**Ann Ward**

## **Restless Mind Alexis De Tocqueville On The Origin And Perpetuation Of Human Liberty:**

**The Restless Mind** Peter Augustine Lawler,1993 This book offers the most comprehensive account yet published of Alexis de Tocqueville s extraordinary thought and life Peter Augustine Lawler makes clear the understanding of the human condition that is at the foundation of Tocqueville s mixed and elusive view of human liberty **An Analysis of Alexis de Tocqueville's Democracy in America** Elizabeth Morrow,2017-07-05 Alexis de Tocqueville s 1838 Democracy in America is a classic of political theory and of the problem solving skills central to putting forward political ideas Problem solving has several aspects identifying problems finding methodologies to deal with them and applying the right criteria to work out how to solve them Indeed offering solutions is only the last stage in a developed process of problem solving For Tocqueville the problem at hand was how best to run a democratic state In the early 19th century it seemed clear that Europe was headed in the direction of democracy but in the wake of the French Revolution it was unclear how to avoid the many pitfalls on that road Tocqueville therefore turned to America then point the most established democracy in the world to investigate the institutions that allowed it to run as a successful state allowing people their say while preventing both the possible tyranny of the majority and the uncontrolled growth of government Tocqueville s careful analysis of the strengths of American democracy was then applied to the problems of instituting democracy in France providing a range of solutions that proved deeply influential in European political thought *Alexis de Tocqueville* Alan S. Kahan,2013-02-07 Alexis de Tocqueville was the author of two masterpieces Democracy in America and The Old Regime and the Revolution In this volume Alan S Kahan one of the world s leading authorities on Tocqueville s work presents an accessible and rigorous account of the French author s ideas set in the context of his life and times It sets out the essential tensions and ambiguities in Tocqueville s thought and analyzes the idea that made him such a compelling and insightful thinker Tocqueville and the Frontiers of Democracy Richard Boyd,Ewa Atanassow,2013-03-29 This collection of essays uses Alexis de Tocqueville s writings to explore the dilemmas of democratization in the twenty first century **Tocqueville, Democracy, and Religion** Alan S. Kahan,2015 A ground breaking study of the views of the greatest theorist of democracy writing about one of our most pressing issues Alan S Kahan a leading Tocqueville scholar shows how Tocqueville s analysis of religion is simultaneously deeply rooted in his thoughts on nineteenth century France and America and pertinent to us today Back cover *Nietzsche and Tocqueville on the Democratization of Humanity* , David A. Eisenberg,2022-07-26 To the extent that we worry about the future we tend to do so with the apprehension that something may go terribly wrong Nietzsche and Tocqueville on the Democratization of Humanity is animated more by the apprehension what if everything should go terribly right That foreboding indelibly colored the outlook of Friedrich Nietzsche and Alexis de Tocqueville two thinkers seldom paired As David A Eisenberg argues each in his own way envisaged the terminus toward which modernity speeds Examining their thought allows us not only to glimpse the future that filled them with dread but to survey a road that stretches back millennia

to Athens and Jerusalem when ideas about the primacy of reason and inborn equality of souls took root. Armed with such revolutionary teachings, a particular human type, namely the democratic, gained ascendancy. The reign of this human type portends to be so total that all other human types will be precluded in the democratic future, so that what mankind's democratization augurs is not the diversification of the species but its homogenization. The questions raised in Nietzsche and Tocqueville on the Democratization of Humanity are intended to broaden the horizons that history's democratizing forces conspire to contract.

**De Tocqueville** Cheryl B. Welch, 2001. Founders of Modern Political and Social Thought presents critical examinations of the work of major political philosophers and social theorists, assessing both their initial contribution and continuing relevance to politics and society. Each volume provides a clear, accessible, historically informed account of each thinker's work, focusing on a reassessment of their central ideas and arguments. Founders encourage scholars and students to link their study of classic texts to current debates in political philosophy and social theory. Alexis de Tocqueville is one of the most topical and debated figures in contemporary political and social theory. This clear, new introduction to de Tocqueville's thought examines in detail his classic works and their major themes. Welch argues that Tocqueville's major themes tap into deep anxieties about democratic practices, and his writings help us to identify the major fault lines in democracy at the turn of the new century. Beginning with a consideration of Tocqueville's distinctiveness against the historical background and intellectual context of his time, Welch goes on to trace the development of his thought on democracy and revolution, history, slavery, religion, and gender, including chapters dealing with his writings on France and the United States. The final chapter then explores Tocqueville's historical legacy and his contemporary significance, illuminating the reasons why this displaced nineteenth-century aristocrat has become one of the most topical figures in contemporary political and social theory.

