforts shown by all the individuals from whom manuscripts have been solicited Despite much propaganda to the contrary there can never be any serious question that pest control chemicals and food additive chemicals are essential to adequate food production manufacture marketing and storage yet without continuing surveillance and intelligent control some of those that persist in our foodstuffs could at times conceivably endanger the public health Ensuring safety in use of these many chemicals is a dynamic challenge for established ones are continually being displaced by newly developed ones more acceptable to food technologists pharmacologists toxicologists and changing pest control requirements in progressive food producing economies These matters are of genuine concern to increasing numbers of governmental agencies and legislative bodies around the world for some of these chemicals have resulted in a few mishaps from improper use Adequate safety in use evaluations of any of these chemicals persisting into our foodstuffs are not simple matters and they incorporate the considered judgments of many individuals highly trained in a variety of complex biological chemical food technological medical pharmacological and toxicological disciplines

Residue Reviews Francis A. Gunther, 2012-12-06 Worldwide concern in scientific industrial and governmental communities over traces of toxic chemicals in foodstuffs and in both abiotic and biotic environments has justified the present triumvirate of specialized publications in this field comprehensive reviews rapidly published progress

reports and archival documentations These three publications are integrated and scheduled to provide in international communication the coherency essential for nonduplicative and current progress in a field as dynamic and complex as environmental contamination and toxicology Until now there has been no journal or other publication series reserved exclusively for the diversified literature on toxic chemicals in our foods our feeds our geographical surroundings our domestic animals our wild life and ourselves Around the world immense efforts and many talents have been mobilized to technical and other evaluations of natures locales magnitudes fates and toxicology of the persisting residues of these chemicals loo sed upon the world Among the sequelae of this broad new emphasis has been an inescapable need for an articulated set of authorita tive publications where one could expect to find the latest important world literature produced by this emerging area of science together with documentation of pertinent ancillary legislation
