cancer in American adult males. The content of this book, developed by clinical nurse experts, provides information on the state of the art care of men with prostate cancer. Readers will gain a thorough understanding of symptoms, diagnostic methods, treatment options, and psychosocial effects of this disease. A major focus of the book is on quality of life and the nurses' role in improving this through teaching patients and their families how to manage common symptoms and side effects such as urinary and sexual problems. **Bathing Without a Battle** Ann Louise Barrick PhD, Joanne Rader RN, MN,

PMHNP, Beverly Hoeffler DNSc, RN, FAAN, Philip D. Sloane MD, MPH, Stacey Biddle COTA/L, 2008-03-10 2008 AJN Book of the Year Winner Like its popular predecessor the new edition of *Bathing Without a Battle* presents an individualized problem solving approach to bathing and personal care of individuals with dementia. On the basis of extensive original research and clinical experience the editors have developed strategies and techniques that work in both institution and home settings. Their approach is also appropriate for caregiving activities other than bathing such as morning and evening care and for frail elders not suffering from dementia. For this second edition the authors have included historical material on bathing and substantially updated the section on special concerns including Pain, Skin care, Determining the appropriate level of assistance, Transfers, The environment. An enhanced final section addresses ways to support caregivers by increasing their understanding of the care recipient's needs and their knowledge of interventions to improve care and comfort. It also emphasizes self care and system level changes to promote person directed care. Several chapters include specific insights and wisdom from direct caregivers. *Geriatric Nursing Protocols for Best Practice* Mathy Doval Mezey, 2003 The protocols

in this thoroughly updated edition address key clinical conditions and circumstances likely to be encountered by a hospital nurse caring for older adults. They represent best practices for acute care of the elderly as developed by nursing experts around the country as part of the Hartford Foundation's Nurses Improving Care to the Hospitalized Elderly project NICHE. New to this edition are chapters on evaluating practice guidelines and measuring quality and outcome of care. Although the protocols were developed for acute care they can be easily modified to work in other practice settings such as the nursing

home or home care *Nursing Home Ethics* Bethel Ann Powers, RN, PhD, 2003-09-09 Designated a Doody's Core Title Winner of an AJN Book of the Year Award p Bethel Ann Powers gives a comprehensive and thoughtful examination of the ethical issues that arise in long term care The first two chapters set the stage by exploring the pre nursing home experiences of families living with dementia and in contrast how residents and family members experience life in the nursing home The following chapters contain detailed hypothetical cases that include questions possible actions and insightful commentary to illustrate practical approaches to understanding common ethical issues affecting nursing home residents **Handbook of Dementia** Peter A. Lichtenberg, Daniel L. Murman, Alan M. Mellow, 2004-05-03 Presents cutting edge information on a variety of dementia causing illnesses Provides relevant material for professionals working with AIDS patients substance abusers stroke or other vascular patients and other individuals suffering from degenerative illness Edited by leading experts in geriatric health and dementia **DePaul Journal of Health Care Law**, 2000 *Reducing Restraint and Restrictive Behavior Management Practices* Peter Sturmey, 2015-07-01 This book presents an evidence based framework for replacing harmful restrictive behavior management practices with safe and effective alternatives The first half summarizes the concept and history of restraint and seclusion in mental health applications used with impaired elders children with intellectual disabilities and psychiatric patients Subsequent chapters provide robust data and make the case for behavior management interventions that are less restrictive without compromising the safety of the patients staff or others This volume presents the necessary steps toward the gradual elimination of restraint based strategies and advocates for practices based in client rights and ethical values Topics featured in this volume include The epidemiology of restraints in mental health practice Ethical and legal aspects of restraint and seclusion Current uses of restraint and seclusion Applied behavior analysis with general characteristics and interventions The evidence for organizational interventions Other approaches to non restrictive behavior management *Reducing Restraint and Restrictive Behavior Management Practices* is a must have resource for researchers clinicians and practitioners and graduate students in the fields of developmental psychology behavioral therapy social work psychiatry and geriatrics