**Exploring the Social and Political Economy of Alexis de Tocqueville** Peter J. Boettke, Adam Martin, 2020-02-07. Alexis de Tocqueville's work touched upon an exceptionally broad range of social scientific disciplines, from economics to religion and from education to international affairs. His work consistently appeals to scholars dismayed by existing disciplinary silos. Tocqueville is also well regarded for diagnosing both the promise and perils of democratic life. Consideration of his ideas provokes serious consideration of and engagement with contemporary trends as citizens in democratic countries cope with challenges posed by new technological, cultural, and political changes. However, attention to Tocqueville is uneven across disciplines, with political theorists paying him the most heed and economists the least. This volume focuses on political economy, trying to bridge this divide. This book collects essays by emerging scholars from a variety of disciplines: political science, economics, sociology, philosophy, and social thought, to examine Tocqueville's thoughts on political and social economy and its contemporary relevance. The book is divided into two halves. The first half engages with the main currents of research on Tocqueville's own thoughts regarding economic institutions, constitutionalism, liberalism, history, and education. The second half applies Tocqueville's insights to diverse contemporary topics, including

international relations citizenship mass incarceration and pedagogy This volume will be of interest to scholars and students interested in Tocqueville the history of political thought and a variety of current policy issues *Augustine and Frontiers of Pluralism* Boleslaw Z. Kabala, Thomas P. Harmon, Ashleen Menchaca-Bagnulo, 2025-05-14 This book focuses on St Augustine as a worthwhile resource for thinking through the challenges and prospects of pluralism The contributors speak to several dimensions of this organizing concept understanding of which is advanced by engagement with Augustine The volume brings together scholars from different disciplines faith traditions and political commitments all of whom have deemed it worthwhile to return to Augustine to learn about a signature theme of common life in the twenty first century The chapters address a variety of topics including civic engagement feminism Black religious thought domination liberalism and time In an age of pluralism the hope is to access the insights of the thinker who struggled with a plurality of desires motivations and political theological imaginations and to benefit from his thoughts The book will be of particular interest to scholars of theology philosophy and political science *Tocqueville: A Very Short Introduction* Harvey C. Mansfield, 2010-07-13 No one has ever described American democracy with more accurate insight or more profoundly than Alexis de Tocqueville After meeting with Americans on extensive travels in the United States and intense study of documents and authorities he authored the landmark *Democracy in America* publishing its two volumes in 1835 and 1840 Ever since this book has been the best source for every serious attempt to understand America and democracy itself Yet Tocqueville himself remains a mystery behind the elegance of his style Now one of our leading authorities on Tocqueville explains him in this splendid new entry in Oxford's acclaimed *Very Short Introduction* series Harvey Mansfield addresses his subject as a thinker clearly and incisively exploring Tocqueville's writings not only his masterpiece but also his secret *Recollections* intended for posterity alone and his unfinished work on his native France *The Old Regime and the Revolution* Tocqueville was a liberal Mansfield writes but not of the usual sort The many elements of his life found expression in his thought his aristocratic ancestry his ventures in politics his voyages abroad his hopes and fears for America and his disappointment with France All his writings show a passion for political liberty and insistence on human greatness Perhaps most important he saw liberty not in theories but in the practice of self government in America Ever an opponent of abstraction he offered an analysis that forces us to consider what we actually do in our politics suggesting that theory itself may be an enemy of freedom And that Mansfield writes makes him a vitally important thinker for today Translator of an authoritative edition of *Democracy in America* Harvey Mansfield here offers the fruit of decades of research and reflection in a clear insightful and marvelously compact introduction **The Man Who Understood Democracy** Olivier Zunz, 2022-05-03 A definitive biography of the French aristocrat who became one of democracy's greatest champions In 1831 at the age of twenty five Alexis de Tocqueville made his fateful journey to America where he observed the thrilling reality of a functioning democracy From that moment onward the French aristocrat would dedicate his life as a writer and politician to ending despotism in his country and bringing it into

a new age In this authoritative and groundbreaking biography leading Tocqueville expert Olivier Zunz tells the story of a radical thinker who uniquely charged by the events of his time both in America and France used the world as a laboratory for his political ideas Placing Tocqueville s dedication to achieving a new kind of democracy at the center of his life and work Zunz traces Tocqueville s evolution into a passionate student and practitioner of liberal politics across a trove of correspondence with intellectuals politicians constituents family members and friends While taking seriously Tocqueville s attempts to apply the lessons of Democracy in America to French politics Zunz shows that the United States and not only France remained central to Tocqueville s thought and actions throughout his life In his final years with France gripped by an authoritarian regime and America divided by slavery Tocqueville feared that the democratic experiment might be failing Yet his passion for democracy never weakened Giving equal attention to the French and American sources of Tocqueville s unique blend of political philosophy and political action The Man Who Understood Democracy offers the richest most nuanced portrait yet of a man who born between the worlds of aristocracy and democracy fought tirelessly for the only system that he believed could provide both liberty and equality

