Resocialization: an American Experiment Daniel B. Kennedy, August Kerber, 1973      *Resocialization: an American Experiment* Daniel B. Kennedy, August Kerber, 1973      Retribution and Reparation in the Transition to Democracy Jon Elster, 2006-05-08 The contributions in this volume offer a comprehensive analysis of transitional justice from 1945 to the present They focus on retribution against the leaders and agents of the autocratic regime preceding the democratic transition and on reparation to its victims Part I contains general theoretical discussions of retribution and reparation The essays in Part II survey transitional justice in the wake of World War II covering Austria Belgium Denmark France Germany Hungary the Netherlands and Norway In Part III the contributors discuss more recent transitions in Argentina Chile Eastern Europe the former German Democratic Republic and South Africa including a chapter on the reparation of injustice in some of these transitions The editor provides a general introduction brief introductions to each part and a conclusion that looks beyond regime transitions to broader issues of rectifying historical injustice      *On Loss and Losing* Melvyn L. Fein, 2017-09-08 All people suffer instances of personal loss that cause distress All too often their discomfort is treated as a medical issue requiring treatment usually through medication Melvyn L Fein argues for a broader understanding of loss and losing that offers another approach which he characterizes as resocialization Indeed how a person thinks feels and acts may all need to be reorganized if personal distress is to be overcome Fein urges that we distinguish between the loss of something we once possessed and losing something that never came to fruition Thus it is possible never to achieve vital social roles social statuses and or personal bonds despite our individual efforts While some of these losses are not necessarily problematic others are extremely painful Unfortunately rather than investigate the source of this discomfort distraught individuals frequently seek refuge in simplistic solutions As a consequence one of the reasons the medical model remains dominant is that the alternative is imperfectly understood Fein presents a compelling case for a sociological interpretation of personal distress Although he acknowledges that some personal suffering derives from biological sources and that mental illnesses can spill over to cause social dysfunctions he argues that it is important to recognize the social causes of human suffering In thereby recognizing the limitations of the human condition most of us can do better than blindly accept an inherited dedication to the medical model *On Loss and Losing* offers a legitimate option without denying the reality of human suffering      Document Retrieval Index, 1974      **Unemployment and Crime** United States. *Why Innovation Fails* A. Levine, 1980-06-30 We know a lot about innovation in education when it occurs what forms it takes or what steps it involves But we don't know why it fails or succeeds Arthur Levine's goal in writing this book was to understand how change can be accomplished successfully His focus is on what happens after a change has been adopted

Levine first offers a theory about change in organizations based on the personality of the organization. He then examines his theory of change in a detailed study of fourteen structurally similar innovations in the experimental colleges at the State University of New York at Buffalo. He concludes with a review of other studies of universities as organizations in general integrating his theory with other research on innovation in organizations. **Library Book Catalog** United States. Stanko, Wayne Gillespie, Gordon A. Crews, 2004-04-30 Can the morality of a nation really be judged by how it treats its prisoners The United States has more people in prison than any other nation and the nature of the American correctional system continues to be the subject of passionate debate This unique combination of historical overview and personal testimony provides an unprecedented look at the U S correctional system The first section of the book places the notion of corrections within an historical context The second examines contemporary correctional issues In the third and final section Stephen Stanko an inmate in the South Carolina correctional system provides a detailed look at prison life from the inside Stanko offers his perspective in a voice that is blunt but never preachy on the harsh realities of prison life making this a rigorous exploration of our correctional system in both theory and practice Occupational Health Nursing, 1973 Social
