

The book cover features a complex, layered illustration. In the foreground, a dark, muscular, and somewhat abstract figure is depicted, possibly representing a body or a person. Behind this figure, there are various geometric and organic shapes, including a large, stylized eye or face. The background is a mix of earthy tones and patterns, suggesting a landscape or a textured surface. The overall style is reminiscent of mid-20th-century modernist or surrealist art.

**Sphere** Niamh Reilly, Stacey Scriver, 2013-11-26 The re emergence of religion as a significant cultural social and political force is not gender neutral Tensions between claims for women s equality and the rights of sexual minorities on one side and the claims of religions on the other side are well documented across all major religions and regions It is also well recognized in feminist scholarship that gender identities and ethno religious identities work together in complex ways that are often exploited by dominant groups Hence a more comprehensive understanding of the changing role and influence of religion in the public sphere more widely requires complex multidisciplinary and comparative gender analyses Most recent discussion on these matters however especially in Europe has focused primarily on the perceived subordinate status of Muslim women These debates are a reminder of the deep interrelation of questions of gender identity human rights and religious freedom more generally The relatively narrow albeit important purview of such discussions so far however underscores the need to extend the horizon of enquiry vis vis religion gender and the public sphere beyond the binary of Islam versus the West Religion Gender and the Public Sphere moves gender from the periphery to the centre of contemporary debates about the role of religion in public and political life It offers a timely multidisciplinary collection of gender focused essays that address an array of challenges arising from the changing role and influence of religious organisations identities actors and values in the public sphere in contemporary multicultural and democratic societies Feminist Christian Encounters Angela

Pears, 2019-07-16 Originally published in 2004 Feminist discourses have focused sustained and sometimes devastating critical attention on Christianity over the last fifty years Today feminisms remain significant but often ambiguous forces in contemporary Christian theology At a time in which questions about the success and viability of feminisms are increasingly posed Feminist Christian Encounters makes a unique contribution to the ongoing investigation into the creative relationship

between feminisms and Christianity Angela Pears identifies some of the key theological and methodological mechanisms by which Christian feminist theologies are informed sustained and made possible by feminist values and critiques Pears argues that certain strategies characterize the facilitation of this dialogue in contemporary Christian feminist theologies enabling theologians to accept the values and critiques of feminisms whilst at the same time proclaim some level of commitment to Christianity Engaging in a process of deconstruction of the methodologies of key Christian theological thinkers who have made use of feminisms in their theologies this book reveals the mechanisms of feminist Christian encounter at work

on the growing power of the phenomenological methods this volume brings welcome coherence and integrity to an increasingly harried science attempting to reenchanted itself with meaning and depth an endeavor artfully exemplified by phenomenological inquiries of the last several decades

**The Location of Religion** Kim Knott, 2015-08-12 The ways in which humans interact with their location is an important topic within sociological studies of religion It is integral to the place of religion in secular society *The Location of Religion: A Spatial Analysis* offers an overview of the ways in which religion can be located within social cultural and physical space It examines contemporary spatial theory notably the work of the influential sociologist Henri Lefebvre and the many disciplines that have contributed to the spatial study of religion This volume will be invaluable to all those interested in the role of religion in spatial analysis

*Maxine Hong Kingston's Broken Book of Life* Maureen Sabine, 2004-02-29 The numerous studies of Maxine Hong Kingston's touchstone work *The Woman Warrior* fail to take into account the stories in *China Men* which were largely written together with those in *The Woman Warrior* but later published separately Although Hong Kingston's decision to separate the male and female narratives enabled readers to see the strength of the resulting feminist point of view in *The Woman Warrior* the author has steadily maintained that to understand the book fully it was necessary to read its male companion text Maureen Sabine's ambitious study of *The Woman Warrior* and *China Men* aims to bring these divided texts back together with a close reading that looks for the textual traces of the father in *The Woman Warrior* and shows how the daughter narrator tracks down his history in *China Men* She considers theories of intertextuality that open up the possibility of a dynamic interplay between the two books and suggests that the Hong family women and men may be struggling for dialogue with each other even when they appear textually silent or apart

*Gender, Genre and Religion* Morny Joy, Eva K. Neumaier-Dargatzis, 2006-01-01 Many feminists today are challenging the outmoded aspects of both the conventions and the study of religion in radical ways Canadian feminists are no exception *Gender, Genre and Religion* is the outcome of a research network of leading women scholars organized to survey the contribution of Canadian women working in the field of religious studies and further to plot the path forward This collection of their essays covers most of the major religious traditions and offers exciting suggestions as to how religious traditions will change as women take on more central roles Feminist theories have been used by all contributors as a springboard to show that the assumptions of unified monolithic religions and their respective canons is a fabrication created by a scholarship based on male privilege Using gender and genre as analytical tools the essays reflect a diversity of approaches and open up new ways of reading sacred texts Superb essays by Pamela Dickey Young Winnie Tamm Morny Joy and Marsha Hewitt among others honour the first generation of feminist theologians and situate the current generation showing how they have learned from and gone beyond their predecessors The sensitive and original essays in *Gender, Genre and Religion* will be of interest to feminist scholars and to anyone teaching women and religion courses

**Bodies, Lives, Voices** Janette Gray, Kathleen O'Grady, Ann L. Gilroy, 2016-10-06 This work lies at the critical juncture of feminism and

religious studies and participates in the vibrant tradition of the feminist anthology. It is part of a broad feminist discourse that continues to grow less monolithic and more varied in material method and style each year. The papers are divided into three main sections: the representation of women in sacred texts and theologies; the fundamental need to recover the heritage of women and to return to women their history; and the coming together of canonical texts with contemporary feminist theory in order to address philosophical and theological problems.

*Introducing Theology* Melissa Raphael, 1998-12-31. There are a number of participant accounts of the revival of Goddess religion among feminists in Europe, America, and Australasia. But students and others interested in issues in the relation of religion, theology, and gender need an accessible and concise critical overview of this contemporary religious phenomenon and its discourses. *Introducing Theology*, which offers a contextual analysis of the theology, ontology, historiography, and ethics of various types of Goddess feminism, is designed to meet that need.

**Sensing Sacred** Jennifer Baldwin, 2016-08-30. *Sensing Sacred* is an edited volume that explores the critical intersection of religion and body through the religious lens of practical theology, with an emphasis on sensation as the embodied means in which human beings know themselves, others, and the divine in the world. The manuscript argues that all human interaction and practice, including religious praxis, engages body through at least one of the human senses: touch, smell, hearing, taste, sight, kinesthetics, proprioception. Unfortunately, body and more specifically, and ironically, sensation is eclipsed in contemporary academic scholarship that is inherently bent toward the realm of theory and ideas. This is unfortunate because it neglects bodies, physical or communal, as the repository and generator of culturally conditioned ideas and theory. It is ironic because all knowledge transmission minimally requires several senses, including sight, touch, and hearing. *Sensing Sacred* is organized into two parts. The first section devotes a chapter to each human sense as an avenue of accessing religious experience, while the second section explores religious practices as they specifically focus on one or more senses. The overarching aim of the volume is to explicitly highlight each sense and utilize the theoretical lenses of practical theology to bring to vivid life the connections between essential sensation and religious thinking and practice.
