Restructuring Shared Governance In Higher Education New Directions For Higher Education:

Restructuring Shared Governance in Higher Education William G. Tierney,Vincente M. Lechuga,2004-09-17 Shared governance has been a hallmark of higher education in the United States since the early twentieth century Since its inception faculty administrators trustees and other interested parties have either bemoaned or celebrated the idea We offer a variety of viewpoints that bring to light various ways to think of shared governance The intent is to foment dialogue and debate about the shape of shared governance for the future Our assumption is that many challenges are at academe s doorstep that may require significant changes If those of us who work in colleges and university are not well organized to deal with those challenges the solutions that we develop will be love s labors lost Governance is the means to implementing ideas that either respond to problems or provide new strategies If academic governance is ineffective then it needs to be reformed The shape of those reforms is what the authors of this volume consider Chapters address the subject of shared governance from several perspectives including partnerships between the state and higher education disjointed governance in university centers and insitutes a cultural perspective on communication and governance and balancing governance structures with leadership and trust Contributors also explore a conceptual framework of faculty trust and participation in governance This is the 127th issue of the Jossey Bass quarterly report series New Directions for Higher Education   Shared Governance in Higher Education Sharon F. Cramer,2017-04-01 Offers practical advice for achieving shared governance in higher education Shared Governance in Higher Education Set Volumes 1 2 and 3 For those seeking a way to change opinions of shared governance from pointless and unlikely to possible and intriguing Shared Governance in Higher Education Volume 1 will trigger meaningful conversations by offering valuable new perspectives Experienced governance members the contributors provide practical insights for everyone involved in academic governance and illuminate the subtle aspects of governance that make the difference between success or failure Each chapter takes a different view of governing within institutions of higher education and explores topics such as engaging all stakeholders including students in shared governance building on the benefits of a large complex system and bringing together pressing current needs with realistic strategic planning Several in depth descriptions of academic challenges and the many roles of governance in addressing them are thoughtfully explored The contributors look both deeply and broadly moving beyond platitudes The result is a volume that will appeal to those beginning their terms of service as governance members or transitioning into leadership positions as well as those looking for ways to assist others via governance symposia or conferences and that will enable readers to shape their involvement in shared governance in unique new ways   **The Organization of Higher Education** Michael N. Mortimer,Colleen O'Brien Sathre,2010-02-15 Using

case studies and relevant literature this book illustrates the challenges to legitimate Shared governance domains when the routine of the academy is forced to deal with big issues often brought on by external forces Mortimer and Sathre have gone beyond a discussion of faculty administrative behavior by focusing on what happens when the legitimate governance claims of faculty trustees and presidents clash They place these relationships in the broader context of internal institutional governance and analyze the dynamics that unfold when advocacy trumps collegiality The book closes with a defense of shared governance and offers observations and practical suggestions about how the academy can share authority effectively and further achieve its mission **Reviews of National Policies for Education Higher Education in Kazakhstan 2017** OECD,2017-03-15 Higher education policy is the key to lifelong learning and this is particularly important as the ageing population is increasing in many countries It is a major driver of economic competitiveness in an increasingly knowledge driven global economy and it also brings social cohesion and *A Professor at the End of Time* John Best,2017-03-17 A Professor at the End of Time tells one professor s story in the context of the rapid reconfiguration of higher education going on now and analyzes what the job included before the supernova of technological innovation the general influx of less well prepared students and the diminution of state and federal support wrought wholesale changes on the profession **Understanding Community Colleges** John S. Institutional Policy Formation Michael T. Miller,John W. Murray,2011-10-01 The number of staff members serving American higher education institutions has more than doubled in the past twenty years as occupations in technology development government relations and even athletic administration have grown as never before in the history of the academy As the number variety and importance of these positions have grown so has the need for their involvement in determining the direction and vision of the contemporary university Often in opposition or cast in a competing light staff governance bodies are positioned within the governance framework of faculty students trustees and even legislatures all bound together by formal and legal authority guidelines The current volume is among the very first to explore this landscape and begins with a critical evaluation of the context of how staff are involved in decision making The text devotes six chapters to an in depth exploration of the environment where staff governance is used in private and community colleges with athletics and student affairs in collective bargaining environments and how the inclusion of staff can be an asset to institutional self determination The final section describes the array of topics staff governance bodies address and shares a case study of one professional administrator who chaired a staff senate The concluding chapter outlines the implications in policy formation evaluation and agenda setting for the involvement of staff in the higher education community The book is a must read for new senior college administrators staff governance leaders practitioners in human resource management those concerned about democracy in education and scholars studying higher education management **Higher Education Finance Research** Mary P. McKeown-Moak,Christopher M. Mullin,2014-02-01 There is a void in the literature on how to conduct research in the finance and economics of higher education Students professors and practitioners have no concise document that examines the field provides history definitions of terms sources of data and research methods Higher Education Finance Research Policy Politics and Practice fills that void The book is structured in four parts The first section provides a brief history and description of the general organization of American higher education the sources and uses of funds over the last 100 years and who is served in what types of institutions Definitions of terms that are unique to higher education are provided and some basic rules for conducting research on the economics and finance of higher education are established Although in some ways conducting research in higher education funding is similar to that for elementary secondary education there are some important distinctions that also are provided The second section introduces guiding philosophies sources of data data elements vocabulary metrics and analytics related to institutional revenues and expenditures Chapters in this section focus on student oriented revenues institutionally oriented revenues and funding formulas The third section introduces accountability related concepts by first examining the accountability movement in higher education and performance based approaches applied in budgeting and funding then looking at methods to determine public and private returns on investment in postsecondary education and closing with an examination of finance from the perspective of the primary consumer students The fourth and last section of the book focuses on presenting postsecondary finance research to policy audiences to

