## Responsibility

Story by Andrew Frinkle

Responsibility is being dependable. Responsibility is getting things done and letting people know that they can count on you. There are many ways to be responsible.

Steven, Robert, and Tim had a group project due on Friday. They didn't have enough time in class, so they each took part of the project home to finish. Each of them brought their completed parts back to class Friday morning. The three boys got their project done. They were responsible.

Carly never let her friends down. If she said she'd be somewhere, she was there. If she said she'd do something, she did it. That's why the teacher had her help with the class calendar. Carly was very dependable.

How do you show responsibility?

Professional Responsibility J. Bruce Dunlop, University of Toronto. Faculty of Law, 1995      **Developing Priorities and a Style: Selected Readings in Education for Teachers and Parents** Richard Dean Kellough, 1974      **Selected Reading in Public Finance** Charles Jesse Bullock, 1924      Selected Reading in Quantitative Urban Analysis Samuel J. Bernstein, W. Giles Mellon, 2013-10-22

Selected Readings in Quantitative Urban Analysis focuses on the use of quantitative approaches in analyzing urban problems. The areas discussed are overall urban models, urban models dealing with the basic economic factors of urban life (workers and jobs, housing and transportation), urban models dealing with the provision of basic services (education, health care, fire, police, water and sanitation), urban models dealing with the provision of the luxuries of urban life (theater, ballet, symphony), urban models dealing with how the decisions to provide these factors are made (policy formulation and the resolution of conflicting priorities). This book is comprised of 11 chapters and begins with an outline of the major areas of urban life analyzed in a quantitative manner. Urban modeling is then introduced and problems and pitfalls in urban model building are considered. The next section looks at the economic base of urban life with emphasis on labor markets and labor force, urban housing markets and housing policy, and policy and policy models in transportation. Subsequent chapters explore essential urban services including public education, community health services, fire protection, sanitation, and emergency medical services. The remaining sections discuss the amenities of urban life and urban politics and policy. This monograph should be useful to urban administrators and planners as well as students interested in urban problems.

*Economy and Society: Selected Writings* Karl Polanyi, 2018-06-29

Few figures are more crucial to understanding the upheavals of our contemporary era than Karl Polanyi. In a world riven by social and economic crises from rising inequality to the decay of democratic institutions and profound technological disruption, Polanyi's path-breaking account of the dynamics of market capitalism and his defence of society and nature against the dangerous tendencies of the market capitalist system are more relevant than ever. This book brings together Polanyi's most important articles and essays to give a unique selection of his essential shorter writings, mixing classic texts with significant but previously little-known pieces. It highlights the coherence and richness of Polanyi's theoretical and political approach, making it indispensable for understanding his overarching intellectual contribution. The volume includes his interwar writings which deal with the world economic crisis and the socialist alternative to conservative and fascist developments; his reflection on political theory and the international situation after the war; and his comparative studies of economic institutions. Polanyi's political writings are complemented and supported by the critique of economic determinism and what he termed our obsolete market mentality. This book is an invaluable companion to Polanyi's masterpiece *The Great Transformation* and an essential resource for students and scholars of political economy, sociology, history, and political philosophy.

**Selected Writings of John A. Hobson 1932-1938** John M. Hobson, Colin Tyler, 2011-03-17

John A. Hobson is widely recognised as the most important British New Liberal thinker of

politics and political economy of the twentieth century The Selected Writings of John A Hobson showcases an exciting and previously unpublished collection of Hobson s writings and lectures from 1932 1938 that Hobson presented at the South Place Ethical Society in the last decade of his life The lectures and the introduction produce a fresh reading of Hobson s thinking and theorization of International Relations thereby revealing a much more complex thinker than has conventionally been understood Edited by Colin Tyler a framing introduction written by the author s great grandson John M Hobson situates these lectures in the context of his life work on International Relations between 1897 and 1940 Selected Writings of John A Hobson 1932 1938 is an essential read for all Hobson scholars and students and scholars of globalization and political economy

**Self-Determination and Collective Responsibility in the Secessionist Struggle** Costas Laoutides,2016-03-03 The often violent emergence of new independent states following the end of the Cold War generated discussion about the normative grounds of territorial separatism A number of opposing approaches surfaced debating whether and under which circumstances there is a right for a community to secede from its host country Overwhelmingly these studies placed emphasis on the right to secession and neglected the moral stance of secessionist movements as agents in international relations In this book Costas Laoutides explores the collective moral agency involved in secessionist struggles offering a theoretical model for the collective responsibility of secessionist groups Case studies on the Kurds and the people of Moldova Transdnistria illustrate the author s theoretical arguments as he seeks to establish how although the principle of self determination was envisaged as a means of gradually bestowing political power upon the people it never managed to realize its full potential because it was interpreted strictly within a framework of exclusionary politics of identity

Selected Writings of James Hayden Tufts James Hayden Tufts,1992 Volume Although Campbell succeeds in reestablishing Tufts s reputation as an important philosophical thinker Tufts s writings are the real proof that he is a figure who deserves the opportunity to regain a place in our collective philosophical memory both for the role that he played in the history of American thought and for the intellectual perspective that he developed

Tolman,1921 Baynham's Elocution, select readings George Walter Baynham,1883 *Responsibility, Chastisement and Restoration* Ronald Laldinsuah,2015-05-14 Many Old Testament scholars have focused their studies of justice on the eighth century BC prophets Isaiah Amos and Micah giving little or no attention to Hosea Neglect of Hosea in relation to justice arises from the common notion that he was a prophet of love and although some studies concede that parts of the book deal with justice it is often overlooked or given secondary importance to other concerns and themes In this publication Ronald

Laldinsuah addresses this misconception by demonstrating that Hosea was indeed a prophet of justice Through careful analysis of the text as well as observing both the biblical concept and the secular notions of justice it is observed that justice must perpetuate right and true relationships In relational justice we see the inseparable relationship among humans and between humans and God emphasising Hosea s message of responsibility chastisement and restoration *Morality and the Emotions* Justin Oakley,2020-07-20 Originally published in 1992 this book attacks many recent philosophical and psychological theories of the emotions and argues that our emotions themselves have intrinsic moral significance He demonstrates that a proper understanding of the emotions reveals the fundamental role they play in our moral lives and the practical consequences that arise from being morally responsible for our emotions *Selected Readings in Chemical Kinetics* Margaret H.
