Hearings United States. Congress. Senate. Committee on the District of Columbia, 1969 **Telephone Directory** United States. Dept. of the Interior, 1984 Nationwide Symposium on Urban Recreation, June 23, 24, 25, 1975, Reston, Virginia , 1975 **Water Pollution in the National Capital Region** United States. Congress. Senate. Committee on the District of Columbia, 1970 **The Vietnam War Debate** Louis B. Zimmer, 2011-01-01 This book tells the story of how America's national leadership failed the nation and produced the greatest foreign policy disaster in American history to that time. It is foremost however the story of a great man who tried to halt his nation's drift into what became an American tragedy. It is also a story that has never before been told. As the war escalated a variety of critics emerged to challenge the war policy and thus my book is about the national debate in which University of Chicago Professor Hans J. Morgenthau emerged as the chief opponent of the war. Morgenthau argued relentlessly in teach-ins around the country in public debates and in hundreds of articles that Vietnam was never a threat to America's security and that the war should never have been fought. In the history of the national debate on Vietnam it is Morgenthau who is the hero of the anti-war movement and the centerpiece of my study. Morgenthau had written the basic text on foreign policy *Politics Among Nations* and had established the field of international relations as an independent discipline of study. His arguments against the war derive from these earliest writings and are elaborated in this book the principles of which remain valid today. The war ended in 1975 as North Vietnamese troops marched into Saigon after over 58,000 American servicemen and millions of Vietnamese had died in the fighting. The war could have been averted. Morgenthau was ignored. American policy makers misunderstood the nature of the civil conflict in Vietnam. As Morgenthau told an interviewer in July 1965: "What I have said recently I have been saying for years without anybody paying any attention."

With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea.

Congressional Record United States. Congress, 1975 *Utilization and Future of Major Airports in the National Capital Region* , 1969 **American Journalists** Donald A. Ritchie, 2007 This volume profiles 60 American journalists from colonial times to the present and focuses on news reporters, editors, publishers, and broadcasters whose careers significantly advanced or were symbolic of major changes in their profession. Illustrations, fact boxes, and quotations from the subjects themselves together with the
