Resolving Regional Conflicts:

Resolving Regional Conflicts Roger E. Kanet, 1998 The end of the cold war has not meant an end to conflict around the world Disagreements still exist and discord continues to erupt into battles In Resolving Regional Conflicts twelve scholars present a broad introduction to the issue of discord within and between nations exploring models by which emerging security problems can be analyzed and looking at specific conflicts and the ways they are being handled **EYES OF A TYPHOON: FROM REGIONAL CONFLICTS TO GLPBAL SECURITY CRISIS** JAYSON PARK, 2023-05-24 This book has highlighted the potential of regional conflicts to escalate and cause a crisis to global security The cases of conflict in the Middle East Africa and Asia demonstrate that regional conflicts can have devastating consequences including displacement of people economic devastation and political instability It is therefore critical to address regional conflicts and establish preventative measures and effective conflict resolution strategies to prevent them from escalating Preventative measures can include investment in regional stability and development and the establishment of diplomatic channels for resolving conflicts Effective conflict resolution strategies such as mediation and negotiation can be used to resolve regional conflicts before they become a crisis

Regional Conflicts, 1990 Regional Conflict Management Paul Francis Diehl, Joseph Lepgold, 2003 This collection of original essays is one of the first to examine the implications and efficacy of regional conflict management in the new world order **Handbook of Regional Conflict Resolution Initiatives in the Global South** Jeronimo

Delgado-Caicedo, 2022-07-28 During the first half of the twentieth century the international system was largely dominated by the USA and the colonial powers of western Europe After the two world wars the political and economic dominance of these states guaranteed them and their allies an almost complete control of world politics However as it is the norm in the international system power structures are not immutable After the end of the Cold War rapid changes to the existing international hierarchies took place as new countries from the so called developing world began to emerge as crucial actors capable of questioning and altering the power dynamics of the world It is therefore unthinkable to ignore emerging countries such as Russia the People s Republic of China India Brazil or South Africa in the decision making process in today s world order In addition there is a group of smaller yet increasingly important countries that while acknowledging their inability radically to change the rules of the international system are still eager to shift power relations and enhance their influence in the world Argentina Colombia Egypt Indonesia Iran South Korea Mexico Nigeria Pakistan Saudi Arabia Turkey and Vietnam are generally recognised as part of this grouping of emerging powers from the Global South While there is a consensus amongst academics that emerging powers from the Global South must have a stabilising role within their own regions previous analyses have focused primarily on the impact that emerging powers have had in their own regions conflict resolution initiatives This volume instead aims to go beyond these analyses and provide new insights regarding the effect that this stabilising role has on the continental and global positioning of emerging powers In other words this book explores the

relation between a country's involvement in conflict resolution initiatives and its positioning in the international system. The volume will contribute to this approach using the perspective of academics and practitioners from countries of the Global South particularly from states that have strengthened or sometimes weakened their position in the international hierarchy of power through a leading role in regional conflict resolution initiatives.

Democracy in the Arab World Ibrahim

Elbadawi, 2011. Despite notable socio-economic development in the Arab region, a deficit in democracy and political rights has continued to prevail. This book examines the major reasons underlying the persistence of this democracy deficit over the past decades and touches on the prospects for deepening the process of democratization in the Arab World. Contributions from major scholars in the region give a cross-country analysis of economic development, political institutions and social factors and the impact of oil wealth and regional wars and present a model for democracy in the Arab world. Case studies are drawn from Algeria, Egypt, Iraq, Jordan, Lebanon, Syria, Sudan and the Gulf region, building on these cross-country analyses and probing beyond the model's main global variables. Looking beyond the effect of oil and conflicts, the chapters illustrate how specific socio-political history of the country concerned, fear of fundamentalist groups, collusion with foreign powers and foreign interventions and the co-optation of the elites by the state contribute to these problems of democratization. Situating the democratic position of the Arab World in a global context, this book is an important contribution to the field of Middle Eastern politics, development studies and studies on conflict and democracy.

The Resolution of African Conflicts Alfred G.

