

## *Responding to Student Feedback:*

It is important to acknowledge and respond to students' feedback, but responding does not mean simply fulfilling student requests. Rather, being responsive means considering student input and finding ways to help align student expectations with your teaching and course goals.

*For example* you might choose to make a change recommended by students, but you might also address student perceptions by helping them see the value or purpose of something that they identified as unhelpful.

**Research Anthology on Remote Teaching and Learning and the Future of Online Education** Management Association, Information Resources, 2022-09-02. The sudden implementation of emergency health procedures at the start of the COVID-19 pandemic forced many educators and educational institutions to explore new territory in terms of policy, teaching strategy, and more. Now that many institutions are familiar with online education, innovations have been developed and implemented. It is essential to study these best practices and innovations that have been developed in remote teaching and learning to better understand the future of online education. The *Research Anthology on Remote Teaching and Learning and the Future of Online Education* explores the recent developments, strategies, and innovations in remote teaching and learning that have been implemented globally. Covering topics such as emergency remote teaching, psycho-social well-being, and cross-cultural communication, this major reference work is an indispensable resource for educators and administrators of both K-12 and higher education, pre-service teachers, teacher educators, librarians, government officials, IT managers, researchers, and academicians.

**Handbook of Student Engagement Interventions** Jennifer A. Fredricks, Amy L. Reschly, Sandra L. Christenson, 2019-05-04. *Handbook of Student Engagement Interventions: Working with Disengaged Students* provides an understanding of the factors that contribute to student disengagement, methods for identifying students at risk, and intervention strategies to increase student engagement. With a focus on translating research into best practice, the book pulls together the current research on engagement in schools and empowers readers to craft and implement interventions. Users will find reviews on evidence-based academic, behavioral, social, mental health, and community-based interventions that will help increase all types of engagement. The book looks at ways of reducing suspensions through alternative disciplinary practices, the role of resiliency in student engagement, strategies for community and school collaborations in addressing barriers to engagement, and what can be learned from students who struggled in school but succeeded later in life. It is a hands-on resource for educators, school psychologists, researchers, and students looking to gain insight into the research on this topic and the strategies that can be deployed to promote student engagement. Presents practical strategies for engagement intervention and assessment. Covers early warning signs of disengagement and how to use these signs to promote engagement. Reviews contextual factors: families, peers, teachers related to engagement. Focuses on increasing engagement and school completion for all students. Emphasizes multidimensional approaches to disengagement.