**The Cambridge Companion to Democracy in America** Richard Boyd,2022-03-24 This collection of essays is an invaluable companion for understanding the composition reception and contemporary legacy of Alexis de Tocqueville s classic work Democracy in America Chapters by political theorists intellectual historians economists political scientists and community organizers explore the major intellectual influences on Tocqueville s thought the book s reception in its own day and by subsequent political thinkers and its enduring relevance for some of today s most pressing issues Chapters tackle Tocqueville s insights into liberal democracy civil society and civic engagement social reform religion and politics free markets constitutional interpretation the history of slavery and race relations gender literature and foreign policy The many ways in which Tocqueville s ideas have been taken up sometimes at cross purposes by subsequent thinkers and political actors around the world are also examined This volume demonstrates the enduring global significance of one of the most perceptive accounts ever written about American democracy and the future prospects for self government

**The Ashgate Research Companion to Federalism** Ann Ward,2016-04-01 This comprehensive research companion examines the theory practice and historical development of the principle of federalism from the ancient period to the contemporary world It provides a range of interpretations and integrates theoretical and practical aspects of federalism studies more fully than is usually the case The volume identifies and examines nascent conceptions of the federal idea in ancient and medieval history and political thought before considering the roots of modern federalism in the ideas of a number of important European political theorists of the sixteenth through eighteenth centuries The contributors focus on the development and institutionalization of the principle of federalism in the American Republic and examine the historical development and central policy debates surrounding European federalism The final sections investigate contemporary debates about theories of federalism and regional experiences of federalism in a

global context including Africa India Australia the Middle East and North and South America The scope and range of this volume is unparalleled it will provide the reader with a firm understanding of federalism as issues of federalism promise to play an ever more important role in shaping our world *Enduring Liberalism* Robert Booth Fowler,2021-10-29 Has the United States become more pluribus than unum In terms of the nation s political beliefs Robert Booth Fowler answers both yes and no While his study affirms significant diversity among an elite cadre of public intellectuals it vigorously denies it in a general public that collectively adheres to the same set of liberal core values *Enduring Liberalism* pursues two objectives One it explores the political thought of public intellectuals and the general public since the 1960s Two it assesses contemporary and classic interpretations of American political thought in light of the study s findings Fowler interprets the writings of public intellectuals like Robert Bellah Jean Bethke Elshtain Michael Walzer William Bennett Seymour Martin Lipset William Galston and others as well as survey data of American political attitudes to spotlight this oft ignored divide between citizens and high profile commentators whose contentious debates are mistakenly assumed to reflect countrywide rifts Fowler s argument is straightforward but the interpretation is controversial He recounts how the consensus liberal view in post World War II American political thought collapsed among public intellectuals during the tumult of the 1960s and remains so to this day His book examines the resultant diversity among contemporary public intellectuals focusing on three predominant themes concern for community worry about the environment and interest in civil society In marked contrast to these disputatious commentators Fowler finds the realm of popular opinion to be characterized by much greater consensus Indeed there seems to be a trend toward an even more general embrace of the liberal values that characterize our attitudes toward the individual individual liberty political equality economic opportunity and consent of the governed Liberal values above all the celebration of the individual and individual rights have revolutionized the so called private realms of life like family and religious communities to an extent unimagined in the 1950s From these conclusions Fowler demonstrates that most interpretations of American political thinking have exaggerated the extent of conflict and diversity in our nation s often raucous policy disputes But he also cautions us not to overstate the public s widely shared liberal values and by doing so miss opportunities to facilitate problem solving or to recognize the ways in which our reform efforts may be constrained