Nhemba, Paul Tiyambe Zeleza, 2008. These two volumes clearly demonstrate the efforts by a wide range of African scholars to explain the roots, routes, regimes and resolution of African conflicts and how to rebuild post-conflict societies. They offer sober and serious analyses, eschewing the sensationalism of the western media and the sophistry of some of the scholars in the global North for whom African conflicts are at worst a distraction and at best a confirmation of their pet racist and petty universalist theories. From the introduction by Paul Tiyambe Zeleza, this book offers analyses of a range of African conflicts and demonstrates that peace is too important to be left to outsiders.

Soviet-American Conflict Resolution in the Third

Understanding Conflict Resolution

Peter Wallensteen, 2007. This thoroughly revised edition of Peter Wallensteen's text provides a comprehensive guide to understanding conflict resolution in the contemporary global environment. Understanding Conflict Resolution draws on recent and classic research from around the world, linking the theory of conflict resolution to in-depth case studies throughout. The first part reviews the development of conflict resolution since the Cold War and demonstrates the various approaches to conflict analysis. The core of the book explores the settlement of three major types of international conflict: inter-state, internal and those arising from state formation. In the final part, regional and international approaches are examined and questions posed regarding the future of conflict resolution. This new edition has been brought fully up to date with coverage of the ongoing war on terror as well as events in Sudan, Lebanon, Sri Lanka and Zimbabwe. Part Three considers the developments in UN reform and the increasing importance of civil society.

organizations Understanding Conflict Resolution remains an essential text for all students lecturers and researchers of peace and conflict resolution in international relations global politics and political science *Regional Security in Southeast Asia* Mely Caballero Anthony, 2005 The book examines ASEAN's mechanisms in managing challenges and threats to regional security Its extensive analyses of the ASEAN story of managing regional security cover the different phases of ASEAN's development as a regional organization and explore the perceptible changes that have occurred in regional mechanisms of conflict management The book also examines the roles of relevant actors beyond the states of ASEAN and the key interactions that have evolved over time which have been instrumental in moving regional mechanisms beyond the ASEAN way The book argues that the ASEAN way has not been impervious to change As the association finds its way through periods of crises and continues to confront the many challenges ahead ASEAN and its mechanisms are already being transformed beyond the narrow confines of the modalities associated with the ASEAN way The changes in the political and security landscape of the region as well as the democratic transitions taking place in some member states have set the stage for a much more dynamic set of regional actors and processes that bring into question the kind of regionalism that is now taking place in the region the way regionalism is changing in Southeast Asia **Gorbachev's New Thinking and Third World Conflicts** Jiří Valenta, Frank Cibulka, Some of the most crucial changes inspired by Gorbachev and perestroika concern Soviet and East European policies toward Third World countries Despite countless studies of Soviet U S relations and U S relations with the Third World the area of Soviet relations with the Third World has been left relatively undeveloped This is the first of several volumes intended to add to our knowledge of what the series editor Jiri Valenta characterizes as East South relations In this new era of cooperation and diplomacy the superpowers are working to resolve regional conflicts in and around Afghanistan Nicaragua Angola and Cambodia Such efforts are exceedingly complex since they necessarily involve not only the Soviet Union but Third World nations that may operate independently such as Cuba and Vietnam This volume addresses a number of such conflicts In addition to those already mentioned conflicts in Ethiopia Namibia and the Philippines are discussed and their implications for Western policy makers are reviewed As the contributors emphasize despite current Soviet emphasis on peaceful solutions to regional conflicts Gorbachev's New Thinking in foreign affairs is still decidedly selective In some cases the Soviet Union will actually encourage close ties with regional Third World powers as it has with India It is also too much to expect that the Soviet Union much less Cuba and Vietnam will completely cut ties to revolutionary allies worldwide That said the 1990s will undoubtedly be characterized by new Soviet foreign policy styles Their shape and form is the subject of this book It will be of immense interest to policymakers and researchers concerned about current developments in relations between the superpowers and with the Third World Contributors include Vernon Aspaturian Bhabani Sen Gupta William E Griffith Jerry F Hough Douglas Pike Howard Wiarda AH T Sheikh Sabahuddin Kushkaki Colin Legum H de V du Toit Khien Theeravit Frank Cibulka Alvaro Taboada Charles William Maynes W Bruce

