## **Restructuring Political Power In China:**

Restructuring Political Power in China An Chen, 2023 This systematic study of China's structural transformation during the past two decades emphasizes the balance of power game so ably played by Deng Xiaoping and others among the post Mao national leadership Chen argues that to prevent party cadre opposition to market restructuring the nemesis of change in other communist states national leaders manipulated legislative channels and party regulations to allow citizen participation in the implementation of reform programs Opportunistic realignments at the political level involving the central leadership local party cadres and ordinary citizens brought people power into the policymaking process That power suggests Chen may also presage China's constitutional evolution toward a democratic form of government      **Powering China: Reforming the**

**Electric Power Industry in China** Xu Yi-chong, 2018-02-05 This title was first published in 2002 This study of the Chinese electric power industry examines the ownership and the restructuring of the industry The reform of the electric power industry is also seen as part of the wider economic development that has been taking place in China thus providing fresh perspectives on the changes taking place in both the economy and society more generally Presenting a wealth of extensive research on the subject the book elucidates the power struggle between political and bureaucratic elite and explains the sensitive and volatile relationship between the central and provincial government against an increasingly complex global background      **The Transformation of Governance in Rural China** An Chen, 2015 Explores the economic social and financial changes that have transformed China's rural governance over the past twenty years

Kwang,1922 Workers' Democracy in China's Transition from State Socialism Stephen E. Phillion,2009-01-13 This fascinating book is among the first to examine state workers protests against privatization in China Phillion discusses how Chinese state enterprise workers have engaged a discourse of workers democracy in the process of struggle with the new social relations of work that are engendered by privatization oriented policies in China today By the 1990s this discourse was being deployed by the state in an effort to minimize the social obligations of the Party and enterprise to state workers and to win the latter over to faith in markets Phillion reveals that Chinese workers have recently engaged this discourse in order to do something they never envisioned having to do fight for what Chinese state socialism had always promised them as the masters of the factory namely the right to a job and basic social security State and Laid-off Workers in Reform China Yongshun Cai,2006 This study examines the variation in Chinese workers collective action after the Chinese government launched its 1990 reform of state enterprises putting tens of millions of people out of work The People's Congresses and Governance in China Ming Xia,2007-10-30 This book provides a balanced assessment of China s communist rule its viability as well as its prospect of democracy The People s Congresses and Governance in China presents a complex but convincing analysis of the transformation of governance in China As the first systemic and theoretical study of China s provincial legislatures it draws our attention to one of the most promising growth points in China s changing constitutional order Through in depth and first hand research the author provides a comprehensive explanation about why the provincial legislatures have acquired institutional maturation and expanded power in the context of Chinese transitional political economy The book portrays an innovative pattern of legislative development sums up pragmatic local strategies for market creation and identifies multiple dynamics for promoting accountability and democracy Based upon the case study of provincial legislatures Ming Xia reveals the formation of a new mode of governance in China s national politics the network structure featuring institutional arrangements and the mohe co operation through competition pattern of interaction abided by the major power players This volume will be of interest to parliamentary scholars and parliamentarians who are concerned with the role of parliaments in transitional politics and economies of both post communist and developing countries It will also appeal to students and researchers of Chinese politics governance and Asian studies **Bureaucratic**

**The Private Sector in Public Office** Yue Hou, 2019-09-05 This book addresses the long standing puzzle of how China's private sector manages to grow without secure property rights and proposes a new theory of selective property

rights to explain this phenomenon Drawing on rich empirical evidence including in depth interviews a unique national survey of private entrepreneurs two original national audit experiments and secondary sources Professor Yue Hou shows that private entrepreneurs in China actively seek opportunities within formal institutions to advance their business interests By securing seats in the local legislatures entrepreneurs use their political capital to deter local officials from demanding bribes ad hoc taxes and other types of informal payments In doing so they create a system of selective individualized and predictable property rights This system of selective property rights is key to understanding the private sector growth in the absence of the rule of law

**Disenfranchised** Joel Andreas,2019-08-01 In the decades following World War II factories in many countries not only provided secure employment and a range of economic entitlements but also recognized workers as legitimate stakeholders enabling them to claim rights to participate in decision making and hold factory leaders accountable In recent decades as employment has become more precarious these attributes of industrial citizenship have been eroded and workers have increasingly been reduced to hired hands As Joel Andreas shows in *Disenfranchised* no country has experienced these changes as dramatically as China Drawing on a decade of field research including interviews with both factory workers and managers Andreas traces the changing political status of workers inside Chinese factories from 1949 to the present carefully analyzing how much power they have actually had to shape their working conditions

**Power Restructuring In China And Russia** Mark Lupher,2018-02-12 The massive economic transformations and political upheavals that have been sweeping China and the Soviet Union in the final decades of the twentieth century are among the great dramas of our time Yet the origins of these revolutionary changes are murky and their outcomes unclear Have we witnessed the demise of an archaic authoritarian order and the rise of pluralism and democracy or are the tumultuous events of the post Mao era and the period of perestroika more usefully viewed in light of broader patterns of power and politics in Chinese and Russian history Considering these questions with a new interpretation of power relations and political processes in China and Russia Mark Lupher explores the imperial era the communist period and the current situation in both countries Rather than speaking of reform which too often is understood as liberalization along Western lines his discussion is focused on power restructuring the ebb and flow of state power the centralization and decentralization of political and economic power and the three way struggles between central rulers various elites and nonprivileged groups that drive these processes Lupher s power restructuring analysis is noteworthy in combining broad comparative historical analysis and conceptualization with a closely focused discussion and reinterpretation of the Chinese Cultural Revolution the core of his book By comparing and bringing new light to bear on a series of pivotal episodes in Chinese and Russian history he furthers our understanding and assessment of processes that will continue to unfold in China Russia and the former Soviet republics

**China's Twentieth Century** Wang Hui,2016-03-01 An examination of the shifts in politics and revolution in China over the last century What must China do to become truly democratic and equitable This question animates most progressive

debates about this potential superpower and in China's Twentieth Century the country's leading critic Wang Hui turns to the past for an answer Beginning with the birth of modern politics in the 1911 revolution Wang tracks the initial flourishing of political life its blossoming in the radical sixties and its decline in China's more recent liberalization to arrive at the crossroads of the present day Examining the emergence of new class divisions between ethnic groups in the context of Tibet and Xinjiang alongside the resurgence of neoliberalism through the lens of the Chongqing Incident Wang Hui argues for a revival of social democracy as the only just path for China's future China's Reforms and International Political Economy