assist in connecting academic research and policy making Chapters focus on accounting for time considerations in analysis the placing of data in context to make the data and findings relevant and ways to effectively communicate findings to various policy making audiences   Minding the Dream Gail O. Mellow,Cynthia M. Heelan,2014-11-07 Minding the Dream provides challenging reflective and practitioner based information about community colleges that is data based clear and accessible for the general reader as well as the scholar New employees current leaders graduate students legislators and boards of trustees need a grounded sense of the magnitude of the community college sector Minding the Dream evokes the laudatory goals of the early pioneers of the community college movement while accurately framing key programs and political conundrums challenging community colleges Minding the Dream celebrates community colleges successes and is scrupulously honest about their failings Community college leaders need honest information about what s working and need to be challenged about the things that are not State Legislatures and Congress need updated facts to assist them in making wise funding decisions regarding community colleges Community college advocates need updated information to assist them in their advocacy work and Higher Education programs need an updated book about community colleges to use as a basic text These are the people who can benefit from reading Minding the Dream   Governance in the Community College Robert C. Cloud,Susan T. Kater,2008-04-07 Community college governance is a process for distributing authority influence and resources among internal and external constituencies Having evolved from traditional public school bureaucratic and political models that emphasize control and oversight community college governance is now a dynamic process with a host of participants Gone are the days when presidents and trustees acted unilaterally on college issues Although boards retain the legal authority to govern their colleges prudent trustees now encourage broad based involvement in governance Nationwide the trend is toward more participation and shared responsibility and some states are codifying the process For example the California legistlature has mandated a shared governance system in public community colleges reflecting the movement toward involvement and transparency College leaders resist or ignore that trend to the detriment of their colleges and at their own peril Interest in community college governance will increase among scholars and practitioners for many reasons Enrollments are increasing rapidly while funding is not keeping pace Taxpayer resistance is a reality Workforce training programs will compete with transfer curricula for resources Increasing numbers of poorly prepared students will require remediation For profit institutions will compete for students Employee unions will press for better salaries and benefits and meaning participation in governance Special interest groups will continue electing advocates to governing boards P 19 initiatives will require close collaboration with public schools In the meantime rogue trustees will try the patience of everyone Traditional governance models will not suffice in this demanding arena Governance structures that are more collegial flexible and inclusive will be essential in the future as community colleges evolve to meet the needs of an increasingly complex and diverse society Chapters include Community College Governance What Matters and Why

Governance over the Years A Trustee s Perspective Governance in a Union Environment Internal Governance in the Community College Models and Quilts The Effect of the Community College Workforce Development Mission on Governance Closing the Gaps in Texas The Critical Role of Community Colleges Yanks Canucks and Aussies Governance as Liberation Governance in Strategic Context Key Resources on Community College Governance This is the 141th volume of the Jossey Bass higher education quarterly report series New Directions for Community Colleges an essential guide for presidents vice presidents deans and other leaders in today s open door institutions this quarterly provides expert guidance in meeting the challenges of their distinctive and expanding educational mission **Power, Persuasion, and Politics in the Higher Education Workplace** George S. McClellan,Felecia Commodore,Dena Kniess,2025-06-19 This invaluable resource supplies foundational knowledge and expert strategies on navigating the workplace dynamics of power persuasion and politics across higher education Despite burnout compassion fatigue and questions of privilege and oppression being at the forefront of academia little if any attention is given to the political aspects of professional practice across the array of campus administrative and academic units By masterfully leveraging scholarly literature on power persuasion and politics with the tried and true collegiate expertise of the contributing authors faculty and staff will develop the knowledge and skills they need to negotiate the pervasive often intimidating political behavior that dominates the higher education workspace The ultimate guide to understanding engaging and thriving in the campus workplace this book belongs in the hands of all higher education professionals