Weinrod Jiri Valenta **The End Of Superpower Conflict In The Third World** Melvin A Goodman,2019-07-11 This book describes the efforts of the United States and the former Soviet Union to resolve regional confrontations It examines Gorbachev s inheritance in Latin America regarding Soviet U S cooperation and conflict and prospects for future Russian U S cooperation

Conflict Resolution and Global Justice Nikola Tomić,Ben Tonra,2021-07-08 This book examines how the different normative foundations of conflict resolution held by various global actors their understandings of justice and the differences between types of conflict influence the varying means by which conflicts can be prevented managed and ultimately resolved By combining insights from political theory conflict studies and European Union EU foreign policy studies the book identifies the EU as the key case of a conflict manager that is both a product and a defender of a global liberal order It focuses on three aspects of conflict resolution that pose their own sets of both normative and empirical dilemmas resolving border disputes strengthening the resilience of weak or divided states and societies after regime change and intervention in humanitarian crises Furthermore it offers a comparative analysis between a potentially distinctive European approach and that of other global actors and reflects critically on situations where policy practice may not always reflect a concern for justice asking what countervailing forces prevail and why This book will be of key interest to scholars and students in European and EU Studies Area studies Conflict Resolution War Studies EU Foreign Policy Political Theory International relations as well as policymakers

The EU, Promoting Regional Integration, and Conflict Resolution Thomas Diez,Nathalie Tocci,2017-02-16 This book provides a comprehensive study into the promotion of regional integration as a central pillar of European Union EU relations with the rest of the world It is a strategy to deal with a core security challenge the transformation of conflicts and in particular regional conflicts Yet to what extent has the promotion of regional integration been successful in transforming conflicts What can we regard as the core mechanisms of such an impact This volume offers a comprehensive assessment of the nexus between promoting integration and conflict transformation The authors systematically compare the consequences of EU involvement in eight conflicts in four world regions within a common framework In doing so they focus on the promotion of integration as a preventative strategy to avoid conflicts turning violent and as a long term strategy to transform violent conflicts by placing them in a broader institutional context The book will be of use to students and scholars interested in European foreign policy comparative regionalism and conflict resolution

International Negotiation and Mediation in Violent Conflict Chester A. Crocker, Fen Osler Hampson, Pamela Aall, 2018-02-06 This collection of essays situates the study and practice of international mediation and peaceful settlement of disputes within a changing global context The book is organized around issues of concern to practitioners including the broader regional global and institutional context of mediation and how this broader environment shapes the opportunities and prospects for successful mediation A major theme is complexity and how the complex contemporary context presents serious challenges to mediation This environment describes a world where great power rivalries and politics are coming back into play and international and regional organizations are playing different roles and facing different kinds of constraints in the peaceful settlement of disputes The first section discusses the changing international environment for conflict management and reflects on some of the challenges that this changing environment raises for addressing conflict Part II focuses on the consequences of bringing new actors into third party engagement and examines what may be harbingers for how we will attempt to resolve conflict in the future The third section turns to the world of practice and discusses mediation statecraft and how to employ it in this current international environment The volume aims to situate the practice and study of mediation within this wider social and political context to better understand the opportunities and constraints of mediation in today's world The value of the book lies in its focus on complex and serious issues that challenge both mediators and scholars This volume will be of much interest to students practitioners and policymakers in the area of international negotiation mediation conflict resolution and international relations Proceedings of the 2024 8th International Seminar on Education, Management and Social Sciences (ISEMSS 2024) Lu Chang, Gabriel Antunes de Araujo, Lei Shi, Qian Zhang, 2024-10-31 This is an open access book The conference will focus on educational management and social studies discussing key challenges and research directions for the development of the field promoting the development and application of theories and methods in the field in universities and enterprises and providing a favorable platform for innovative scholars and experts focusing on the field of research to exchange new ideas and present their research results **Leashing the Dogs of War** Chester A.