**Tocqueville Unveiled** Robert T. Gannett,2003-09-15 Drawing on his unprecedented access to Tocqueville s papers Robert T Gannett Jr reveals the ingenuity of Tocqueville s analyses of issues such as landownership administrative centralization and public opinion in pre reolutionary France **Tocqueville's Dilemmas, and Ours** Ewa Atanassow,2022-10-18 How Tocqueville s ideas can help us build resilient liberal democracies in a divided world How can today s liberal democracies withstand the illiberal wave sweeping the globe What can revive our waning faith in constitutional democracy *Tocqueville s Dilemmas and Ours* argues that Alexis de Tocqueville one of democracy s greatest champions and most incisive critics can guide us forward Drawing on Tocqueville s major works and lesser known policy

writings Ewa Atanassow shines a bright light on the foundations of liberal democracy She argues that its prospects depend on how we tackle three dilemmas that were as urgent in Tocqueville s day as they are in ours how to institutionalize popular sovereignty how to define nationhood and how to grasp the possibility and limits of global governance These are pivotal but often neglected dimensions of Tocqueville s work and this fresh look at his writings provides a powerful framework for addressing the tensions between liberalism and democracy in the twenty first century Recovering a richer liberalism capable of weathering today s political storms Tocqueville s Dilemmas and Ours explains how we can reclaim nationalism as a liberal force and reimagine sovereignty in a global age and do so with one of democracy s most discerning thinkers as our guide

*Tocqueville's Political and Moral Thought* M.R.R Ossewaarden,2004-08-02 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company **Tocqueville's Dilemmas, and Ours** Ewa Atanassow,2025-07-29 How Tocqueville s ideas can help us build resilient liberal democracies in a divided world How can today s liberal democracies withstand the illiberal wave sweeping the globe What can revive our waning faith in constitutional democracy Tocqueville s Dilemmas and Ours argues that Alexis de Tocqueville one of democracy s greatest champions and most incisive critics can guide us forward Drawing on Tocqueville s major works and lesser known policy writings Ewa Atanassow shines a bright light on the foundations of liberal democracy She argues that its prospects depend on how we tackle three dilemmas that were as urgent in Tocqueville s day as they are in ours how to institutionalize popular sovereignty how to define nationhood and how to grasp the possibility and limits of global governance These are pivotal but often neglected dimensions of Tocqueville s work and this fresh look at his writings provides a powerful framework for addressing the tensions between liberalism and democracy in the twenty first century Recovering a richer liberalism capable of weathering today s political storms Tocqueville s Dilemmas and Ours explains how we can reclaim nationalism as a liberal force and reimagine sovereignty in a global age and do so with one of democracy s most discerning thinkers as our guide **Critics of Enlightenment Rationalism** Gene Callahan,Kenneth B. McIntyre,2020-05-13 This book provides an overview of some of the most important critics of Enlightenment rationalism The subjects of the volume including among others Burke Kierkegaard Nietzsche T S Eliot Wittgenstein Heidegger C S Lewis Gabriel Marcel Russell Kirk and Jane Jacobs do not share a philosophical tradition as much as a skeptical disposition toward the notion common among modern thinkers that there is only one standard of rationality or reasonableness and that that one standard is or ought to be taken from the presuppositions methods and logic of the natural sciences The essays on each thinker are intended not merely to offer a commentary on that thinker but also to place that thinker in the context of this larger stream of anti rationalist thought Thus while this volume is not a history of anti rationalist thought it may contain the intimations of such a history Liberty, Equality, Democracy Eduardo Nolla,1996-07-01 This volumes explores the whole range of Alexis Tocqueville s ideas from his political literary and sociological theories to his concept of history his religious beliefs and his philosophical doctrines Among

the topics considered are Tocqueville's beliefs about foreign policy as applied to American democracy Tocqueville and Machiavelli on the art of being free Tocqueville and the historical sociology of state virtue and politics in Tocqueville Tocqueville's debt to Rousseau and Pascal Tocqueville's analysis of the role of religion in preserving American democracy Tocqueville and American literary critics and Tocqueville and the postmodern refusal of history The different approaches to Tocqueville's classical work represented in this book combined with the frequent use of unpublished sources present a fresh and renewed vision of his classic *Democracy in America* reinforcing after a century and a half its reputation as the most modern provocative and profound attempt to explain the nature of democracy Contributing to the volume are Pierre Birnbaum University of Sorbonne Herbert Dittgen University of Goettingen Joseph Alulis Lake Forest College Dalmacio Negro Universidad Complutense Madrid Peter A Lawler Berry College Catherine Zuckert Carleton College Francesco de Sanctis Naples University Hugh Brogan University of Essex Cushing Strout Cornell University Gisela Schlueter Universitaet Hannover Roger Boesche Occidental College Edward T Gargan University of Wisconsin and James T Schleifer College of New Rochelle
