

The Choir

The choir is the oldest of all musical groups. Before human beings even thought of making musical instruments, they used their own voice to make music together. Since choral music comes directly from people, it has a more powerful emotional impact than instrumental music. There is nothing more moving than hearing an entire football stadium resound to the tune of "You'll never walk alone" or an enthusiastic church congregation throwing their hearts and souls into favourite hymns.

Human voices vary in pitch (some are high and some are low). This makes it possible to sing harmonies in different layers using different pitched voices.

soprano	a high woman's voice
Alto	low woman's voice
Counter-tenor	a very high male voice (very rare)
Tenor	A high male voice
Baritone	A low male voice - not as deep as the bass
Bass	The lowest male voice

There are also many different ways of singing:

Solo singing	singing on your own
Unison singing	a group of people singing the same thing together
Singing in harmony	a group singing melodies that are different but fit together to make nice sounds.
A capella singing	Singing without instruments.

Songs pervasive sonic ephemeral acts that combine words and music live in a contemporary world of commercialization as commodity Flowing through our everyday lives as a given and oft underacknowledged artifact to accompany our shopping car trips date nights and gym days Yet songs have a history as long as humanity and language They hold a place up until recently in our evolution as an oral history library of the human species Why then is there limited scholarship about how songs tell stories and the ways in which those stories come together with sounds And why is there a disconnect between songwriting as industrial practice and academic thought A New Philosophy of Songwriting argues that all songwriting choices are storytelling choices and asks the question how can we think about Song as one of the most memorable potent multimodal and portable storytelling devices ever devised In doing so Andy Ward and Briony Luttrell make the case for rethinking the analysis of songs and practice of songwriting with an emphasis on listening This is a book for songwriters

scholars and song lovers alike Ultimately the authors challenge contemporary thinking on music and song itself and argue for a new theorisation of song as a multimodal storytelling sonic act

Resource Description and Access: 2013 Revision Joint Steering Committee (JSC),American Library Association (ALA),Canadian Library Association (CLA),Chartered Institute of Library and Information Professionals (CILIP, UK),Deutsche Nationalbibliothek,Library of Congress (US),2013-10-28 This e book contains the 2013 Revision of RDA Resource Description and Access and includes the July 2013 Update This e book offers links within the RDA text and the capability of running rudimentary searches of RDA but please note that this e book does not have the full range of content or functionality provided by the subscription product RDA Toolkit Included A full accumulation of RDA the revision contains a full set of all current RDA instructions It replaces the previous version of RDA Print as opposed to being an update packet to that version

RDA has gone through many changes since it was first published in 2010. Cataloging practice described by RDA has not changed dramatically due to the changes above but nearly every page in RDA Print was impacted by the changes with the result that an RDA Print update packet would require nearly as many pages as the full revision. The most current RDA the revision contains all changes to RDA up to and including the 2013 RDA Update approved by the JSC. Annually the JSC considers proposals to update, enhance and maintain RDA as a current cataloging standard. These updates can and often do change the cataloging process as described by RDA. The JSC also periodically issues changes to RDA to fix errors and to clarify meaning. These changes do not typically change cataloging practice as described by RDA. Reworded RDA: the revision includes the reworded version of RDA instructions. To improve readability and comprehension of complex instructions, RDA has been edited and reworded since its original release. The rewording was carried out by the JSC RDA Copy Editor and reviewed by the U.S. RDA Test Coordinating Committee.
