Response And Responsibility:

Avoiding Responsibility Nathalie Karagiannis, 2004-05-20 Post colonial European politics have undergone profound changes Constructing an intellectual history of European development discourse this book brings together post structuralist and critical approaches to understanding development Nathalie Karagiannis analyses three key terms of European development discourse responsibility efficiency and giving Situating these terms in a concrete history of European post colonial politics the author shows how European policy has shifted from accepting responsibility for colonialism constructed as it is on the paternalistic model of the gift to a more amnesiac politics in which post colonial countries are responsible for their own fate

Fair Opportunity and Responsibility David Owen Brink, 2021 Fair Opportunity and Responsibility lies at the intersection of moral psychology and criminal jurisprudence and analyzes responsibility and its relations to desert culpability excuse blame and punishment It links responsibility with the reactive attitudes but makes the justification of the reactive attitudes depend on a prior and independent conception of responsibility Responsibility and excuse are inversely related an agent is responsible for misconduct if and only if it is not excused As a result we can study responsibility by understanding excuses We excuse misconduct when an agent's capacities or opportunities are significantly impaired because these capacities and opportunities are essential if agents are to have a fair opportunity to avoid wrongdoing This conception of excuse tells us that responsibility itself consists in agents having suitable cognitive and volitional capacities normative competence and a fair opportunity to exercise these capacities free from undue interference situational control Because our reactive attitudes and practices presuppose the fair opportunity conception of responsibility this supports a predominantly retributive conception of blame and punishment that treats culpable wrongdoing as the desert basis of blame and punishment We can then apply the fair opportunity framework to assessing responsibility and excuse in circumstances of structural injustice situational influences in ordinary circumstances and in wartime insanity and psychopathy immaturity addiction and crimes of passion Though fair opportunity has important implications for each issue treating them together allows us to explore common themes and appreciate the need to take partial responsibility and excuse seriously in our practices of blame and punishment

The Politics of Responsibility Chad Lavin, 2023-12-11 Politics cannot function without responsibility but there have been serious disagreements about how responsibility is to be understood and huge controversies about how it is to be distributed rewarded legislated and enforced The liberal notions of personal responsibility that have dominated political thinking in the West for more than a century are rooted in the familiar territory of individual will and causal blame but these theories have been assailed as no longer adequate to explain or address the political demands of a global social structure Informed by Marx Foucault and Butler Chad Lavin argues for a postliberal theory of responsibility formulating responsibility as a process that is anchored in a persistent ability to respond not reproach Lavin works this formulation through discussions of contemporary political issues such as globalization police brutality and

abortion Rather than assigning individual blame postliberal responsibility challenges the supposed autonomy of individual subjects by taking structural arguments into account Lavin concludes that a liberal concept of responsibility gives rise to a moralistic and oppressive approach to social problems while a postliberal approach highlights a shared responsibility for developing collective solutions to systemic problems Postliberal responsibility not only suggests more generous and democratic responses to social ills it also allows us to theorize a greater range of issues that demand political response

Hermeneutical Theology and the Imperative of Public Ethics is a groundbreaking attempt to present constructive missional theology in an integrative and interdisciplinary framework as it provocatively utilizes and contextualizes Reformation theology and hermeneutics concerning ethical theology embedded within the wider horizon of World Christianity Mission as constructive theology is explored and refined in an hermeneutical and interdisciplinary fashion underlying a new horizon of postcolonial theology and mission in light of God's act of speech Missional church founded up God's grace of justification and Christ's diakonia of reconciliation becomes ethically oriented public church as it is engaged in multireligious diversity of people's lives and lifeworld in the postcolonial context of World Christianity **Morally-Demanding Infinite Responsibility**

Julio Andrade, 2021-03-16 This book presents a conceptual mapping of supererogation in the analytic moral philosophical tradition It first asks whether supererogation can be conceptualised in the absence of obligation or duty and then makes the case that it can be It does so by enlisting the resources of the continental tradition specifically using the work of Emmanuel Levinas and his notion of infinite responsibility In so doing the book contributes to the ongoing efforts to create a common ethical terminology between the analytic and continental traditions within moral philosophy Supererogatory actions are praiseworthy actions that go beyond duty and yet are not blameworthy when not performed In responding to this paradox moral philosophy either brackets or attempts a reductionism of supererogation Supererogation is epitomised in the paradigmatic figures of the saint and hero Yet most would agree that emulating these figures is too morally demanding We rightly ask where does moral obligation end Is it even possible or desirable to demarcate such a boundary Besides the important theoretical issues these questions raise they also speak to practical ethical dilemmas in the contemporary milieu as they concern the global wealthy's responsibility to the poor and the challenges of development aid work *Library of*

Strijbos, 2008 From Our Side is a collaborative effort of younger scholars in southern Africa and the Netherlands who are interested in the relationship between development and ethics from a Christian point of view The 17 chapters that make up the book have been produced through a unique set of partnerships in which the authors have intentionally worked with practitioners who are working in the development arena The essays were also shared in a number of settings with the authors so that they have also benefited from this creative partnership process and these partnerships have embraced people in both the South and the North signalling a desire for a global dialogue led by Africa on matters which have a strong impact upon the continent **Book of Addresses** Peggy Kamuf, 2005 This book consists of a series of essays that all turn around

questions of the address of speech or writing They argue and demonstrate that meaning is not just a matter of the active intention of a subject for example speaker writer or other signatory of a meaningful act but also of its reception at another s address The book s main concern is therefore with a theory of meaning and of action that is not centered on the intentional self conscious subject The fifteen chapters explore this problematic within three broad areas love jealousy and sexual difference fiction or literature and political or public discourse The book engages principally with contemporary French thought and includes important new readings of work by Jacques Derrida H l ne Cixous Maurice Blanchot and Jean Luc Nancy

Why Ethics? Robert Gibbs,2000-09-17 Robert Gibbs presents here an ambitious new theory of ethics Drawing on a striking combination of intellectual traditions including Jewish thought continental philosophy and American pragmatism Gibbs argues that ethics is primarily concerned with responsibility and is not as philosophers have often assumed principally a matter of thinking about the right thing to do and acting in accordance with the abstract dictates of reason or will More specifically ethics is concerned with attending to others questions and bearing responsibility for what they do Gibbs builds this innovative case by exploring the implicit responsibilities in a broad range of human interactions paying especially close attention to the signs that people give and receive as they relate to each other Why Ethics starts by examining the simple actions of listening and speaking reading and writing and by focusing on the different responsibilities that each action entails The author discusses what he describes as the mutual responsibilities implicit in the actions of reasoning mediating and judging He assesses the relationships among ethics pragmatics and Jewish philosophy The book concludes by looking at the relation of memory and the immemorial emphasizing the need to respond for past actions by confessing seeking forgiveness and making reconciliations In format Gibbs adopts a Talmudic approach interweaving brief citations from primary texts with his commentary He draws these texts from diverse thinkers and sources including Levinas Derrida Habermas Rosenzweig Luhmann Peirce James Royce Benjamin Maimonides the Bible and the Talmud Ranging over philosophy literary theory social theory and historiography this is an ambitious and provocative work that holds profound lessons for how we think about ethics and how we seek to live responsibly
